INDEPENDENT AUDITOR'S REPORT

The Honorable President and
Members of the Town Council
Town of Jamestown
Jamestown, Rhode Island

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business type activities, each major fund, and the aggregate remaining fund information of the Town of Jamestown, Rhode Island (Town) as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of the Town of Jamestown, Rhode Island as of June 30, 2018, and the respective changes in financial position, and where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphases of Matter

As discussed in Note 17 for the financial statements, during the fiscal year ended June 30, 2018, the Town adopted new accounting guidance, Government Accounting Standards Board (GASB) Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions (OPEB)*. The net position of the Town has been restated to recognize the Net OPEB Liability required in implementing GASB No. 75. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 4-13 and 80-88 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Jamestown, Rhode Island's basic financial statements. The introductory section, combining nonmajor fund financial statements, other supplementary information, the Annual Supplemental Transparency Report, MTP2 and the statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

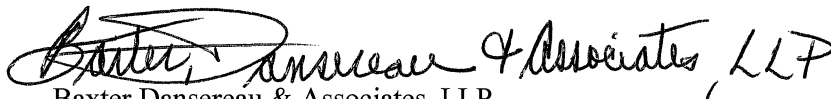

The combining nonmajor fund financial statements, other supplementary information and the Annual Supplemental Transparency Report are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining nonmajor fund financial statements, the other supplementary information and the Annual

Supplemental Transparency Report, MTP2 are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 28, 2018 on our consideration of the Town of Jamestown, Rhode Island's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of Jamestown, Rhode Island's internal control over financial reporting and compliance.

Managements' Discussion and Analysis

TOWN OF JAMESTOWN, RHODE ISLAND
Management's Discussion and Analysis
For the Year Ended June 30, 2018
(Un-audited)

Management of the Town of Jamestown provides this Management's Discussion and Analysis of the Town of Jamestown's Annual Financial Report for the readers of the Town's financial statements. This narrative overview and analysis of the financial statements of the Town of Jamestown is for the fiscal year ended June 30, 2018. We encourage readers to consider this information in conjunction with the Town's financial statements that follow.

Financial Highlights

- ❖ The Town's primary government net position increased in the amount of \$858,583 as a result of this current year's operations. On a government-wide basis the assets and deferred outflows of resources of the Town of Jamestown exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$13,328,523. Net position of business activities increased by \$70,548 or .92% while the current net position of Governmental Activities increased by \$788,035 or 16%. Also, during the fiscal year ended June 30, 2018, the Town adopted new accounting guidance, GASB Statement No. 75, *Accounting and Financial Reporting by Employers for Post-Employment Benefits Other than Pension*. Therefore, the beginning net position of the Town has been restated to recognize the net OPEB liability required in implementing GASB No. 75. The effect of the implementation caused the unrestricted net position to decrease by net (\$7,781,541).
- ❖ The Town's Government-wide (governmental and business activities) operating expenses were \$26,669,898 while revenues collected were \$27,528,481 for the 12 month fiscal year.
- ❖ As of the close of the fiscal year, the Town's governmental funds reported combined ending fund balances of \$10,916,150. Over 45% of this amount, \$5,018,340 is unassigned and available for use within the Town's designation and fiscal policies.
- ❖ At the end of the current fiscal year, the general funds unassigned fund balance was \$5,137,033 which equals 23% of the total general fund expenditures before other financing sources and uses for the fiscal year. On a GAAP basis the current fiscal year's revenues exceeded expenditures and other financing sources and uses by \$8,960. On a budgetary basis revenues exceeded expenditures and transfers by \$395,333.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Town's basic financial statements. These basic financial statements consist of three components:

- Government – wide financial statements
- Fund financial statements
- Notes to financial statements

In addition to the basic financial statements, this report also contains other supplementary information.

TOWN OF JAMESTOWN, RHODE ISLAND
Management's Discussion and Analysis
For the Year Ended June 30, 2018
(Un-audited)

The Town's basic financial statements and other supplementary financial information provide information about all of the Town's activities. They provide both a short-term and a long-term view of the Town's financial health as well as information about activities for which the Town acts solely as a trustee for the benefit of those outside of the Town's government.

Government-wide financial statements - are designed to provide readers with a broad overview of the Town's finances in a manner, which is similar to a private-sector business. They are presented on the accrual base of accounting where revenues and expenditures are recognized on the date they occurred rather than on the date they were collected or paid.

The *Statement of Net Position* presents information on all of the Town's assets, deferred outflows of resources, liabilities and deferred inflows of resources with the difference between them reported as net position. Over time, increases or decreases in the Town's net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

The *Statement of Activities* presents information which shows how the Town's net position changed during the fiscal year. All changes in net position are reported when the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in the future fiscal periods. Examples are uncollected taxes and earned but unused compensated absences.

Both of the government-wide financial statements distinguish functions of the Town, which are supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The Town's governmental activities include general government and administration, public safety, development services, cultural and recreational services. The Town's business activities include the Jamestown Harbor Management Fund, Waterfront Infrastructure Fund, Water Fund, On-site Wastewater Fund and the Sewer Fund.

The government wide financial statements are reported on pages 14 through 15.

Fund financial statements – A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town can be divided into two categories-governmental funds and proprietary funds.

Governmental Funds – Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on current sources and uses of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

TOWN OF JAMESTOWN, RHODE ISLAND
Management's Discussion and Analysis
For the Year Ended June 30, 2018
(Un-audited)

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental fund statements of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Town maintains governmental funds. Information is presented separately in the Governmental Fund Balance Sheet and in the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances for the General Fund and Capital Improvement Fund which are considered to be major funds. Data from the other funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

Proprietary Funds - The Town's proprietary funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The Town has five enterprise funds, the Jamestown Harbor Management Fund, the Waterfront Infrastructure Fund, the Water Fund, the On-site Wastewater Fund and the Sewer Fund.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Jamestown Harbor Management Fund, Waterfront Infrastructure Fund, Water Fund, On-site Wastewater Fund and Sewer Fund.

The basic proprietary fund financial statements are presented on pages 19 through 21.

Fiduciary Funds - Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statements because resources of those funds are *not* available to support the Town's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found on pages 22 and 23.

Notes to Financial Statements - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements are presented on pages 24 through 79.

Other Information - In addition to the basic financial statements and accompanying notes, this report also presents certain supplementary information pertinent to the Town's operations. Required Supplementary Information is presented on pages 80 through 96.

The combining statements referred to earlier in connection with non-major governmental funds, and proprietary funds are presented on pages 97 through 136.

Government-wide Financial Analysis

Analysis of the Town of Jamestown's Net Position

As noted earlier, net position may serve over time as a useful indicator of a government's financial position and an important determinant of its ability to finance services in the future. The Town of Jamestown, governmental activities assets & deferred outflow of resources exceeded its liabilities and deferred inflow of resources by \$5,583,980 as of June 30, 2018. This reflects an overall net increase of \$788,035 for current year activities.

On the following page is a comparison of the current and prior fiscal years.

TOWN OF JAMESTOWN, RHODE ISLAND
Management's Discussion and Analysis
For the Year Ended June 30, 2018
(Un-audited)

A portion of the Town's governmental activities net position of \$5,583,980 consists of its net investments in capital assets such as land, buildings and improvements, motor vehicles, furniture and equipment and infrastructure, less any debt used to acquire these assets, which is still outstanding. The Town uses these capital assets to provide services to its citizens. Consequently, these assets are not available for future spending. Although the Town's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves are unlikely to be used to liquidate these liabilities.

Analysis of the Town of Jamestown's Operations

The following analysis provides a summary of the Town's operations for the year ended June 30, 2018. The Town first implemented GASB Statement 34, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments for the fiscal year February 29, 2004. Therefore, comparative data is available and is presented in the following schedules. Current year Governmental activities increased the Town's net position by \$788,035 or 16% while business-type activities increased the Town's net position by \$70,548 accounting for .92% for a total increase in the primary government's net position of \$858,583 or 6.9%

The following table presents a comparative schedule of the activity that accounted for the increases in the Town's net position.

Financial Analysis of the Town of Jamestown's Funds

Governmental Funds - The focus of the Town of Jamestown's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the Town's financing requirements. In particular, the unassigned fund balance may serve as a useful measure of the Town's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the Town's governmental funds reported combined ending fund balances of \$10,916,150. Over 45% of the total amount, or \$5,018,340 constituted unassigned fund balances. The remainder of the fund balance is categorized at various commitment levels as follows.

TOWN OF JAMESTOWN, RHODE ISLAND
Reconciliation of the Statement of Revenues,
Expenditures, and Changes in Fund Balances of Governmental Funds
to the Statement of Activities
For the Fiscal Year Ended June 30, 2018

Net change in fund balances-total governmental funds \$ 141,123

Amounts reported for governmental activities in the statement of activities are different from the amounts reported as fund expenditures because:

Governmental funds reported capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital additions exceed depreciation expense in the current period.

