I. ROLL CALL; CALL TO ORDER

II. TELECONFERENCE PROCEDURES FOR PROCEEDINGS & PUBLIC PARTICIPATION

III. APPROVAL OF MINUTES

- A. Approval of the minutes of the June 23, 2020 meeting; discussion and/or action and/or vote.

IV. CORRESPONDENCE

V. NEW BUSINESS

- A. Application of Frances M. Falsey whose property is located at 71 Columbia Ave. and further identified as Assessor's Plat 9, Lot 144 for a variance from Article 3, Section 82-301, Uses & Districts (Table 3-1) to allow an off-site business to utilize the exterior fenced in portion of the property for a Dog Park, which use is not provided for in Table 3-1 and is thereby prohibited under Section 82-301. Said property is located in a R8 zone and contains 13,068 square feet.; review, discussion and/or potential action and/or vote
- B. Application of Gail & David Stokes, whose property is located at 86 Frigate St., and further identified as Assessor's Plat 16, Lot 85 for a variance from Article 3

Table 3.2 District Dimensional Regulations & a special use permit from Article 3 Section 314 High Groundwater Table and Impervious layer District to construct an addition to an existing house. The addition will be 20 ft from the front lot line where 30 ft. is required. The lot is within the High Groundwater District Sub District A and so requires a special use permit to exceed allowable impervious surface. Existing impervious surface will be reduced from 26.5% of the lot to 18.3% in the renovation. Said property is located in a R40 zone and contain 7200 sq. ft ; review, discussion and/or potential action and/or vote

- C. Application of Andrew and Colleen MacIntyre whose property is located at 9 Maple Avenue, and further identified as Assessor's Plat 9, Lot 14 for dimensional relief granted under Article 6, Special Use Permits and Variances, pursuant to Section 82-302, Table 3-2 for the Village Special District Zones R8, R20, CL and CD4, to construct a proposed porch with a front setback of 17 feet where 30 feet is required. The applicant is also seeking relief from Article 7 Section 82-705, Alteration of a nonconforming structure where the subject property currently has a deck that is approximately 19 feet from the front property line were 30 feet is required. Said property is located in a R20 zone and contains approximately 30492 square feet; review, discussion and/or potential action and/or vote
- D. Application of Andrew Bilodeau, whose property is located at Beach Ave & Riptide St., and further identified as Assessor's Plat 5, Lot 164 for a variance/special use permit from Article 3, Section 82-314 High Groundwater Ordinance Sub-District A and Section 82-302-2 Table 3-2 "Setbacks", Article 6, Section 82-601 Section "Special Use Permits" and Sections 82-605 & 82-606 to construct a single family dwelling with a front yard setback of 30' where 40' is required in a High Groundwater Sub-district A.. Said property is located in a R40 zone and contains 21,600 sq. ft.; review, discussion and/or potential action and/or vote

VI. ADJOURNMENT

PLEASE NOTE: All Correspondence or Exhibits you wish the Board to consider on any of the above matters must be received by the Zoning Board Clerk Office no later than Thursday, July 23, 2020. You may submit those documents the following ways: Email to pwestall@jamestownri.net or via drop box located on the West Street side entrance of Town Hall, or by regular mail 93 Narragansett Avenue, Jamestown, RI 02835

The website link for the public to use to watch any meeting in Council Chambers is:
<http://158.123.195.41/OTRMedia/Town2020/Others2020/StreamPrimJtown.html>

Pursuant to RIGL §42-46-5(c) Notice of this meeting shall be posted on the Secretary of State's website and at the Town Hall and the Jamestown Philomenian Library. In addition notice may also be posted at the Jamestown Police Station and on the Internet at www.jamestownri.gov.

This meeting location is accessible to the physically challenged. If communications assistance or other accommodations are needed to ensure equal participation, please call 1-800-745-5555 not less than three (3) business days prior to the meeting.

Posted on the RI Secretary of State website.

JAMESTOWN ZONING BOARD OF REVIEW

Minutes of the June 23, 2020 Meeting

**A regular meeting of the Jamestown Zoning Board of Review was held June 23, 2020.
THIS MEETING Was TELECONFERENCED VIA ZOOM AND VIA TELEPHONE:**

The Chairman called the meeting to order at 7:00 p.m. The Zoning Officer called the roll and noted the following members present:

Richard Boren, Chair
Dean Wagner, Vice-chair
Terence Livingston, Member
Edward Gromada, Member
Marcy Coleman, Member
Judith Bell, 1st Alt.
Erik Brine, 2nd Alt.

Also present: Erin Liese, Town Clerk
Brenda Hanna, Stenographer
Chris Costa, Zoning Officer
Wyatt Brochu, Counsel

MINUTES

Minutes of February 25, 2020

A motion was made by Edward Gromada and seconded by Terence Livingston to accept the minutes of the February 25, 2020 meeting as presented.

The motion carried by a vote of 5 -0.

Richard Boren, Dean Wagner, Terence Livingston, Edward Gromada, and Marcy Coleman voted in favor of the motion.

Judith Bell and Erik Brine were not seated and James King was absent.

CORRESPONDENCE

Nothing at this time.

NEW BUSINESS

Lucier

A motion was made by Dean Wagner and seconded by Marcy Coleman to grant the request of Maria F. and David J. Lucier whose property is located at 10 Coulter Street and further identified as Assessor's Plat 7, Lot 123 to extend a variance granted on February 27, 2019 for an additional **one-year period**. A variance was granted from Article 3, Section 82-302 "District Dimensional Regulations" for setbacks to reconstruct single story portions of an existing structure within the existing footprint, and reconstruct north and south decks with a connecting deck and to construct new stairs. The variance proposed a south side setback of 8'2" and east side setback of 13'4" where 20' is required, and a corner setback of 27'6" where 30' is required. Said property is located in a R40 zone and contains 21,182 square feet.

The motion carried by a vote of 5 -0.

Richard Boren, Dean Wagner, Terence Livingston, Marcy Coleman, and Judith Bell voted in favor of the motion.

