

THE TOWN OF JAMESTOWN, RI

Public Shoreline Access & Rights-of-Way

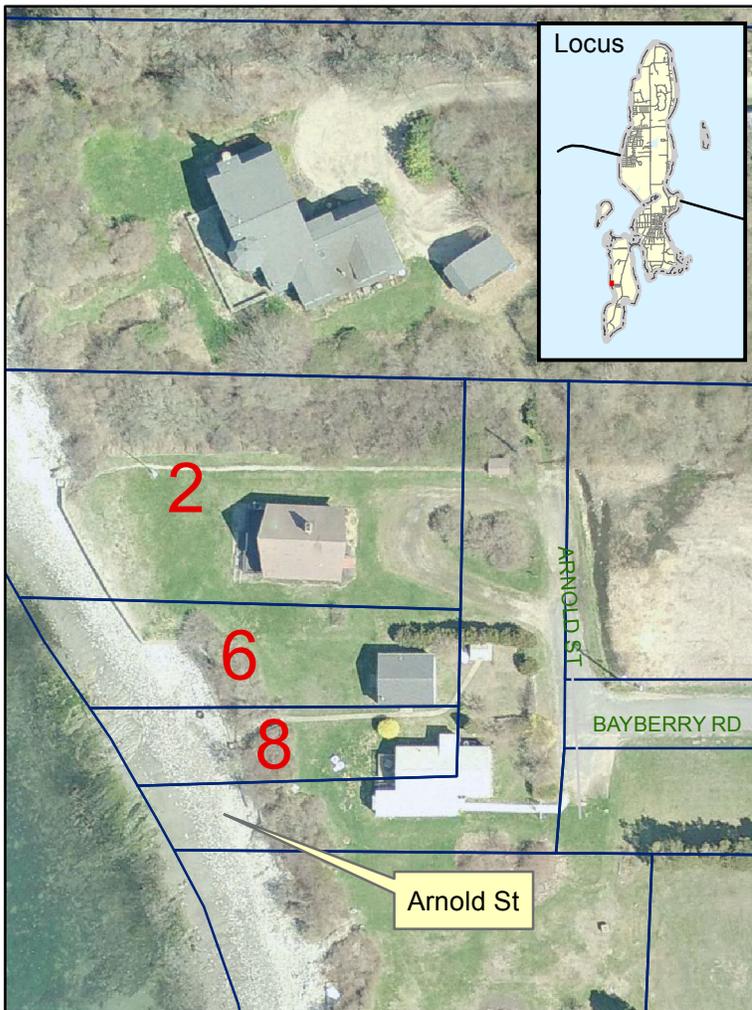

Site #35: Arnold St
Potential ROW
Plat 12

Street View

Shoreline View

Aerial View

Description:

This potential ROW is at the end of Bayberry Lane in a residential neighborhood. Arnold Avenue is a rutted dirt road that runs perpendicular to Bayberry for approx. 50 yards. The path to the water's edge appears to pass through a yard for approx. 75' before descending 10' to a rocky shoreline. The remnants of a concrete stairway remain in unstable condition. There is no space for on street parking on either Bayberry Rd or Arnold St.

Recommendation from 1999 Report:

Should this passage be found to be a public right-of-way, it would require clearing the existing concrete steps and rebuilding a staircase for proper water access. Due to the very close proximity of neighbors, limited shoreline access, lack of parking, and nearby accessibility of two large shoreline access areas with full facilities (Beavertail and Conanicut Battery), this potential right-of-way is given a priority