Capital Outlay	1,235,276	
Depreciation Expense	<u>(1,193,664)</u>	41,612

Reductions in deferred revenue that provide current financial resources to governmental funds are not reported as revenues in the statement of activities. 4,457

Some expenditures reported in the governmental funds that require the use of current financial resources are not reported as expenditures in the statement of activities. This is the net effect of those activities. 2,259

Changes in the Town's Net Pension Assets, Deferred Outflows of Resources related to pension plans or Net Pension Liability and Deferred Inflows of Resources related to pension plans result in an increase or decrease to the pension expense reported in the Statement of Activities. The effect of these adjustments resulted in a decrease in pension expense reported in the Statement of Activities.

Also, under the modified accrual basis of accounting used in the governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. In the statement of activities, however, which is presented on the full accrual basis, expenses and liabilities are recorded regardless of when financial resources are available.

Notes to Financial Statements

TOWN OF JAMESTOWN, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS
June 30, 2018

NOTE 1 -SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Town of Jamestown, Rhode Island, have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the government's accounting policies are described below.

THE FINANCIAL REPORTING ENTITY

The Town of Jamestown is a municipal corporation governed by a Town Council/Town Administrator form of government with an elected five-member Town Council.

The Town of Jamestown was founded in 1639, incorporated as a Town in 1678; it was first chartered on November 5, 1974 and amended in the years 1992, 2002 and 2009. The Town is governed largely under the State Legislative Group. In some matters, including the issuance of short and long-term debt, the general laws of the State of Rhode Island govern the Town. The Town provides the following services as authorized by the State Legislative Laws: public safety (police, fire, traffic safety, inspections, zoning and building), public works (highways and streets, harbors, engineering and building maintenance), recreation, education, social services, and general administrative services.

In evaluating the inclusion of other separate and distinct legal entities as component units within its financial reporting structure, the Town applied the criteria prescribed by GASB Statement No. 14, as amended by GASB Statement No. 39, "Determining Whether Certain Organizations are Component Units." and by GASB Statement No. 61 "*The Financial Reporting Entity: Omnibus—an amendment of GASB Statements No. 14 and No. 34*". A component unit is a legally separate organization for which the elected officials of the primary government are financially accountable or for which the nature and significance of its relationship with the primary government is such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Component units are legally separate entities that meet anyone of the following three tests:

Test 1 - The primary government appoints the voting majority of the board of the potential component unit and

* is able to impose its will on the potential component unit and/or

* is in a relationship of financial benefit or burden with the potential component unit,

Test 2 - The potential component unit is fiscally dependent upon the primary government; or

Test 3 - The financial statements would be misleading if data from the potential component unit was not included.

TOWN OF JAMESTOWN, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS

NOTE 1 -SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The following entities were considered for classification as component units for the fiscal year ended 2018:

- * Jamestown School Department
- * Jamestown Fire Department
- * Jamestown Housing Authority

Although the School Department meets certain criteria of the tests listed above, the School Department is not deemed to have separate legal status apart from the Town. As a result, the financial data of the School Department has been included as part of the Towns General Fund within the Town's financial statements.

The Town of Jamestown's financial statements do not include the Jamestown Fire Department or the Jamestown Housing Authority.

A description of these entities and the reasons for their exclusion from the reporting entity are summarized below:

The Jamestown Fire Department is located in a Town-owned building. The Department was organized to provide fire protection for the citizens of Jamestown. Although this relationship suggests that the Department might be part of the reporting entity, the following factors suggest that the Department should not be included in the reporting entity:

- The Department is responsible for its fiscal affairs including the filing of any federal or state required documents.
- The Department's management is responsible for the day-to-day operations of the department and is accountable to a governing board.

The Housing Authority services only citizens of the Town of Jamestown with low income housing throughout Jamestown. Although this relationship might suggest that the Housing Authority should be part of the reporting entity, the following factors suggest that the authority should not be included in the reporting entity:

- The Housing Authority is exclusively responsible for its fiscal affairs including the funding of deficits and the disposition of surpluses.
- The Housing Authority's management is responsible for employment of personnel and for the day-to-day operations of the Authority.
- The management of the Housing Authority is accountable to the Housing Authority's governing board.

Government-Wide Financial Statements

The statement of net position and the statement of activities display information about the reporting government as a whole. They include all funds of the reporting entity except for *fiduciary funds* (the activity of these funds are reported in the statements of fiduciary net position and changes in fiduciary net position). The government-wide financial statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

NOTE 1 -SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund Financial Statements

Fund financial statements of the reporting entity are organized into funds, each of which, is considered to be separate accounting entities. Each fund is accounted for by providing a separate set of self-balancing accounts, which constitute its assets, liabilities, fund equity, revenues and expenditures/expenses. Funds are organized into three major categories: governmental, proprietary and fiduciary. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the Town or meets the following criteria:

- (a) Total assets, liabilities, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total (assets, liabilities, and so forth) for all funds of that category or type (that is, total governmental or total enterprise funds), and
- (b) Total assets, liabilities, revenues or expenditures/expenses of the individual governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

In addition to funds that meet the major fund criteria, any other governmental or enterprise fund that the government's officials believe is particularly important to financial statement users (for example, because of public interest or consistency) may be reported as a major fund.

GOVERNMENTAL FUND TYPES:

These are the funds through which most governmental functions are typically financed. The funds included in this category are as follows:

General Fund - is used to account for resources devoted to financing the general services that the Town performs for its citizens. General tax revenues and other sources of revenues used to finance the fundamental operations of the Town are included in this fund. The fund is charged with all costs of operating the government for which a separate fund has not been established.

Special Revenue Funds - are used to account for restricted or committed revenues that comprise a substantial portion of the *inflows* of a fund.

Capital Projects Funds - are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Proprietary or Trust funds).

TOWN OF JAMESTOWN, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS
June 30, 2018

NOTE 1 -SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

PROPRIETARY FUND TYPES:

These funds account for operations that are organized to be self-supporting through user charges. The funds included in this category are as follows:

Enterprise Funds - are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy management control, accountability, or other purposes.

FIDUCIARY FUND TYPES:

These funds account for assets held by the Town as a trustee or agent for individuals, private organizations, and other units of governments. *Fiduciary Fund types are not part of the reporting entity in the Government-wide financial statements.* These funds are as follows:

Pension Trust Fund - is established to provide pension benefits to Police employees. The principal revenue source for this fund is employer and employee contributions and investment income.

OPEB Trust Fund - is established to provide post-employment benefits to Police employees. The principal revenue source for this fund is employer and employee contributions and investment income.

Private Purpose Trust Funds and Agency Funds - are used to account for funds that are to be used for educational and welfare expenditures and for funds held in escrow for other parties.

BASIS OF ACCOUNTING

Measurement Focus – Government Wide Financial Statements

In the government wide financial statements the Statement of Net Position and Statement of Activities (governmental and business-type activities) are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expense, gains, losses, assets, deferred outflows of resources, liabilities and deferred inflows of resources resulting from exchange and exchange-like transactions should be recognized when the exchange takes place. . Revenues, expense, gains, losses, assets, deferred outflows of resources, liabilities and deferred inflows of resources resulting from nonexchange transactions should be recognized in accordance with the requirements of Section N50.

Those revenues susceptible to accrual are property taxes, franchise taxes, special assessments, licenses, interest revenue and charges for services. Sales taxes collected and held by the state at year-end on behalf of the government also are recognized as revenue. Fines, permits, and parking meter revenues are not susceptible to accrual because generally they are not measurable until received in cash.

TOWN OF JAMESTOWN, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS
June 30, 2018

NOTE 1 -SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

BASIS OF ACCOUNTING (continued)

Measurement Focus – Fund Financial Statements

The accounting and financial reporting treatment applied to the *fund financial statements* is determined by its measurement focus. All Governmental Fund Types and Expendable Trust Funds are accounted for using a “current financial resources” measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

All Proprietary Fund Types, Private Purpose Trust Funds and Trust Funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the balance sheet. Fund equity (i.e., net assets) is segregated into contributed capital and retained earnings components. Proprietary Fund Type operating statements present increases (i.e., revenues) and decreases (i.e. expenses) in net assets.

All governmental fund types and agency funds are accounted for using the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual, i.e. both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Licenses and permits, charges for services, fines, forfeits, and miscellaneous revenue are recorded as revenues when received in cash. Those revenues susceptible to accrual are property taxes and investment earnings. Fines and permits are not susceptible to accrual because generally they are not measurable until received in cash. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except expenditures for debt service and other long-term obligations, which are recognized when paid.

Non-current portions of long-term receivables of Governmental Fund Types are reported on their balance sheets, in spite of their spending measurement focus. Special reporting treatments are used to indicate; however, that they should not be considered "available expendable resources" since they do not represent net current assets. Recognition of Governmental Fund Type revenues represented by non-current receivables is deferred until they become current receivables.

Because of their spending measurement focus, expenditure recognition for Governmental Fund Types excludes amounts represented by non-current liabilities. Since they do not affect net current assets, such long-term amounts are not recognized as Governmental Fund Type expenditures or fund liabilities. They are instead reported as Long-term Liabilities – Governmental Activities.