Edward Gromada recused himself and Erik Brine was not seated and James King was absent.

Clark B.Y.

A motion was made by Marcy Coleman and seconded by Edward Gromada to grant the request of James Clark, et al/Clark Boat Yard, whose property is located at 120 Racquet Rd., and further identified as Assessor's Plat 9, Lot 328 for a one-year extension of a previously granted special use permit under Article 3, Table 3-1, Marina, Ship & Boat Storage & Repair, Alteration of a Non-conforming Use under Article 7, Section 82-704, Special Use Permits & Variances under Article 6, to remove a 48' x 60' one story section of storage shed & construct a 48' x 60' three story addition on same foot print. Said property is located in a RR80 zone and contains 1.75 acres.

The motion carried by a vote of 5 -0.

Richard Boren, Dean Wagner, Terence Livingston, Edward Gromada, and Marcy Coleman voted in favor of the motion.

Judith Bell and Erik Brine were not seated and James King was absent.

Carlson

A motion was made by Marcy Coleman and seconded by Dean Wagner to continue the request of Donald R. et Laura J. Carlson to the August 25, 2020 meeting to re-advertise due to discrepancies in the advertisement and the application.

The motion carried by a vote of 5 -0.

Richard Boren, Dean Wagner, Terence Livingston, Edward Gromada, and Marcy Coleman voted in favor of the motion.

Judith Bell and Erik Brine were not seated and James King was absent.

Please note: James King, 3rd Alt. joined at 7:20.

Keiser

A motion was made by Marcy Coleman and seconded by Terence Livingston to grant the request of Bruce R. Keiser, whose property is located at 1021 East Shore Rd., and further identified as Assessor's Plat 1, Lot 165 for a variance from Article 3, Section 82.302 Table 3-2, District Dimensional Regulations, & Article 6, Section 82-605 Variances to construct a shed 4' from property line where 20' is required.

This Board has determined that this application does satisfy the requirements of ARTICLE 6, SECTION 600, SECTION 606, and SECTION 607, PARAGRAPH 2.

This Variance is granted with the following restriction/condition(s):

This project must be constructed in strict accordance with the site and building plans duly approved by this Board.

This motion is based on the following findings of fact:

1. Said property is located in a R80 zone and contains 5,000 sq. ft.
2. The pre-existing non-conforming lot is unique as it is extremely small in comparison to other lots in the area.
3. Dimensional relief is needed due to the unique characteristics of the lot.
4. The existing house is built on a slab and there is minimal storage space available to the homeowner.
5. There is a 6-foot cedar fence along the north and west property borders.
6. The proposed shed, which is only 6 x 10 in footprint area and 8' 8 3/4" high, will be substantially hidden by the 6 ft. fence on the north side.
7. The shed could not be placed on the west side of the house as a patio has been installed in that area.
8. Abutters to the north & west objected to the variance request and prefer that the shed be built in the area of the existing patio.

The motion carried by a vote of 5 -0.

Richard Boren, Dean Wagner, Terence Livingston, Edward Gromada, and Marcy Coleman voted in favor of the motion.

Judith Bell, Erik Brine, and James King were not seated.

ADJOURNMENT

A motion was made and seconded to adjourn at 8:05 p.m.
The motion carried unanimously.

Application for Exception or Variation under the Zoning Ordinance

Zoning Board of Review;

Jamestown, R. I.

Date JUNE, 2020

Gentlemen:

The undersigned hereby applies to the Zoning Board of Review for an exception or a variation in the application of the provisions or regulations of the zoning ordinance affecting the following described premises in the manner and on the grounds hereinafter set forth.

Applicant FRANCES M. FALSEY Address 71 COLUMBIA AVENUE, JAMESTOWN, RI

Owner SAME Address _____

Lessee N/A Address _____

1. Location of premises: No. 71 COLUMBIA AVENUE ~~Street~~

2. Assessor's Plat 9 Lot 144

3. Dimensions of lot: frontage 60 ft. depth 220 ft. Area 13,068 sq. ft.

4. Zoning Districts in which premises are located: Use R8 Area _____ Height _____

5. How long have you owned above premises? 17 YEARS

6. Is there a building on the premises at present? YES

7. Size of existing building 784 SQ. FT

Size of proposed building or alteration N/A

8. Distance of proposed bldg. or alteration from lot lines:

front _____ rear _____ left side _____ right side _____

9. Present use of premises: RESIDENTIAL

10. Proposed use of premises: RESIDENTIAL AND DOG PARK FOR INCIDENTAL OFF-SITE BUSINESS USE

Location of septic tank & well on lot N/A

11. Give extent of proposed alterations NO ALTERATIONS TO THE PROPERTY WILL BE MADE

12. Number of families for which building is to be arranged: N/A

13. Have you submitted plans for above to Inspector of Buildings? _____

Has the Inspector of Buildings refused a permit? YES

14. Provision or regulation of Zoning Ordinance or State Enabling Act under which application for exception or variance is made:

ARTICLE 3 SECTION 82-301 AND TABLE 3-1

15. State the grounds for exception or variation in this case:

THE APPLICANT HAS PERMITTED OCCASIONAL USE OF HER PROPERTY FOR A FRIEND'S DOG CARE BUSINESS TO ALLOW A LIMITED NUMBER OF DOGS TO HAVE SUPERVISED "PLAY" IN THE YARD OF THE SUBJECT PROPERTY. THE UNIQUE NATURE OF THE PROPERTY (I.E. FENCED YARD IN TOWN) ALLOWS FOR THIS USE WITHOUT HARM TO THE ANIMALS OR TRESPASS

UPON ANY NEIGHBORING PROPERTY. THE APPLICANT WILL NOT REALIZE ANY FINANCIAL GAIN FROM THE GRANTING OF THE VARIANCE AS THE APPLICANT IS NOT PAID IN ANY MANNER BY THE BUSINESS OWNER AND APPLICANT DOES NOT OWN A PET. THE GRANTING OF THE VARIANCE WILL NOT ALTER THE GENERAL CHARACTER OF THE SURROUNDING AREA.