In applying the "susceptible to accrual" concept to intergovernmental revenues the legal and contractual requirements of the numerous individual programs are used as guidance. There are, however, essentially two types of such revenues. For one type, monies must be expended on the specific purpose or project before any amounts will be paid to the Town; therefore, revenues are recognized based upon the expenditures recorded.

TOWN OF JAMESTOWN, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS
June 30, 2018

NOTE 1 -SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

BASIS OF ACCOUNTING (continued)

For the other type, revenues are virtually unrestricted as to purpose of expenditure and nearly irrevocable or revocable only for failure to comply with the prescribed requirements, such as a Community Development Block Grant. These resources are reflected as revenues at the time of receipt or earlier if they meet the "available" criteria.

All Proprietary Funds and Trust Funds are accounted for using the accrual basis of accounting. Their revenues are recognized when they are earned, and their expenses are recognized when they are incurred.

Budgetary Data and Budgetary Compliance - In accordance with the Town's Charter, the Town has formally established budgetary accounting control for its General Fund, and School Capital Improvement Fund, which is a Capital Projects Fund. All of the above are subject to annual operating budgets recommended by the Town Council and adopted at the annual financial town meeting.

The annual operating budgets' appropriation amounts are supported by revenue estimates and take into account the elimination of accumulated deficits and the re-appropriation of accumulated surpluses to the extent necessary. The General Fund and School Capital Improvement Fund budgets are in conformity with the legally enacted budgetary basis, which is not in conformity with generally accepted accounting principles. The budget to actual presentations in the financial statements for these funds is reflected on both the GAAP and budgetary basis. The difference between the budgetary basis and the generally accepted accounting principles basis is explained further in the Notes to Required Supplementary Information on page 90.

Appropriations, which are not expended or encumbered, lapse at year-end. The Town had no additional appropriations during the year.

Cash and Cash Equivalents - For purposes of the Statement of Cash Flows, the Proprietary Fund Types consider all highly liquid investments with a maturity of three months or less when purchased to be a cash equivalent.

Investments – Are Government Securities, Commercial Paper and various types of corporate stocks and bonds held in the Governmental or Fiduciary Fund Types, which are recorded at fair value. Fair value is determined by independent reporting agencies for all investments.

Receivables - Accounts receivable are recorded in the General, Special Revenue and Enterprise Funds. Estimated unbilled and un-advanced billed revenue from the Water and Sewer funds are recognized (or unearned) at the end of the year. The town uses the direct write off method to account for bad debt.

Property taxes, which were levied on the first Monday of June of the current year and other delinquent balances, are recorded as receivables offset by unearned revenue accounts on the balance sheets.

Inventories -Inventories are maintained on a perpetual system and are stated at cost (first in, first out method of inventory valuation) in the Enterprise Funds. Inventories are recorded as expenditures when consumed. All other funds consider the purchase of supplies and materials to be an expense when incurred.

NOTE 1 -SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

BASIS OF ACCOUNTING (continued)

Other Assets - Other assets held are recorded and accounted for at cost.

Pensions - For purposes of measuring the net pension liability, net pension asset, deferred outflows of resources, and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Town of Jamestown, Rhode Island’s various pension plans (described in more detail in Note 10) and additions to/deductions from the pension plans fiduciary net position have been determined on the same basis as they have been reported by the pension plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Capital Assets - In Governmental Fund type, operations are accounted for using the “current financial resources” measurement focus. Capital assets, which include property, plant and equipment, and infrastructure (e.g. road, curbs and gutters, streets and sidewalks, and drainage systems), are reported in the applicable governmental or business-type activity columns in the government-wide financial statements. The Town defines capital assets as assets with an individual cost of more than \$10,000 and an estimated useful life in excess of five years. Such assets are recorded at historical cost or estimated historical cost (for certain assets acquired prior to 1960). Pursuant to the implementation of GASB Statement No. 34, the historical costs of infrastructure assets (retroactive to January 1, 1979) are included as part of the governmental capital assets reported in the government-wide statements. Donated assets are recorded at estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

The Town capitalizes certain interest costs in accordance with GASB Code Section 1400 as part of constructed assets. Interest is capitalized throughout the construction period in the Capital projects fund prior to the assets being transferred to the governmental fund and placed in service.

Property, plant and equipment for Proprietary Fund Types are valued at historical cost. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred.

Property, plant and equipment of the primary government is depreciated using the straight line method over the following estimated useful lives:

Underground Piping	65 Years
Buildings & Infrastructure	25-65 Years
Other Improvements	15-30 Years
Land Improvements	10-65 Years
Machinery and Equipment	5-30 Years
Vehicles	5 Years

NOTE 1 -SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Equity Classifications

Government-Wide Statements - Equity is classified as net position and displayed in three components:

- **Net investment in capital assets** - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- **Restricted** - Consists of net position with constraints placed on their use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments, or 2) law through constitutional provisions or enabling legislation.
- **Unrestricted** - All other net position that do not meet the definition of "restricted" or "net investment in capital assets".

Governmental Fund Financial Statements - The Town has adopted the requirements of the Government Accounting Standards Board GASB Statement No. 54 - *Fund Balance Reporting and Governmental Fund Type Definitions*. Acceptance of this statement has changed the Town's presentation of the elements of fund balances, a key indicator of inter-period equity. Listed below are the new fund balance categories and their definitions.

- **Non-spendable** – are balances that are permanently precluded from conversion to cash such as permanent funds and inventories.
- **Restricted** – requires that inflows and outflows of resources and balances be constrained to a specific purpose of enabling legislation, external parties or constitutional provisions.
- **Committed** – are balances with constraints imposed by the government using the highest level of decision-making authority. These constraints can only be removed or changed by the same decision making authority taking the same type of action.
- **Assigned** – are balances intended for a specific purpose by the government's management and are also appropriations of existing fund balances.
- **Unassigned** – are balances available for any purpose. They are not precluded by a management decision, law constitutional provision in the general fund.

The Town has set classification policies and procedures for the above noted level of fund balance reporting.

- a) For committed fund balances: the Town Council is the highest level of decision making authority.
- b) For assigned fund balance: Town management has decision making authority, with approval from the Town council.
- c) The Town considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available and considers committed amounts to have been spent when and expenditure is incurred for purposes for which amounts in any other unrestricted fund balance could be used.

TOWN OF JAMESTOWN, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS

NOTE 1 -SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund Balance Policies - Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last

Revenues, Expenditures and Expenses - Revenues for Governmental Fund Types are recorded when they are determined to be both measurable and available. Generally, tax revenues, fees and non-tax revenues are recognized when received. Grants from other governments are recognized when qualifying expenditures are incurred. Expenditures for Governmental Fund Types are recorded when the related liability is incurred. The Town will make use of any available restricted resources first versus unrestricted when determining expendable funds, when both are available. Revenues and expenses of Proprietary Fund Types are recognized using the full accrual basis of accounting. Revenue is recognized as earned and expenses as incurred. Operating revenues are defined as those revenues generated from fees and assessments all others are deemed non-operating.

Program Revenues - Amounts reported as program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions (including special assessments) that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

Property Taxes - The Town is permitted by State law to levy property taxes. Current tax collections for the Town were approximately 99.40 % of the total 2017-2018 levy. The Town Council establishes the tax rate for the Town and it is then voted on at the annual Financial Town Meeting.

The Town's 2018 property taxes were levied on the first Monday of June 2017 on assessed valuations as of December 31, 2016. Upon levy, taxes are billed quarterly and are due in September, December, March and June. Failure to make payments by due dates will result interest being charged on the unpaid balance. Failure to pay taxes owed will result in the sale of the property for taxes, interest and legal fees.

Vacation, Sick Leave, and Other Compensated Absences - Under the terms of various contracts and agreements, Town and School employees are granted vacation and sick leave in varying amounts based on length of service. Accumulated vacation and vested sick leave is to be paid with available expendable financial resources from the Governmental Fund Types and are recorded as a liability in the appropriate fund. For Proprietary Fund Types accrued vacation and sick leave is recorded as a liability within those funds.

Inter-fund Transactions - Quasi-external transactions are accounted for as fund revenues, expenditures or expenses (as appropriate). Transactions which constitute reimbursements to a fund for expenditures or expenses initially made from it, which are properly applicable to another fund are recorded as expenditures or expenses (as appropriate) in the reimbursing fund and as reductions of the expenditure or expense in the fund that is reimbursed.

TOWN OF JAMESTOWN, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS
June 30, 2018

NOTE 1 -SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

All interfund transactions except advances, quasi-external transactions and reimbursements are accounted for as transfers. Nonrecurring or non-routine transfers of equity between funds are considered equity transfers. All other interfund transactions are treated as operating transfers. The Towns policy is to eliminate inter-fund liabilities when assets become available or through approved equity transfers. In the Government-Wide financial statements these inter-fund balances are eliminated so not to “gross up” the assets and liabilities of the primary government.

Deferred Outflows of Resources – Represent a consumption of net position or fund balance by a government that is applicable to a future reporting period. As of the fiscal year ended June 30, 2018 the Town recognize \$4,899,800 of deferred outflows of resources due to activities in its pension funds and refunding of bonds.