Respectfully Submitted,

Signature Francis M. Falvey

Application of FRANCES M. FALSEY whose

property is located at 71 COLUMBIA AVENUE, and further

identified as Tax Assessor's Plat 9, Lot 144 for a Variance/~~Special Use Permit~~

from Article 3, Section 82-301, USES AND DISTRICTS (TABLE 3-1)

to ALLOW AN OFF-SITE BUSINESS TO UTILIZE THE EXTERIOR FENCED IN PORTION OF THE PROPERTY

FOR A DOG PARK, WHICH USE IS NOT PROVIDED FOR IN TABLE 3-1 AND IS THEREBY PROHIBITED

UNDER SECTION 82-301.

Said property is located in a R8 zone and contains 13,068 ~~acres~~/square feet.

.....
HOW TO WRITE YOUR AD:

Name of owner must be advertised exactly as it appears on the most recent deed for the property. If the applicant's name differs from the owner, the ad must read: "Application of John R. Smith et ux Mary, (Jane L. Doe, owner), whose property...etc." The exact street address must be included in the advertisement, as well as the Tax Assessor's Plat and Lot numbers. Cross out "Variance" or "Special Use Permit" if one does not apply to what you are seeking. List the exact Article(s) and Section(s) numbers from the Zoning Ordinance from which you are seeking relief, followed by the title of the section as it appears in the Ordinance. Then briefly describe what you wish to do: "to construct a tool shed five feet from the side lot line instead of the required ten feet". List what zone your property is in: R8, R20, R40, RR80, RR200, CL, CD, CW or OS. Finally, enter the total acreage or square footage of your lot, crossing out the term that does not apply: acres or square feet.

Re: 71 Columbia Avenue

Dear Chris,

Enclosed please find an Application for Variation under the Zoning Ordinance and the Sample Zoning Advertisement. I understand from Christine Brochu that your office is determining the abutters list at this point. Once you and Pat know the amount of the full filing fee, please let me know and I will have the applicant drop off a check. Likewise, I know your schedule is in flux, but please let me know once the meeting is scheduled.

Thanks,

Deb

Subject: Fran Falsey and alleged "dog park"

Attention: Zoning Board

I am sending this email in support of Fran Falsey being able to use her property as a safe area for a few dogs to play, for a few hours 4 or 5 days a week.

Ms. Falsey is absolutely NOT running a business nor does she receive any monetary gain.

This property has not and never will be used as a public dog park.

Ms. Falsey is a kind and generous person who loves animals and merely wants a safe place for a few dogs to get some exercise.

I am truly sorry it has progressed to this point. It is unfortunate that a developer who will not be living in this house has decided to make it into a circus.

Just to be clear, if this developer gets his way, it will be just another little piece of Jamestown chipped away, all because ANOTHER person with a lot of money is being unreasonable and wants his own way.

Deborah Slattery

To:

Jamestown Zoning Board

Jamestown RI.

Subject:

Notice of Public hearing July 28, 2020, / application of Frances M. Falsey.

My Name is Norman F. Messinger Jr, 77 Cole St. I am an abutter to Fran Falsey's property.

I have resided at this address for 43 years. I maintained the Water tower Property for almost 25 yrs. So that the neighbors in the area could have a place for their kids to play, and so that neighbors had a place to take their dogs to play. Due to a complaint from one of the new neighbors, it was decided after nearly one hundred years of access threw the water tower property, I would no longer have access, and there would be a fence installed.

However due to the fact that I had graciously at my own expense and time cut the grass, policed the area, chased away vandals,(admittedly by the Jamestown public works, and water department). I was granted an easement of 10 feet, indicated by the position of the new fence being ten feet from the North boundary line. I have never been able to use such easement because starting the day after the meeting, the complaining neighbor began to throw all of her yard waste over the fence, blocking any passage through such easement.

My point is this, the same scenario is being played out with the Falsey claim. For many, many, years, Fran Falsey has allowed her unusable piece of property to be used as a place for neighbor's dogs to have a safe fenced in place to play. There was never a problem. I would, and still do cut the grass pro bono, because my dogs also used the lot on occasion. The neighbors to the south allowed the use of their water so that the dogs could have drinking water during the hot weather. Fran graciously allowed a local business the use of her property so that she would not have to take the dogs in her care to an unsecured area to play.

There was more than a little support for this, most of the neighbors pitched In to help. Helping with the dogs, spreading mulch, keeping the property clean, and locked when not in use. This was a neighborhood project, enjoyed by everyone.

Then it happened. Someone didn't like it. Phone calls, letters, threats, and closure. Because someone wanted to build a motel on a postage stamp, and didn't like the fact that there were dogs in a fenced in yard, totally supervised for approximately two hours, a couple of days a week.

When the neighbors heard they were not happy, but it was decided that the best thing to do was to go to the town to find out how to resolve the problem. It became extremely obvious how the neighbors felt about the intrusion into their pursuit of happiness. The matter was tabled at the town council meeting, because no one had the correct answers as to the charges, and there was fear that the meeting would get out of hand,

So here we are now going from asking if it was a violation of any ordinances, to applying for a dog park license, which was never the intent. The intent was for a concerned, caring neighbor, to allow a local business owner and neighbors, a safe place for dogs to exercise.

This is another example of bully tactics, one person complains, and a whole neighborhood has to suffer.

There is no business being run from the Columbia Ave address. There have never been more than five dogs at a time in the yard, it has always been clean, quiet, and supported by all parties involved.

I would like to go on record as being **in full support** of whatever has to be done for Frances Falsey to be able to use her property as she feels fit

Thank You

Norman ., Messinger Jr.

Good morning Mr. Westall,

I'm writing to you regarding the upcoming 28 July zoning board meeting. Fran is a great citizen of Jamestown and only allows family and friends use of her lot for their dogs to play in a safe environment. It's not for the general public and I strongly support her request to continue to use her lot as she has been for the last 12+ years.

Thank you and please feel free to contact me if you should have any questions.