Deferred Inflows of Resources – In addition to liabilities, the statement of net position and/or balance sheet can report deferred inflows of resources. Deferred inflows of resources represent the acquisition of net position that applies to a future period and which will not be recognized as an inflow of resources (revenue) until a later date. At June 30, 2018 the Town had two items qualifying as a deferred inflow of resources in the governmental funds balance sheet. Unavailable tax revenue represents property taxes receivables which are assessed on December 31, 2016 and prior and is not collected within 60 days of June 30, 2018. Net unavailable tax revenue included in the fund financial statements was \$66,281 and prepaid unassessed taxes of \$447,041 at June 30, 2018. This amount is deferred and will be recognized as an inflow of resources in the years) in which the amounts become available. The Town also recognized \$3,886,292 of deferred inflows of resources in its governmental activities due to activities in its pension funds.

Unearned Revenues - Represent funds received in advance of being owed or receivables, which will be collected and included in revenues of future fiscal years.

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates and the differences could be material.

NOTE 2- STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Legal Debt Limit - The Town's legal debt margin as set forth by State Statute is limited to three percent of total assessed value, which approximates \$68,544,344. As of June 30, 2018, the Town's debt was under the debt limit by \$60,191,144. The long-term debt reported in the Water and Sewer Funds are exempt from the three percent limitation.

Deposits With Financial Institutions - Under Rhode Island general laws, depository institutions holding deposits of the State, its agencies or governmental subdivisions of the State, shall at a minimum, insure or pledge eligible collateral equal to one hundred percent (100%) of the deposits which are time deposits with maturity's greater than sixty (60) days. Any of these institutions, which do not meet minimum capital standards prescribed by federal regulators shall insure or pledge eligible collateral equal to one hundred percent (100%) of the deposit, regardless of maturity. There were no violations of the requirements noted in the year. At June 30, 2018 the Town's uncollateralized deposits with an institution are \$1,188,358.

TOWN OF JAMESTOWN, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS
June 30, 2018

NOTE 3 – CASH AND INVESTMENTS

Deposits: The Town maintains deposits in various financial institutions that are carried at cost except for those amounts which are carried as petty cash. The carrying amount of deposits is separately displayed on the balance sheet as "Cash and Cash Equivalents".

Investments: Investment of all idle funds shall be made through national banks or trust companies, providing that the financial conditions and integrity of said institution or institutions are verifiable and can be monitored. The investment of funds shall be in direct obligations of the United States Government and "money market instruments" rated "A" or better. Investments in any one institution shall not exceed five (5) percent of that institutions capital and surplus as set forth in the institutions most recent audited financial statements. All investments will be made as would be done by prudent men of discretion and intelligence in such matters who are seeking a reasonable income and preservation of their capital.

Interest Rate Risk: The Town limits its exposure to fair value losses arising from changes in interest rates by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity, and investing operating funds primarily in shorter-term securities, money market funds, or similar investment pools.

Concentrations: The Town policy is to maintain a diversified portfolio to minimize the risk of loss resulting from over concentration of assets in a specific maturity.

Custodial Credit Risk

Deposits: This is the risk that, in the event of failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. As of June 30, 2018, \$1,188,358 of the Town's bank balance of \$12,511,371 was uninsured and uncollateralized.

Investments: This is the risk that in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party.

Custodial Credit Risk

Interest Rate Risk: This is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. Information about the exposure of the town's debt type investments to this risk using the segment time distribution model is as follows:

Type of Investment	Investment Maturities (in Years)				
	Fair Value	Less Than 1 Year	1-5 Years	6-10 Years	Over 10 Years
Government Securities	\$ 953,551	-	\$ 253,066	\$ 463,580	\$ 236,905

Credit Risk: Generally, credit risk is the risk that an issuer of a debt type investment will not fulfill its obligation to the holder of the investment. This is measured by assignment of a rating by a nationally recognized rating organization. U.S government securities or obligations explicitly guaranteed by the U.S. government are not considered to have credit risk exposure. This table represents the investment type ratings for the Police Pension Fund as assigned by Moody's Investor's Service for the Town's debt type investments as of June 30, 2018.

NOTE 4 – PROPERTY TAXES

The Town is responsible for assessing, collecting, and distributing property taxes in accordance with enabling State legislation. Under the “current financial resources” measurement focus (fund accounting) property tax revenue is recognized in accordance with Section P70, “Property Taxes” of the *Codification of Government Accounting and Reporting Standards*, which states that such revenue is recorded when it becomes measurable and available. Available means due, or past due and receivable within the current period and collected no longer than 60 days after the close of the current period. In the government-wide financial statements revenue is recognized when earned (billed). The Town uses the direct write off method for un-collectable property taxes and follows state law when to write off the balance.

NOTE 5 – INTERFUND RECEIVABLES

The Town, in the ordinary course of business will transfer monies to various funds in order to meet current expenditures. The amounts are recorded as inter-fund balances. These amounts are expected to be repaid only when the receiving fund has sufficient available funds. These balances are eliminated on the government wide financial statements.

Interfund receivable and payable balances at June 30, 2018 are as follows:

"Total fund balances" of the town's governmental funds \$10,916,150 differs from "net position" of governmental activities \$5,583,980 reported in the statement of net position. This difference primarily results from the long-term economic focus of the statement of net position versus the current financial resources focus of the governmental fund balance sheets. The effect of the differences is illustrated below.

NOTE 7: DIFFERENCES BETWEEN GOVERNMENTAL FUND BALANCE SHEET AND THE STATEMENT OF NET POSITION.

(1) When capital assets (land, buildings, equipment) that are to be used in governmental activities are purchased or constructed, the cost of these assets are reported as expenditures in governmental funds. However, the statement of net position includes those capital assets among the assets of the town as a whole.

Cost of capital assets	\$ 46,103,881
Accumulated depreciation	<u>(22,894,642)</u>
	<u>\$ 23,209,239</u>

Because the focus of governmental funds is on short term financing, some assets will not be available to pay for current-period expenditures. Those assets (for example receivables) are offset by unearned revenues in the governmental funds and thus are not included in the fund balance.

Accrued interest	\$ (43,438)
Deferred inflow - taxes	<u>66,281</u>
	<u>\$ 22,843</u>

Long-term liabilities applicable to the town's governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities. All liabilities, both current and long-term are reported in the statement of net position.

Bonds & notes payable	\$ 8,875,783

Deferred inflows and outflows of resources are amounts used under GASB 68 in developing the annual pension expense. Deferred inflows and outflows arise with differences between expected and actual experiences; changes of assumptions. The portion of these amounts not included in pension expense should be included as deferred in or out.

NOTE 8: DIFFERENCES BETWEEN GOVERNMENTAL FUND OPERATING STATEMENTS AND THE STATEMENT OF ACTIVITIES.

The "net change in the fund balances" for governmental funds \$141,123 differs from the "change in net position" for governmental activities \$788,035 reported in the statement of activities. The differences arise primarily from the long-term economic focus of the statement of activities versus the current financial resources focus of the governmental funds. The effect of the differences is illustrated below.

NOTE 8: DIFFERENCES BETWEEN GOVERNMENTAL FUND OPERATING STATEMENTS AND THE STATEMENT OF ACTIVITIES. *(continued)*

- (1) Because some property taxes will not be collected for several months after the town's fiscal year ends, they are not considered as "available" revenues in the governmental funds. Also, non-monetary transaction such as Town acquisition of tax sale properties are not recorded on the fund statements but are recorded in the statement of activities.

Property taxes	\$ 4,457
	<u>\$ 4,457</u>

Interest expense in the statement of activities differs from the amount reported in the governmental funds because interest payments are recognized as an expenditure when paid in the governmental funds while in the statement of activities they are recognized when accrued.

Accrued interest	\$ 2,259
	<u>\$ 2,259</u>

- (2) When capital assets that are to be used in governmental activities are purchased or constructed, the resources expended for those assets are reported as expenditures in governmental funds. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. As a result, fund balance decreases by the amount of financial resources expended, whereas net assets decrease by the amount of depreciation expense charged for the year.

Capital outlay	\$ 1,235,276
Depreciation expense	(1,193,664)
Difference	<u>\$ 41,612</u>

- (3) Repayment of bond principal is reported as an expenditure in the governmental funds and, thus, has the effect of reducing fund balance because current financial resources have been used. For the town as a whole, however, the principal payments reduce the liabilities in the statement of net assets and do not result in an expense in the statement of activities. Cost associated with the refinancing of debt are expensed in the fund financials but are long-term assets and liabilities in the statement of activities

Amortization bond premium	\$ 17,398
Deferred loss on refunding debt	(16,619)
Capital lease principal payment	81,000
Principal payments made	904,792
	<u>\$ 986,571</u>

Certain accrued expenditures that do not use current financial resources are not reported in the fund financial statements. However, in the in statement of activities these accrued expenses are recognized and charged to current activities.

Net increase in compensated absences	\$ (52,250)
Net (increase) decrease in the net OPEB liability	141,033
Net (increase) decrease in the net pension liability	(182,199)
Net increase/(decrease) in deferred outflows	958,755

NOTE 9 – LONG-TERM LIABILITIES

A. General obligation Bonds and Notes Payable

The government issues general obligation bonds and notes payable to provide funds for the acquisition and construction of major capital facilities. General obligation bonds have been issued for both governmental and business-type activities. General obligation bonds are direct obligations and pledge the full faith and credit of the government. These bonds generally are issued as serial bonds with equal amounts of principal maturing each year with maturities that range from 15 to 20 years.