CORRESPONDENCE
7-23-20

To Whom It May Concern:

As I will be unable to attend the zoning meeting regarding the application of Frances M. Falsey on Tuesday, July 28th, I would like to voice my opposition in writing.

When I bought my home, I understood that that area was zoned residential. It was a nice neighborhood within walking distance to town and that was what appealed to me. Only after I bought the home and started walking into town did I realize that the property applying for a variance was used as a dog park.

The zoning is made to protect those who buy in the residential area and should be protected for those home owners who purchase property in that area. I feel that the requested variance is incompatible with permitted uses in this zoning and will alter the zoning characteristics of the comprehensive zoning plan which has been adopted by the town.

The town zoning was created to protect the people who purchase property in a particular zoned are. I am requesting that you honor the zoning restrictions and deny the application for a variance.

Thank you

Sincerely,

Karen Estes

Pat

I am writing concerning the meeting on July 28. As I now live at 86 Cole St, I received a letter concerning a hearing about the Fran Falsey property Plat 9, lot 144. The use of the lot as a 'dog park". I know this property has been used by Pages for many years to allow dogs on the property. I am completely in favor of letting Fran Falsey continue to use her property with Pages' Pets and/or any dogs she desires to have on her private property.

Please be sure that my opinion is taken into consideration on this matter. If anyone wishes to reach me, my cell is 401-935-6398. I will not be attending the virtual meeting, but want to be in support of allowing the use of the property.

Thank you,
Barbara

To whom this may concern,

I'm writing as a neighbor of Fran Folsay. I live a few houses down on Columbia Ave.

I know her to be a quiet and considerate neighbor.

She is an animal lover and should be allowed the variance for her lot. She should be able to have her friends dogs play in her lot for a reasonable time each day. I have no objection to this variance.

Sincerely
Donna Chellis

To whom it may concern,

I have lived in Jamestown for over 35 years, and I have lived on Columbia Ave. for 4 years. During my time on Columbia Ave., I have noticed a few dogs in my neighbor's back yard playing around noon each day. They run around, socialize, and bark a little - that is after all what dogs do. The area is fenced in and it is not open to the public. I like seeing the dogs playing, and I think it's very nice of my neighbor, Ms. Falsey, to allow this. I think it's a healthy activity and it is only for a short time in the middle of the day. It shouldn't offend or disturb anyone. I don't have any issues with this continuing indefinitely in the future.

Please let me know if you have any questions.

Respectfully,
Kathy Pazera

Re: Application of Frances M Falsey

My husband and I have lived at 73 Columbia Ave, Jamestown for the past 22 years and are immediate neighbors to Fran Falsey. During the time she has been our neighbor we have never had any issue with anything that has happened on her property, especially in regard to the current application for a variance from Article 3, Section 82-301 to allow off-site business use of the rear of the property.

In all the time that Terri Page has used part of the property to run dogs as part of her business, in a private agreement with Fran, we have not had any reason to have issue with the arrangement. When I was working (20 years at the Jamestown Family Practice, retired in December 2018) I would invariably come home everyday for lunch which was when Terri was most likely to be using the site. I know she did at other times during the day, but rarely saw that until we retired. I had absolutely no problem with noise or any other issue one might expect. The dogs were happy, and on the very rare occasion when one would get overexcited, Terri would swiftly correct the situation in such a way that peace was happily restored with no more than a word or two. No smells, undue barking or anything else that one could possibly think of was a problem. Terri kept the property immaculately with thorough cleanings on a regular basis. If the variance were allowed with the previous status quo resumed, Steve and I would be very happy, as would our dog Nellie who was always very interested (no barking involved) in the goings on and would probably have been very happy to join in.

Please allow the variance to go forward.

Yours

Glone and Stephen Baker

Subject: Application of Frances Falsey

I write to support the application of Fran Falsey; not because she is my sister, but because for MANY years she has welcomed her friends – most of whom have four legs and fur – to play in her yard without complaints of neighbors or town officials. Before moving here to Jamestown, I often visited from Connecticut with my own dog. Dogs playing in her lot, at her invitation, for a limited time hardly sounds like a dog park to me. It sounds like a safe place for dogs to frolic for an hour or so while their two legged owners are at work.

I don't think it would take an FOI request to learn that the only complainant is likely a developer who recently turned a lovely little home at the corner of Cole and High into a mega mansion. No doubt the developer was afraid that dogs playing next door would impact the price he could draw but it seems that wasn't the case. He got his million+ and so, no more reason to complain about a neighborhood he has never been a part of.

I do not believe that Fran's neighbors have had any complaints over the years and I hope that that influences the decision of the board.

Do Jamestown's taxpayers know what time and effort a zoning officer put into this one person's complaint? He spent his time (and town's money) lying in wait for Fran's dog-sitting friends to appear, took photos as evidence of a whatever crime or violation she has purportedly committed. Threatened to fine her if she continued a practice which was peacefully in place for more than ten years.

Seems silly to me that the same body of law which requires that she seek a variance would permit her to "keep" up to three of her own dogs on her property without having to petition the Town.

Anyone who knows Fran Falsey, knows that she is a dog lover, not a "dog park" operator. Her only profit from her actions is a warm fuzzy feeling that her four-legged friends are safe and happy.

To: patwestall <patwestall@jamestownmri.net>

To whom it may concern ,

I am writing in support of the variance request submitted to the Zoning Board by Frances Falsey.

Her request is to continue as she has been doing for more than the last 12 years.

Which is, to allow a few dogs on her property during the day where they have a safe place to be.

It is an area that is fenced in and not open to the public.

I have lived in Jamestown on Howland Avenue for my entire life.(64 yrs)

I have always had dogs of my own ,

and my dogs have been up to play in Fran's yard..

To my knowledgeq neighbors have not had an issue with the dogs being there.

In fact, several have been positive in support of this request as well.

Please know that I do not have any issues with this requested variance, and I support it wholeheartedly.

Respectfully ,

Jane Wilcox Conlon

ZONING BOARD OF REVIEW

Application for Exception or Variation under the Zoning Ordinance

Zoning Board of Review;

Jamestown, R. I.