The Sewer Department bonds and notes payable presented in the financial statements as direct liabilities of the Sewer Department fund are general obligations of the Town backed ultimately by its taxing power. Because the proceeds of the bonds are used entirely for the benefits of the Sewer Department and the liabilities and the related debt service of these bonds are accounting for in this funds.

The Water Fund bonds and notes payable presented in the financial statements as direct liabilities of the Water Fund are general obligations of the Town backed by the Water Funds ability to assess user fees. Because the proceeds of the bonds and notes are used entirely for the benefits of the Water Fund, the liability and the related debt service of these bonds are accounted for in the Water Fund.

B. Capital Lease

The Town has entered into a capital lease agreement for the purchase of various equipment. The gross cost of the capital lease additions was for \$634,331.

The following schedule summarizes the future minimum lease payments under the capital lease and the present value of the net minimum lease payments as of June 30, 2018.

A. MUNICIPAL EMPLOYEES' RETIREMENT SYSTEM OF THE STATE OF RHODE ISLAND

General Information about the Pension Plan

Plan Description - The Municipal Employees' Retirement System (MERS) – an agent multiple-employer defined benefit pension plan - provides certain retirement, disability and death benefits to plan members and beneficiaries. MERS was established under Rhode Island General Law and placed under the management of the Employee's Retirement System of Rhode Island (ERSRI) Board to provide retirement allowances to employees of municipalities, housing authorities, water and sewer districts, and municipal police and fire persons that have elected to participate. Benefit provisions are subject to amendment by the General Assembly.

MERS issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained accessing the ERSRI website at www.ersri.org

Benefits provided – General employees, police officers and firefighters employed by electing municipalities participate in MERS. Eligible employees become members at their date of employment. Anyone employed by a municipality at the time the municipality joins MERS may elect not to be covered. Elected officials may opt to be covered by MERS. Employees covered under another plan maintained by the municipality may not become members of MERS. Police officers and/or firefighters may be designated as such by the municipality, in which case the special contribution and benefit provisions described below will apply to them, or they may be designated as general employees with no special benefits. Members designated as police officers and/or firefighters are treated as belonging to a unit separate from the general employees, with separate contribution rates applicable.

Salary: Salary includes the member's base earnings plus any payments under a regular longevity or incentive plan. Salary excludes overtime, unused sick and vacation leave, severance pay, and other extraordinary compensation. Certain amounts that are excluded from taxable wages, such as amounts sheltered under a Section 125 plan or amounts picked up by the employer under IRC Section 414(h), are not excluded from salary.

Service: Employees receive credit for service while a member. In addition, a member may purchase credit for certain periods by making an additional contribution to purchase the additional service. Special rules and limits govern the purchase of additional service and the contribution required.

General Information about the Pension Plan

Final Average Compensation (FAC): Prior to July 1, 2012 and for general employee members eligible to retire as of June 30, 2012, the average was based on the member's highest three consecutive annual salaries. Effective July 1, 2012, the average was based on the member's highest five consecutive annual salaries. Once a member retires or is terminated, the applicable FAC will be the greater of the member's highest three year FAC as of July 1, 2012 or the five year FAC as of the retirement/termination date. Monthly benefits are based on one-twelfth of this amount.

Subsequent to June 30, 2015, litigation challenging the various pension reform measures enacted in previous years by the General Assembly (2009, 2010, and 2011) was settled. The final settlement approved by the Court on July 8, 2015 also included enactment of the pension settlement provisions by the General Assembly. These amended benefit provisions, which have been included in the determination of the total pension liability at the June 30, 2015 measurement date and are reflected in the summary of benefit provisions described below.

General Employees

Members with less than five years of contributory service as of June 30, 2012 and members hired on or after that date are eligible for retirement on or after their Social Security normal retirement age (SSNRA).

Members who had at least five years of contributory service as of June 30, 2012 will be eligible for retirement at an individually determined age. This age is the result of interpolating between the member's prior Retirement Date, described below, and the retirement age applicable to members hired after June 30, 2012 in (a) above. The interpolation is based on service as of June 30, 2012 divided by projected service at the member's prior Retirement Date. The minimum retirement age is 59.

Members with 10 or more years of contributory service on June 30, 2012 may choose to retire at their prior Retirement Date if they continue to work and contribute until that date. If this option is elected, the retirement benefit will be calculated using the benefits accrued as of June 30, 2012, i.e., the member will accumulate no additional defined benefits after this date, but the benefit will be paid without any actuarial reduction.

Effective July 1, 2015, members will be eligible to retire with full benefits at the earlier of their current Rhode Island Retirement Security Act (RIRSA) date described above or upon the attainment of age 65 with 30 years of service, age 64 with 31 years of service, age 63 with 32 years of service, or age 62 with 33 years of service.

A member who is within five years of reaching their retirement eligibility date and has 20 or more years of service, may elect to retire at any time with an actuarially reduced benefit.

Prior to July 1, 2012, members were eligible for retirement on or after age 58 if they had credit for 10 or more years of service, or at any age if they had credit for at least 30 years of service. Members eligible to retire before July 1, 2012 were not impacted by the changes to retirement eligibility above.

NOTE 10 – EMPLOYEE RETIREMENT SYSTEMS

A. MUNICIPAL EMPLOYEES' RETIREMENT SYSTEM OF THE STATE OF RHODE ISLAND *(continued)*

General Employees

The annual benefit is equal to 2.00% of the member's monthly FAC for each year of service prior to July 1, 2012 and 1.00% of the member's monthly FAC for each year of service from July 1, 2012 through June 30, 2015. For all service after June 30, 2015, the annual benefit is equal to 1.0% per year unless the member had 20 or more years of service as of June 30, 2012 in which case the benefit accrual is 2.0% per year for service after June 30, 2015. The benefit cannot exceed 75% of the member's FAC. Benefits are paid monthly.

Police and Fire Employees

Members are eligible to retire when they are at least 50 years old and have a minimum of 25 years of contributing service or if they have 27 years of contributing service at any age. Members with less than 25 years of contributing service are eligible for retirement on or after their Social Security normal retirement age.

Members who, as of June 30, 2012, had at least 10 years of contributing service, had attained age 45, and had a prior Retirement Date before age 52 may retire at age 52.

Active members on June 30, 2012 may choose to retire at their prior Retirement Date if they continue to work and contribute until that date. If option is elected, the retirement benefit will be calculated using the benefits accrued as of June 30, 2012, i.e., the member will accumulate no additional defined benefits after this date, but the benefit will be paid without any actuarial reduction.

A member who is within five years of reaching their retirement eligibility date, as described in this section, and has 20 or more years of service, may elect to retire at any time with an actuarially reduced benefit.

Prior to July 1, 2012, members designated as police officers or firefighters were eligible for retirement at or after age 55 with credit for at least 10 years of service or at any age with credit for 25 or more years of service. Members were also eligible to retire and receive a reduced benefit if they are at least age 50 and have at least 20 years of service. If the municipality elected to adopt the 20-year retirement provisions for police officers and/or firefighters, then such a member was eligible to retire at any age with 20 or more years of service. Members eligible to retire before July 1, 2012 were not impacted by the changes to retirement eligibility above.

A monthly benefit is paid equal to 2.00% of the member's monthly FAC for each year of service, up to 37.5 years (75% of FAC maximum).

If the optional 20-year retirement provisions were adopted by the municipality prior to July 1, 2012: benefits are based on 2.50% of the member's FAC for each year of service prior to July 1, 2012 and 2.00% of the member's FAC for each year of service after July 1, 2012. The benefit cannot exceed 75% of the member's FAC.

Active members (including future hires), members who retire after July 1, 2015 and after attaining age 57 with 30 years of service will have a benefit equal to the greater of their current benefit described in (a) and (b) above and one calculated based on a 2.25% multiplier for all years of service.

Other Benefit Provisions

Death and disability benefits are also provided to members. A member is eligible for a disability retirement provided he/she has credit for at least five years of service or if the disability is work-related. Members are not eligible for an ordinary disability benefit if they are eligible for unreduced retirement.

Joint and survivor benefit options are available to retirees. For some employees, a Social Security Option is also available where an annuity is paid at one amount prior to age 62, and at a reduced amount after age 62, designed to provide a level total income when combined with the member's age 62 Social Security benefit. Benefits cease upon the member's death.