Date JUNE 17, 2020

Gentlemen:

The undersigned hereby applies to the Zoning Board of Review for an exception or a variation in the application of the provisions or regulations of the zoning ordinance affecting the following described premises in the manner and on the grounds hereinafter set forth.

Applicant DAVID & GAIL SIDRES Address 86 FRIGATE ST

Owner SAME Address _____

Lessee _____ Address _____

1. Location of premises: No. 86 FRIGATE ST Street

2. Assessor's Plat 16 Lot 85

3. Dimensions of lot: frontage 120 ft. depth 60 ft. Area 7200 sq. ft.

4. Zoning Districts in which premises are located: Use R 40 Area 20,000 Height 35
R 20 ZONING APPLIES

5. How long have you owned above premises? SINCE JANUARY 2020

6. Is there a building on the premises at present? YES
24 x 32 = 768 SQ FT & 19 SQ FT

7. Size of existing building 787 SQ FT
HABITABLE STRUCTURE 344 SQ FT

Size of proposed building or alteration FRONT COVERED PORCH 22 SQ FT

TOTAL OF EXISTING AND ADDITION 1153 SQ FT.

8. Distance of proposed bldg. or alteration from lot lines:

EXISTING HOUSE front 16 rear 9 left side 63 right side 29
PROPOSED ADDITION 20 12 87 15

9. Present use of premises: SINGLE FAMILY HOME

10. Proposed use of premises: SAME

Location of septic tank & well on lot YES SEE PRINCIPLE
GATE PLAN.

11. Give extent of proposed alterations RENOVATION & ADDITION THAT ENLARGES BEDROOM & BATH, CREATES A DINING AREA, MUDROOM & COVERED ENTRY PORCH. HOUSE WILL BECOME MORE EASILY ACCESSIBLE AND WILL PROVIDE MORE ACCESSIBLE STORAGE & LIVING AREA

12. Number of families for which building is to be arranged: ONE

13. Have you submitted plans for above to Inspector of Buildings? YES

Has the Inspector of Buildings refused a permit? YES

14. Provision or regulation of Zoning Ordinance or State Enabling Act under which application for exception or variance is made:

Article 6, section 601 of the Jamestown Zoning Ordinance empowers the Jamestown Zoning Board of Review to grant a special use permit as per the requirements of Article 3, Section 314 High Groundwater table and impervious layer district. Article 6, Section 606 Empowers the Zoning board to grant a variance from Article 3, Table 3.2 District Dimensional Regulations that requires a residential primary structure to be located 30 feet from the front lot line. With the existing house only 16 feet from the front lot line, the proposed addition is located 20 feet from the front lot line instead of the required 30.

15. State the grounds for exception or variation in this case:

SEE ATTACHED

Respectfully Submitted,

Signature *JE Stokes*

Address 86 Frigate St
Jamestown, RI

Telephone No. 401 ~~888~~ 323-6620

NOTE: A LOCATION PLAN AND SKETCH AND DRAWINGS NECESSARY TO GIVE FULL INFORMATION MUST BE FILED WITH THE APPLICATION.

15 State grounds for exception or variation in this case:

We propose to construct an addition to 86 Frigate Street that will enable us to more appropriately and fully enjoy our property. We have lived in this house for six years as tenants and finally bought it in January of this year. The existing house footprint is 787 square feet. While there is some living space on the lower, basement floor, David Stokes has cerebral palsy and getting up and down a steep set of stairs is perilous. And so almost all our activities occur on a first floor that is woefully small.

We propose to reconfigure and add to the existing structure so that the bedroom and bathroom are larger and more functional. There will be a small study on the first floor, a necessity for the professor and librarian that we, respectively, are. There will be more storage that is also more easily accessible. The kitchen will actually be smaller, but in reorganizing and adding to the space, we were able to create a dining area as well as a mud room with a closet, neither of which exist in the current house. There will also be a small covered entry porch, which also does not exist in the current structure. These changes will make the house much easier for us to live in especially as we age.

Though we are proposing an addition to the building footprint, we will reduce the impervious coverage on this lot from 1908 square feet to 1315.8 square feet. This eliminates more than 30% of the current impervious coverage, *after* the construction of the addition, a remarkable improvement for this typical Jamestown Shores lot. Even with such a reduction, it still exceeds the limit of impervious lot coverage for a lot in sub district A of the Groundwater district. Hence our application for a Special Use Permit as per the requirements of Section 314 of the Zoning Ordinance. Town Environmental Engineer, Jean Lambert, recommended to the Planning Commission to approve our application for a Special Use Permit, and at its meeting on June 17, 2020, the Planning Commission voted to recommend that the Zoning Board of Review should grant us a Special Use Permit.

The existing house was built in 1970 and was located only 16 feet from the front lot line at Frigate Street instead of the required 30 feet. For this reason, we also need a dimensional variance from the Zoning Board, as per Section 3 table 302 of the Zoning Ordinance, in addition to the Special Use Permit described above. Our addition will be 20 feet from the Frigate Street lot line, or four feet further back from the front lot line than the existing house. We made the addition as small as possible to ensure that it was as far from the front lot line as possible. It is a modest addition to a modest house. But it will improve our lives immeasurably.

We believe the elimination of over 600 feet of impervious surface is a great improvement for the neighborhood. By removing the lower asphalt driveway, we are also removing a significant catchment area for downhill runoff from the steep Frigate St. incline, which was difficult for pedestrians to traverse. The total footprint of the proposed house and addition is 1131 square feet plus a small 22 square foot entry porch. It will not be a big house. We believe the addition, with its front stoop, will enhance the cottage like character of our home, a quality that used to prevail in the Jamestown Shores. We believe our request, for a Special Use Permit and a variance from District Dimensional Regulations, indeed represents "the least relief necessary" that will allow us to enjoy our home as we grow older.