Post-retirement benefit increases are paid to members who retire after June 30, 2012. Members will be eligible to receive cost of living increases at the later of the member's third anniversary of retirement and the month following their SSNRA (age 55 for members designated as police officers and/or firefighters). When a municipality elects coverage, it may elect either COLA C (covering only current and future active members and excluding members already retired) or COLA B (covering current retired members as well as current and future active members).

a. The COLA will be suspended for any unit whose funding level is less than 80%; however, an interim COLA may be granted in four-year intervals while the COLA is suspended. The first interim COLA may begin January 1, 2018.

b. Effective July 1, 2015, the COLA is determined based on 50% of the plan's five-year average investment rate of return less 5.5% limited to a range of 0.0% to 4.0%, plus 50% of the lesser of 3.0% or last year's CPI-U increase for a total maximum increase of 3.50%. Previously, it was the plan's five-year average investment rate of return less 5.5% limited to a range of 0.0% to 4.0%

c. The COLA will be limited to the first \$25,000 of the member's annual pension benefit. For retirees and beneficiaries who retired on or before July 1, 2015, years in which a COLA is payable based on the every fourth year provision described in (i) above will be limited to the first \$30,000. These limits will be indexed annually to increase in the same manner as COLAs, with the known values of \$25,000 for 2013, \$25,000 for 2014, \$25,168 for 2015, \$25,855 for 2016, and \$26,098 for 2017.

Employees covered by benefit terms

At the June 30, 2016 valuation date, the following employees were covered by the benefit terms:

Town General Employees:

Retirees and Beneficiaries	38
Inactive, Nonretired Members	33
Active Members	82
Total	153

Contributions - The amount of employee and employer contributions have been established under Rhode Island General Law Chapter 45-21. General employees with less than 20 years of service as of June 30, 2012 are required to contribute 1% of their salaries (2% percent if the employer opted to provide a COLA). General employees with more than 20 years of service as of June 30, 2012 are required to contribute 8.25%. Public safety employees are required to contribute 9% of their salaries (10% if the employer opted to provide a COLA). The Town of Jamestown contributes at a rate of covered employee payroll as determined by an independent actuary on an annual basis. The General Assembly can amend the amount of these contribution requirements. The Town of Jamestown contributed \$437,961 in the year ended June 30, 2018 which was 10.35% of annual covered payroll.

Net Pension Liability (Asset) - The total pension liability was determined by actuarial valuations performed as of June 30, 2016 and rolled forward to June 30, 2017, using the following actuarial assumptions, applied to all periods included in the measurement.

Summary of Actuarial Assumptions Used in the Valuations to determine the Net Pension Liability at the June 30, 2017 measurement date (June 30, 2016 valuation rolled forward to June 30, 2017)	
Actuarial Cost Method	Entry Age Normal - the Individual Entry Age Actuarial Cost methodology is used.
Amortization Method	Level Percent of Payroll – Closed
Actuarial Assumptions	
Investment Rate of Return	7.00%
Projected Salary Increases	General Employees - 3.50% to 7.50% ; Police & Fire Employees - 4.00% to 14.00%
Inflation	2.5 %
Mortality	Mortality – variants of the RP-2014 mortality tables - for the improvement scale, update to the ultimate rates of the MP-2016 projection scale.
Cost of Living Adjustments	A 2% COLA is assumed after January 1, 2014.

The actuarial assumptions used in the June 30, 2015 valuation rolled forward to June 30, 2016 and the calculation of the total pension liability at June 30, 2016 were consistent with the results of an actuarial experience study performed as of June 30, 2013.

The long-term expected rate of return best-estimate on pension plan investments was determined by the actuary using a building-block method. The actuary started by calculating best-estimate future expected real rates of return (expected returns net of pension plan investment expense and inflation) for each major asset class, based on a collective summary of capital market expectations from 35 sources. The June 30, 2016 expected arithmetic returns over the long-term (20 years) by asset class are summarized in the following table:

These return assumptions are then weighted by the target asset allocation percentage, factoring in correlation effects, to develop the overall medium-term expected rate of return best-estimate on an arithmetic basis.

Discount rate - The discount rate used to measure the total pension liability of the plans was 7.0 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from the employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

General Information about the Pension Plan

Plan description - Certain employees of the Jamestown School Department participate in a cost-sharing multiple-employer defined benefit pension plan - the Employees' Retirement System plan - administered by the Employees' Retirement System of the State of Rhode Island (System). Under a cost-sharing plan, pension obligations for employees of all employers are pooled and plan assets are available to pay the benefits of the employees of any participating employer providing pension benefits through the plan, regardless of the status of the employers' payment of its pension obligation to the plan. The plan provides retirement and disability benefits and death benefits to plan members and beneficiaries.

The System issues a publicly available financial report that includes financial statements and required supplementary information for the plans. The report may be obtained at <http://www.ersri.org>.

Benefit provisions – The level of benefits provided to participants is established by Chapter 36-10 of the General Laws, which is subject to amendment by the General Assembly. Member benefit provisions vary based on service credits accumulated at dates specified in various amendments to the General Laws outlining minimum retirement age, benefit accrual rates and maximum benefit provisions. In general, members accumulate service credits for each year of service subject to maximum benefit accruals of 80% or 75%. For those hired after June 30, 2012, the benefit accrual rate is 1% per year with a maximum benefit accrual of 40%. Members eligible to retire at September 30, 2009 may retire with 10 years of service at age 60 or after 28 years of service at any age. The retirement eligibility age increases proportionately for other members reflecting years of service and other factors until it aligns with the Social Security Normal Retirement Age, which applies to any member with less than 5 years of service as of July 1, 2012. Members are vested after 5 years of service.

The plan provides for survivor's benefits for service connected death and certain lump sum death benefits. Joint and survivor benefits provision options are available to members.

Cost of living adjustments are provided but are currently suspended until the collective plans administered by ERSRI reach a funded status of 80%. Until the plans reach an 80% funded status, interim cost of living adjustments are provided at four-year intervals commencing with the plan year ending June 30, 2016.

The plan also provides nonservice-connected disability benefits after five years of service and service-connected disability benefits with no minimum service requirement.

Contributions - The funding policy, as set forth in the General Laws, Section 16-16-22, provides for actuarially determined periodic contributions to the plan. For fiscal 2017, the Jamestown School Department teachers were required to contribute 3.75% of their annual covered salary, except for teachers with twenty or more years of service as of June 30, 2012 must contribute 11% of their annual covered salary. The state and the Jamestown School Department are required to contribute at an actuarially determined rate, 40% of which is to be paid by the state and the remaining 60% is to be paid by Jamestown School Department; the rates were 9.89% and 13.24% of annual covered payroll for the fiscal year ended June 30, 2018 for the state and Jamestown School Department, respectively. The Jamestown School Department contributed \$543,890, \$535,382 and \$568,626 for the fiscal years ended June 30, 2018, 2017 and 2016, respectively, equal to 100% of the required contributions for each year.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources

At June 30, 2018, the Jamestown School Department reported a liability of \$7,221,704 for its proportionate share of the net pension liability that reflected a reduction for contributions made by the state. The amount recognized by the Jamestown School Department as its proportionate share of the net pension liability, the related state support and the total portion of the net pension liability that was associated with the Jamestown School Department were as follows:

Jamestown School Department proportionate share of the net pension liability	\$ 7,221,704
State's proportionate share of the net pension liability associated with the Jamestown School Department.	<u>5,457,873</u>
Total net pension liability	<u><u>\$ 12,679,577</u></u>

The net pension liability was measured as of June 30, 2017, the measurement date, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2016 rolled forward to June 30, 2017. The Jamestown School Department's proportion of the net pension liability was based on a projection of the Department's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers and the state, actuarially determined. At June 30, 2017 the Jamestown School Department's proportion was .22896342%.

C. POLICE DEPARTMENT PENSION PLAN

For the fiscal year ended June 30, 2015 the Town has adopted the requirements of the Government Accounting Standards Board GASB Statement No. 68 – *Accounting and Financial Reporting for Pension Plans – an amendment of GASB Statement No. 27*. The objective of this Statement is to improve financial reporting by state and local governmental pension plans. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for pensions with regard to providing decision-useful information, supporting assessments of accountability and inter-period equity, and creating additional transparency. This Statement replaces the requirements of Statements No. 27, *Accounting for Pensions by State and Local Governmental Employers*, as well as the requirements of Statement No. 50, *Pension Disclosures*, as they relate to pension plans that are administered through trusts or equivalent arrangements (hereafter jointly referred to as trusts) that meet certain criteria. The requirements of Statements 27 and 50 remain applicable to pension plans that are not administered through trusts covered by the scope of this Statement.

C. POLICE DEPARTMENT PENSION PLAN (continued)

Plan Description

The Town of Jamestown administers a separately maintained Police Pension Plan. The pension plan is considered to be a single-employer defined benefit pension plan. The plan's funding is based on actuarial valuations that result in annual employer/employee contributions that include an amount for the past, present, and future benefit. The last actuarial valuation, reported herein, was as of July 1, 2018. The plan's assets are reported in the Town's annual financial report as a Pension Trust Fund.

The plan provides retirement benefits as well as death and disability benefits. All sworn members of the police department contribute to the plan upon becoming a sworn officer. Participants in the plan hired prior to July 1, 2014 are eligible to retire after 20 years of service or at age 55 upon becoming vested after a minimum of ten years of service. Participants in the plan hired after July 1, 2014 are required to serve a minimum of 25 years of service.