SAMPLE ZONING ADVERTISEMENT
MUST BE FILLED OUT BY THE APPLICANT

Application of GAIL & DAVID STOKES whose

property is located at 86 FRIGATE STREET, and further

identified as Tax Assessor's Plat 16, Lot 85 for a Variance / Special Use Permit

VARIANCE: FROM ARTICLE 3 TABLE 3.2 DISTRICT DIMENSIONAL REGULATIONS

from Article 3, Section 314; HIGH GROUND WATER TABLE AND IMPERVIOUS LAYER DISTRICT

SPECIAL
USE PERMIT:

CONSTRUCT AN ADDITION TO AN EXISTING HOUSE. THE ADDITION
to WILL BE 20 FEET FROM THE FRONT LOT LINE WHERE 30 FEET
IS REQUIRED. THE LOT IS WITHIN THE HIGH GROUND WATER
DISTRICT SUB DISTRICT A AND SO REQUIRES A SPECIAL USE PERMIT.

TO EXCEED ALLOWABLE IMPERVIOUS SURFACE. EXISTING IMPERVIOUS
SURFACE WILL BE REDUCED FROM 26.5% OF THE LOT TO 18.3%
IN THE RENOVATION.

Said property is located in a R40 zone and contains 7200 acres/square feet.

.....
HOW TO WRITE YOUR AD:

Name of owner must be advertised exactly as it appears on the most recent deed for the property. If the applicant's name differs from the owner, the ad must read: "Application of John R. Smith et ux Mary, (Jane L. Doe, owner), whose property...etc." The exact street address must be included in the advertisement, as well as the Tax Assessor's Plat and Lot numbers. Cross out "Variance" or "Special Use Permit" if one does not apply to what you are seeking. List the exact Article(s) and Section(s) numbers from the Zoning Ordinance from which you are seeking relief, followed by the title of the section as it appears in the Ordinance. Then briefly describe what you wish to do: "to construct a tool shed five feet from the side lot line instead of the required ten feet". List what zone your property is in: R8, R20, R40, RR80, RR200, CL, CD, CW or OS. Finally, enter the total acreage or square footage of your lot, crossing out the term that does not apply: acres or square feet.

Office of the Town Planner MEMORANDUM

TO: Jamestown Zoning Board of Review
FROM: Lisa Bryer, AICP, Town Planner
RE: Motion for Zoning Section 82-314: High Groundwater Table and Impervious Overlay District, Sub-District A – Gail and David Stokes: AP 16, Lot 85; 86 Frigate Street, Jamestown, RI
DATE: June 18, 2020

At the June 17, 2020 a Planning Commission meeting, held remotely by Zoom where all Planning Commissioner were present, the Planning Commission voted unanimously to recommend to the Jamestown Zoning Board, approval of the application of Gail and David Stokes: AP 16, Lot 85; 86 Frigate Street, Jamestown, RI; being reviewed under Zoning Ordinance Section 314 - High Groundwater Table and Impervious Overlay District Sub-district A review in accordance with the plan entitled "Site Plan for AP 16 Lot 85, 86 Frigate Street in Jamestown RI" revision dated 5/14/2020 and revised 6/19/2020 after the Planning Commission meeting on June 17, 2020 where the applicant agreed to remove the shed and reduce the overall impervious cover. The plans are prepared by Principe Company, Inc. Engineering Division, PO Box 298, Tiverton, RI 02878, 401-816-5385

The recommendation for approval is based on the following findings of facts as amended:

Findings of Fact Section 314

1. The property is 7200 square feet (sf) in area;
2. The existing site is developed with a house, paved driveways, well, and a conventional OWTS;
3. Existing impervious cover is approximately **1908 sf or 26.5%**.
4. The OWTS was updated in 1998. The Town database indicates that the existing OWTS is current for maintenance;
5. Topography on the lot slopes from east to west on the site;
6. There are no freshwater wetlands on the property;
7. The soil evaluations conducted on the property were inconclusive in that they showed a large of amount of fill over the original soil horizons. Soil evaluation results from nearby lots were used to determine that the subject site falls under **Sub-district "A"** requirements of the High Groundwater Table and Impervious Overlay District. The maximum impervious cover allowed is **9% or 648 sf**;
8. The applicant is proposing to construct a 344 sf addition and a 22 sf covered porch. One area of paved driveway will be replaced with a permeable paver driveway. Approximately 875 sf total of existing paved surfaces will be removed on site in addition to 586 square feet of impervious cover will be reduced in the town right of way;

9. The applicant has volunteered to remove the existing shed to reduce impervious cover;
10. The total proposed impervious cover will be 1315 sf or 18.3% a reduction of 8.2% from the existing condition;
11. The existing well and OWTS will remain;
12. Two stone infiltration trenches are proposed to provide water quality treatment of new rooftop runoff.;
13. The applicant's representative Thomas J. Principe, III, PE, was certified as an expert witness by the Planning Commission and represented the applicant before the Planning Commission on 6-17-20;
14. Richard Lee, 209 Beacon Avenue spoke on behalf of the applicant;
15. The maximum allowable impervious coverage for this site is 9% or 648 sf. The proposed project exceeds the allowable area of impervious;
16. The required stormwater treatment volume for the new rooftops is 30.5 cubic feet (cf) and 75 cf are provided. The proposed BMP provides treatment for the 1" water quality volume for the new impervious surfaces on the site;
17. Jamestown Engineer Jean Lambert provided correspondence to Chris Costa, Building Official and Lisa Bryer, Town Planner dated June 10, 2020 regarding the Stokes application (attached). As noted above, the proposed project exceeds the allowable area of impervious cover; and
18. Engineer Thomas Principe testified that the size of the addition is the minimum required to accommodate accessible living in that house and that the primary purpose for the development proposal is handicap accessibility.