As of July 1, 2018, employee membership data related to this plan was as follows:

Active Members	13
Vested Term	2
Retired Members	<u>14</u>
TOTAL	<u>29</u>

The plan provides for both occupational and non-occupational disability benefits. Non-occupational disability is provided for a participant who has completed seven (7) years of service and becomes totally and permanently disabled, and shall be entitled to receive a benefit equal to 50 percent of average compensation. A participant who becomes totally and permanently disabled as a result of the course of his/her employment shall be entitled to receive a benefit equal to 66 2/3 percent of average compensation. Compensation is averaged over the last thirty-six (36) months of employment for participants hired prior to July 1, 2014. Compensation is averaged over the last sixty (60) months of employment for participants hired after to July 1, 2014.

If a participant shall die while employed, he shall receive a single sum benefit equal to the greater of the value of accumulated contribution, plus credited interest or \$400 multiplied by years of service up to 25 years subject to a minimum benefit of \$2,000. Employee's spouses are eligible for pre-retirement death benefits of 40 percent of average compensation until death or remarriage.

Valuation of Investments

Investments are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates.

C. POLICE DEPARTMENT PENSION PLAN *(continued)*

Funding Policy

Police Department Pension Plan members are required to contribute 9% of their annual salary. The Town is required to contribute at an actuarially determined rate. The Town Council has the authority to determine the Town's obligation to contribute to the plan. The funding policy is based on the availability of Town assets. Required contribution rates by plan members are negotiated through labor contracts.

Investments

It is the policy of the Jamestown Police Pension Board to pursue an investment strategy that reduces risk through prudent diversification of the portfolio across a broad selection of distinct asset classes. The following was the Board's adopted asset allocation policy as of June 30, 2018.

Long Term Expected Rate of Return and Asset Allocation

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

<u>Asset Class</u>	<u>June 30, 2018 Asset Allocation</u>	<u>Target Asset Allocation</u>	<u>Long Term Expected Real Rate of Return</u>

C. POLICE DEPARTMENT PENSION PLAN *(continued)*

Rate of return: For the year ended June 30, 2018, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 5.01 percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

The components of the net position liability of the Town of Jamestown at June 30, 2018, were as follows:

	<u>June 30, 2018</u>
Total pension liability	\$ 10,589,532

	<u>1% Decrease 6.00%</u>	<u>Current Discount Rate 7.00%</u>	<u>1% Increase 8.00%</u>
Plan's Net Pension Liability as of June 30, 2018	\$ 1,652,469	\$ 120,433	\$ (1,113,631)

Discount rate: The discount rate used to measure the total pension liability was 7.00 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that Town contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

D. DEFINED CONTRIBUTION PLAN

Plan Description

Employees participating in the defined benefit plan with less than 20 years of service as of June 30, 2012, as described above, also participate in a defined contribution plan authorized by General Law Chapter 36-10.3. The defined contribution plan is established under IRS section 401(a) and is administered by TIAA-CREF. Employees may choose among various investment options available to plan participants. Employees contribute 5% of their annual covered salary and employers contribute between 1% and 1.5% of annual covered salary depending on the employee’s total years of service as of June 30, 2012. Employee contributions are immediately vested while employer contributions and any investment earnings thereon are vested after three years of contributory service. Benefit terms and contributions required under the plan by both the employee and employer are established by the General Laws, which are subject to amendment by the General Assembly.

Amounts in the defined contribution plan are available to participants in accordance with Internal Revenue Service guidelines for such plans.

NOTE 11- FUND EQUITY

The fund equity balances have been classified to reflect the limitations and restrictions placed on the respective funds as follows:

The following fund balance categories are recorded on the Balance Sheet of Government Funds in the financial statements at June 30, 2018:

- **Non-spendable** – are balances that are permanently precluded from conversion to cash such as permanent funds and inventories.
- **Restricted** – requires that inflows and outflows of resources and balances be constrained to a specific purpose of enabling legislation, external parties or constitutional provisions.
- **Committed** – are balances with constraints imposed by the government using the highest level of decision-making authority. These constraints can only be removed or changed by the same decision making authority taking the same type of action.
- **Assigned** – are balances intended for a specific purpose by the government’s management and are also appropriations of existing fund balances.
- **Unassigned** – are balances available for any purpose. They are not precluded by a management decision, law constitutional provision in the general fund.

NOTE 12 –OTHER POST RETIREMENT BENEFITS

The Town of Jamestown OPEB Trust (the Trust)

In FY16 the Town of Jamestown and the Jamestown School Department have jointly entered into a program to address their respective Other Post Employment Benefit liability (OPEB). Together the Town and School have established a trust. This program will be managed by the Rhode Island Interlocal Risk Management Trust, the Town’s Insurer (The Trust).

In partnership with Public Agency Retirement Services (PARS), The Trust has established a comprehensive and cost-effective Other Post-Employment Benefits (OPEB) Funding Program. Under a common administrative framework, The Trust OPEB Funding Program provides participating Members with a trusted solution to proactively address their OPEB liabilities and risks.

It is structured as a multiple-employer, irrevocable trust in accordance with Section 115 of the Internal Revenue Code and is compliant with federal and state laws and regulations.

Participating Members gain the advantage of a low-cost fee structure, based on a percentage of assets that decreases as assets grow. And although assets are pooled for economies of scale, there is no cross sharing of earnings or liabilities. Each Member maintains their own separate accounts providing full discretion regarding contribution amounts and timing.

NOTE 12 –OTHER POST RETIREMENT BENEFITS *(continued)*

Benefit Formula

Police Officers:

Individual or family medical coverage is available to retirees under Blue Cross Healthmate Coast to Coast plan. The Town of Jamestown, Rhode Island (the "Town") covers 100% of the coverage for retired members hired prior to March 1, 1996 (except as described below); the Town also covers 80% of the coverage for retired members hired after March 1, 1996. Retired members are not paid a subsidy or lump sum payment when opting out of coverage. Effective with future retirees that were hired prior to March 1, 1996, the Town would cover 93% of the coverage in 2011, and 85% of coverage for years beginning in 2012.

Benefit Formula

School Employees: Eligible employees hired prior to 8/31/1985 receive either individual or family medical coverage under Blue Cross Blue Shield Classic Plan or Healthmate Coast to Coast until the retiree becomes Medicare eligible. When the retiree becomes eligible for Medicare, he/she, and an eligible spouse, will be covered under the Plan 65. Retirees also receive individual or family Delta Dental coverage. Eligible employees hired prior to 8/31/1985 contribute 5% of their premium. Effective July 1, 2012, all current and future retirees are required to be enrolled in Medicare Part A and Part B to continue post-65 medical coverage under this Plan. Eligible employees hired between 8/31/1985 and 7/1/1997 will receive 2 years of individual medical coverage under Blue Cross Blue Shield Classic Plan or Healthmate Coast to Coast until age 65.

Retirees also receive individual Delta Dental coverage. Eligible employees hired in this period also contribute 5% of their premium. In addition, it is our understanding that eligible employees hired between 7/1/1997 and 8/31/2000 will be treated similarly. Eligible employees hired after 8/31/2000 may continue medical and dental coverage with the entire premium paid by the retiree. Surviving spouses are not eligible to continue receiving benefits.

Funding Policy

Contribution requirements are negotiated between the Town and the respective unions. The Town is required to contribute the cost of medical/drug and dental benefits, less the amount of any applicable co-payment in effect at the time of retirement. For the year-ended June 30, 2018, the plan operated on a pay as you go basis but as noted above contributions to a trust fund have been made to fund future benefits to be provided to plan members.

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include types of benefits provided at the time of each valuation and the historical pattern of sharing benefit cost between the employer and the plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. Below are the actuarial assumptions used to project future cost of the plan.

Police Officers Plan

Investments

Investment policy: The investment policy for the Police plan and the School Department in regard to the allocation of invested assets is established and may be amended from time to time. The policy is to pursue an investment strategy that reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes. The investment policy discourages the use of cash equivalents, except for liquidity purposes, and aims to refrain from dramatically shifting asset class allocations over short time spans. The following is the adopted asset allocation policy as of June 30, 2018:

Asset Class	Target Allocation	Long-term Expected Real Rate of Return
Large Cap US Equity	37.10%	8.00%
Small/Mid Cap US Equity	8.00%	6.80%
International Equity	15.90%	8.60%
Intermed. To Long Bonds	34.20%	3.33%
Short-Term Bonds and Cash	4.80%	3.90%
	100%	
Projected Rate of Return		6.21%

Rate of Return: For the year ended June 30, 2018, the annual money-weighted rate of return on investments, net of investment expense, was 4.94% for the police department and 6.69% for the school department. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Net OPEB Liability of the Town and School Department

The components of the net OPEB liability of the Town at June 30, 2018, were as follows:

	Police Department	School Department
Total OPEB liability	\$ 4,109,409	\$ 6,741,590

\$ 4,796,083	\$ 5,606,735	\$ 6,595,905

Discount Rate

The discount rate used to measure the total OPEB liability was 3.62% of the Town and 3.67% for the School. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that Town contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plans fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

NOTE 13 - SUMMARY DISCLOSURE OF SIGNIFICANT CONTINGENCIES

A. Litigation

During the ordinary course of its operations, the Town is a party to various claims, other legal actions and complaints. These various legal actions include disputes in property valuations and torts for which the Town has been named as a defendant. In the opinion of the Town's management and legal counsel, they do not anticipated any of them to have a material financial impact or at this time their legal counsel has been unable to assess liability, if any, on the part of the Town.