Recommended Conditions of Approval

1. A Special Use Permit for Section 314 is required from the Zoning Board of Review;
2. A variance is required from the Zoning Board of Review for exceeding the maximum allowable impervious surface coverage;
3. The area where the shed is removed shall be restored to pervious surface prior to the addition receiving a Certificate of Occupancy;
4. The proposed infiltration area must be physically delineated on the site prior to the commencement of construction to prevent compaction of the soil by heavy equipment;
5. An as-built plan shall be provided at the completion of construction to the Building Official depicting the size and location of the house, size and location of the rain gardens, and verifying the elevations and grading shown on the proposed site plan;
6. The OWTS must be inspected and maintained as required by the Town Onsite Wastewater Management Program. A maintenance contract must be recorded in the land evidence records and a copy of the recorded document shall be submitted to the Planning Department; and,

7. The Operation and Maintenance (O & M) Plan (reproduced in 8.5" x 11" for the stormwater mitigation (rain gardens) shall be recorded in the Office of the Town Clerk with the Zoning Approval and evidence of such shall be provided to the Zoning Enforcement Officer as well as the Planning Department.
8. An erosion and sediment control permit will be required from the building official prior to commencement of construction. Erosion and sediment controls shall be installed at the down gradient limit of disturbance as shown on the site plans. Erosion controls shall be maintained until final stabilization is achieved on the site.
9. Any additional future site work that increases the area of impervious coverage will require a review following the requirements of the High Groundwater Ordinance

RE: Zoning Section 82-314: High Groundwater Table and Impervious Overlay District, **Sub-District A**
Gail & David Stokes: AP 16, Lot 85; 86 Frigate Street, Jamestown, RI

I have reviewed the site plan entitled, "Site Plan for AP 16 Lot 85, 86 Frigate Street in Jamestown RI" revision dated 5/14/2020, prepared by Principe Company, Inc. for the above referenced property.

Existing Site/Soil Information:

The property is 7200 square feet (sf) in area. The existing site is developed with a house, paved driveways, well, and a conventional OWTS. The Town database indicates that the existing OWTS is current for maintenance. The OWTS was updated in 1998. Topography on the lot slopes from east to west on the site. There are no freshwater wetlands on the property. Existing impervious cover is approximately **1908 sf or 26.5%**.

The soil evaluations conducted on the property were inconclusive in that they showed a large amount of fill over the original soil horizons. Soil evaluation results from nearby lots were used to determine that the subject site falls under **Sub-district "A"** requirements of the High Groundwater Table and Impervious Overlay District. The maximum impervious cover allowed is **9% or a maximum of 648 sf**.

Proposed Site:

The applicant is proposing to construct a 344 sf addition and a 22 sf covered porch. Approximately 875 sf of existing paved surfaces will be removed. The total proposed impervious cover will be **1398 sf or 19.4%**. The existing well and OWTS will remain. One area of paved driveway will be replaced with a permeable paver driveway.

Two stone infiltration trenches are proposed to provide water quality treatment of new rooftop runoff. The required stormwater treatment volume for the new rooftops is 30.5 cubic feet (cf) and 75 cf are provided. The proposed BMP provides treatment for the 1" water quality volume for the new impervious surfaces on the site.

Zoning Section 82-314 Review

Impervious Coverage & Stormwater Management:

The proposed impervious cover is **19.4%**, a **reduction of 7.1%** from the existing condition. The maximum allowable impervious coverage for this site is 9% or 648 sf. The proposed project exceeds the allowable area impervious.

Recommendations/Conclusions:

- Erosion and sediment controls must be installed at the down gradient limits of site disturbance and maintained until stabilization of the site is attained.
- A zoning special use variance will be required for exceeding the maximum allowable impervious surface coverage.
- Any additional future site work that increases the area of impervious coverage will require a review following the requirements of the High Groundwater Ordinance.

TOWN OF JAMESTOWN
ZONING BOARD OF REVIEW

Application for Exception or Variance under the Zoning Ordinance

Zoning Board of Review;

Jamestown, R.I.

Date: June 22, 2020

Gentlemen:

The undersigned hereby applies to the Zoning Board of Review for an exception or a variation in the application of the provisions or regulations of the zoning ordinance affecting the following described premises in the manner and on the grounds hereinafter set forth.

Applicant: Andrew and Colleen MacIntyre Address: c/o Christian Infantolino, Esq.,
77 Narragansett Avenue
Jamestown, RI 02835

Owner: Same

Lessee: None

1. Location of premises: 9 Maple Avenue, Jamestown RI
2. Assessor's Plat 9 Lot 14
3. Dimensions of lot: frontage _____ ft. depth: _____ ft. Area: 30492 sq. ft.
4. Zoning Districts in which premises are located: Use: R20 Area: 20,000 sq. ft. Height: 35 ft.
5. How long have you owned the premises? 9/14/1999
6. Is there a building on the premises at present? Yes
7. Size of existing building: +/- 2358 sq. ft.
Size of proposed building or alteration: +/- 200 sq. feet (8ft x 25 ft deck)
8. Distance of proposed building or alteration from lot lines:
Required: front: 30' rear: 30' side: 10'
Existing: front: 19.8'+/-
Proposed: front: 17+/-; no change on any other existing setback
9. Present use of premises: Single family residence
10. Proposed use of premises: Single family residence

Notice of Hearing

Application of Andrew and Colleen MacIntyre whose property is located at 9 Maple Avenue, Jamestown RI 02835, and further identified as Tax Assessor's Plat 9, Lot 14 for dimensional relief granted under Article 6, Special Use Permits and Variances, pursuant to Section 82-302, Table 3-2 for the Village Special District Zones R8, R20, CL and CD4, to construct a proposed porch with a front setback of 17 feet where 30 feet is required. The applicant is also seeking relief from Article 7 Section 82-705, Alteration of a nonconforming structure where the subject property currently has a deck that is approximately 19 feet from the front property line were 30 feet is required. Said property is located in a R20 zone and contains approximately 30492 square feet.

Setback Variance Application

Dear Chris,

Please accept this letter in support of the Setback Variance Application submitted to the Zoning Board for consideration, by Andrew and Colleen MacIntyre of 8 Maple Avenue, Jamestown.

We are direct abutters to the MacIntyre property, and have no reservations with regard to their request for relief from the Zoning Regulations.

In fact, we endorse their application to enhance the exterior of their home with the addition of a front porch.

Please add this letter to the official record when the application is presented to the Zoning Board.