B. Federally Assisted Programs - Compliance Audits

The Town participates in a number of federally assisted programs. The audits of these programs through the year ended June 30, 2018 were audited in connection with the accompanying financial statements under the Single Audit Uniform Guidance Concept. The Town used the current standards of that guidance to determine that a Single Audit was not required for the fiscal year ended June 30, 2018.

NOTE 14 - RISK MANAGEMENT

The Town of Jamestown is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors or omissions; injuries to employees; and natural disasters. As a result, the Town participates in a non-profit, public entity risk pool (Rhode Island Inter-local Risk Management Trust, Inc.) that provides coverage for property/liability claims and workers' compensation claims. Upon joining the Trust, the Town signed a participation agreement that outlines the rights and responsibilities of both the Trust and the Town. The agreement states that for premiums paid by the Town, the Trust will assume financial responsibility for the Town's losses up to the maximum amount of insurance purchased, minus the Town's deductible amounts. The policy is not retrospectively rated, but rather, premiums are based on the ultimate cost of the groups experience to date. The pool is allowed to make additional assessments for claims that are reasonably possible and estimable.

The Trust provides this insurance coverage through a pooled, self-insurance mechanism, which includes reinsurance purchased by the Trust to protect against large, catastrophic claims above the losses the Trust, retains internally for payment from the pooled contributions of its Members. Under the participation agreement, the Town is insured for a maximum of \$2,000,000 per occurrence. Settled claims resulting from these risks have not exceeded the Trust coverage in any of the past three fiscal years. It is not anticipated that the risks will exceed the trust coverage in the current year. There are no claims incurred for which the insurance pool has denied coverage. Therefore there are no incurred but not recorded liabilities at June 30, 2018.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
JUNE 30, 2018

The accompanying Statement of Revenues, Expenditures (GAAP or Budgetary Basis Non-GAAP) presents comparisons of the legally adopted budget with actual data on a budgetary basis. Because accounting principals applied for purposes of developing data on a budgetary basis differ significantly from those used to present financial statements in conformity with GAAP, a reconciliation of resultant basis, entity and timing differences in the excess (deficiency) of revenues and other financial resources over expenditure / expenses and other uses of financial resources for the year ended June 30, 2018 is presented below:

	General <u>Fund</u> GAAP Basis	School Capital <u>Improvement</u> GAAP Basis
Excess (deficiency) of revenues and other sources over (under) expenditures/expenses and other uses (Non-GAAP basis)	\$ 395,333	\$ (18,076)

Notes to Schedule:

Actuarially Determined Contribution:

Calculated as the normal cost plus a 15 year amortization of the unfunded actuarial accrued liability.

Actuarial Cost Method:

Entry Age Normal Actuarial Cost Method

Normal Cost

The normal cost is the sum of the normal costs for all active participants who have not reached the assumed retirement date. For each such participant, the individual normal cost is the participant's normal cost accrual rate multiplied by the participant's current compensation. The normal cost accrual rate equals (a) the actuarial present value of future benefits as of the participant's entry age divided by (b) the actuarial present value of future compensation as of the participant's entry age. For other participants, the normal cost equals zero.

Salary Increase:

4.00% per year.

Asset valuation method:

Market value of assets

Investment Rate of Return:

7.00%

Retirement Age:

The later-of (a) the earlier of age 55 and the completion of 25 years of service, or (b) the participant's current age.

Mortality:

RP 2014 Blue Collar /Healthy Annuitant tables (M/F) with MP 2018 Generational Improvement from 2006 for the Fiscal Year Ended 6/30/2018.

Various other assumptions were used in prior valuations. These were disclosed in the respective valuation reports.

NOTES TO SUPPLEMENTARY INFORMATION
JUNE 30, 2018

The accompanying Statement of Revenues, Expenditures (GAAP or Budgetary Basis Non-GAAP) presents comparisons of the legally adopted budget with actual data on a budgetary basis. Because accounting principals applied for purposes of developing data on a budgetary basis differ significantly from those used to present financial statements in conformity with GAAP, a reconciliation of resultant basis, entity and timing differences in the excess (deficiency) of revenues and other financial resources over expenditure / expenses and other uses of financial resources for the year ended June 30, 2018 is presented below:

	General <u>Fund</u> GAAP Basis	School <u>Department</u> GAAP Basis	<u>Combined</u> GAAP Basis
Excess (deficiency) of revenues and other sources over (under) expenditures/expenses and other uses (Non-GAAP basis)	\$ 443,851	\$ (48,518)	\$ 395,333
<i>Adjustments:</i>			
Use of accumulated fund balance surplus	<u>(250,000)</u>	<u>(200,000)</u>	<u>(450,000)</u>
Excess of revenues and other sources over expenditures and other uses of funds classified with the General Fund for purposes of GASB Statement No. 54	-	-	63,627
Excess (deficiency) of revenues and other sources over (under) expenditures/expenses and other uses (GAAP basis)	<u>\$ 193,851</u>	<u>\$ (248,518)</u>	<u>\$ 8,960</u>

TOWN OF JAMESTOWN, RHODE ISLAND
Notes to Supplementary Information
Annual Supplemental Transparency Report (MTP2)
June 30, 2018

NOTE 1. Basis of Presentation

The *Annual Supplemental Transparency Report (MTP2)* is a supplemental schedule required by the State of Rhode Island General Laws 45-12-22.2 and 44-35-10. This supplementary schedule included within the audit report is part of a broader project to create a municipal transparency portal (MTP) website to host municipal financial information in a centralized location.

The format of the *Annual Supplemental Transparency Report (MTP2)* was prescribed by the State Department of Revenue (Division of Municipal Finance), Office of the Auditor General, and the Department of Education.

NOTE 2. Reportable Government Services

Data consistency and comparability are among the key objectives of the State's Municipal Transparency portal. Consistent with that goal, the State has defined "reportable government services", RGS, to include those operational revenues, expenditures, and transfers related to activities which are essential to the achievement of municipal operations. The determination of RGS may be different from the activities included within the legally adopted budget of the municipality. In practice, some communities report certain RGS in separate funds (e.g., special revenue funds, enterprise funds) rather than the municipality's general fund. The *Annual Supplemental Transparency Report (MTP2)* includes a reconciliation to the fund level statements.

NOTE 3. Allocations

The State reporting requires expenditures to be reported by departments, as defined by the State. Some of the departmental groupings are not consistent with the departments reflected in the Town's budget and accounting system. To report these costs, the Town's made allocations of costs to the State's departmental groupings based on a reasonable basis.

NOTE 4. Employee Groups - Compensation and Benefit Costs

Compensation includes salaries, longevity, stipends, clothing allowance/maintenance, shift differential, out-of-rank, holiday pay and bonuses.

For Public Safety departments (i.e., police, fire, and centralized dispatch) and the Education Department, compensation and most benefits costs are reported in the following employee groupings:

Group A: This group consists of employees who serve the primary function of the department.

- Police Department - police officers (e.g., uniform personnel - including, leadership positions)
- Fire Department - fire fighters (e.g., uniform personnel - including, leadership positions)
- Centralized Dispatch Department - civilian dispatchers only
- Education Department - professional staff providing direct services to students

TOWN OF JAMESTOWN, RHODE ISLAND
Notes to Supplementary Information
Annual Supplemental Transparency Report (MTP2)
June 30, 2018

- For the remaining departments - all employees' compensation and benefits are reported under Group A

Group B: For Police and Fire Departments, compensation and benefits paid to its administrative employees and civilian dispatch employees are reported under Group B. The Education Department reports compensation and benefits paid to executive/mid-level educational administration employees under Group B.

Group C: This group is only used for the Education Department and it includes administrative and support staff.

Other post-employment benefits (OPEB) are not reported by employee groups on the MTP2. They are reported in total as either (1) contributions to a qualified OPEB trust or (2) the amount paid for medical and dental insurance for retirees when an OPEB trust fund has not been established. The detail employee group information for the Education Department can be found on the State's Municipal Transparency portal website.

NOTE 5. Education Revenue and Expenditures

The revenues and expenditures presented on the MTP2 under the Education Department is consistent with existing Uniform Chart of Accounts (UCOA) guidelines. Each MTP account code has been mapped to the corresponding UCOA code or group of UCOA codes to facilitate the preparation of the MTP reporting.

Additional guidance and definitions regarding the State's Municipal Transparency Portal can be found on the State Division of Municipal Finance website: <http://www.municipalfinance.ri.gov/>.

INDEPENDENT AUDITOR'S REPORT

The Honorable President
and Members of the Town Council
Town of Jamestown, Rhode Island

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business type activities, each major fund, and the aggregate remaining fund information of the Town of Jamestown, Rhode Island as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the Town of Jamestown's basic financial statements, and have issued our report thereon dated December 28, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Town of Jamestown's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town of Jamestown's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town of Jamestown's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town of Jamestown's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