Sincerely,

Michael Swistak

Location of septic tank & well on lot: No Change

11. Give extent of proposed alterations: Applicant proposes to replace the existing six (6) foot deck with a front porch about 8ft deep x 25 ft.

12. Number of families for which building is to be arranged: 1

13. Have you submitted plans for above to Inspector of Buildings? Yes

Has the Inspector of Buildings refused a permit? Yes

14. Provision or regulation of Zoning Ordinance or State Enabling Act under which application for exception or variance is made:

This application seeks relief from Section 82-302, District dimensional regulations and Table 3-2, R20 Zoning District regulations, to replace the existing six (6) foot deck with a front porch 8 feet deep by approximately 25 feet wide, where the existing deck is approximately 19.8 feet from the front property line and the proposed porch is 17 feet from the front property line where 30 feet is required. The Applicant also seeks relief from Article 7 Section 82-705 as the existing structure is currently located approximately 19.8 feet from the front property line.

15. State the grounds for exception or variation in this case:

This property possesses unique characteristics that require the relief requested.

This hardship is present due to the unique characteristics of the subject lot.

The granting of the requested variance will not alter the general characteristic of the surrounding area.

The relief requested is the least relief necessary.

The hardship amounts to more than a mere inconvenience without the requested relief.

The requested relief will allow the applicant to construct a front porch that aesthetically fits with the neighborhood and surrounding properties.

Respectfully Submitted,

Dear Sirs:

I am writing in regard to the application of Andrew and Colleen MacIntyre for a variance in an upcoming home project. The applicants will be constructing a front porch on their residence located at 9 Maple Avenue. I wholeheartedly endorse this project and have no issues or complaints about it moving forward. I would hope they receive the leeway on the front setback.

Sincerely,

Andrew Schlachter

Dear Maple Avenue Neighbors,

June 15, 2020

We hope this letter finds you well and staying safe during this pandemic. We are writing to let you know we are applying for a permit to build a front porch. Our intention is to build a porch that blends in with our 100 year old home and looks like it was always a part of it. We wanted you to be aware of our intentions. If you have any questions or concerns, please don't hesitate to ask Andy or myself. We are excited and hope that it comes to fruition.

All our best,
Colleen and Andy MacIntyre

TOWN OF JAMESTOWN
ZONING BOARD OF REVIEW

Application for Exception or Variation under the Zoning Ordinance

Zoning Board of Review:

Jamestown, Rhode Island

Date 6/19/20

Gentlemen/Ladies:

The undersigned hereby applies to the Zoning Board of Review for an exception or a variation in the application of the provisions or regulations of the zoning ordinance affecting the following described premises in the manner and on the ground hereinafter set forth.

Applicant: Andrew Bilodeau Esq., 1350 Division Rd #102, West Warwick, RI 02893

Owner - same as applicant

Lessee - N/A

Location of premises: No. - N/A Street - Beach Ave

1. Assessor's Plat 5, Lot 164
2. Dimensions of the lot: Frontage - 120 ft , Depth - 180 ft, Area - 21,600 sq ft
3. Zoning District in which premises is located: R-40
4. How long have you owned above premises? One Year +
5. Is there a building on the premises at present - No
6. Size of existing building - N/A Size of proposed building or alteration - 51' x 30' = 1530 sf
7. Distance of proposed building or alteration from lot lines:
Front - 30' Rear - 90' Left Side - 10', Right Side - 59'
8. Present use of premises: - Vacant land
9. Proposed use of premises: single family
10. Location of septic tank and well on lot - See site plan

11. Give extent of proposed alterations: Construction of single family house

12. Number of families for which building is to be arranged: one

14. Have you submitted plans for above to Inspector of Buildings? Yes

Inspector of Building refused a permit? yes

15. Provision or regulation of Zoning Ordinance or State Enabling Act under which application for exception or variance is made:

Application of Andrew Bilodeau whose property is located at Beach Ave x Riptide St, and further identified as Tax Assessor's Plat 5, Lot 164 for a Variance/Special Use Permit from Article 3, Section 82-314 High Ground Water Ordinance Sub-District A and Section 82-302-2 Table 3-2 "Setbacks",

Article 6, Section 82-601 Section "Special Use Permits" and Sections 82-605 & 82-606 to construct a single family dwelling with a front yard setback of 30' where 40' is required in a High Groundwater Sub-district A. Said property is located in an R-40 zone and contains 21,600 sf

16. State grounds for exceptions or variation in this case:

Lot is 21,600 sf however, it contains 6038sf of forested wetlands and 6143sf of wetlands buffer leaving 9419sf buildable area. The required side yard setbacks are 10' and the front is 40'. The rear of the proposed house averages 17' from the wetlands buffer. With the inclusion of the OWTS and the rain garden for stormwater control the buildable area for the lot is reduced considerably. We are proposing to place the building 30' from the front yard lot line which requires 10' of dimensional relief. The height of the house is allowed to be 35' by the zoning ordinance (No design yet). The location of the lot is such that a two or three story house would access a west passage water view from the upper stories. Water view, view corridor obstruction always cause consternation with upland abutters. Fortunately in this case the upland area (to the west) is a very large area of forested

wetlands which are unbuildable. Thus we do not anticipate view corridor conflicts with the development.

The OWTS #9015-0061 was previously approved with an expiration date of 10-06-2019 however the previous owner (Catanzaro) called in a start of construction on 10-02-2019 which extended the expiration date to 10-02-2020.

The RIDEM wetlands permit, #11-0199 expires July 1, 2020.

In 2012 the property was granted a 10' dimensional variance for front yard setback, a dimensional variance for the separation between the wetland edge and the OWTS and a special use permit for the construction of a single family house in a High Ground Water Sub-District A. Since then the town has aligned its requirement for the separation between an OWTS and a wetland edge to match that of the State's to 50'. This has eliminated the need for a dimensional variance.

This request is for a 10' dimensional variance from the front yard setback and for a special use permit to allow the construction of a single family dwelling in a High Ground Water Sub-district A.

Respectfully submitted,

Andrew Bilodeau Esq.

Office of the Town Planner

MEMORANDUM

TO: Jamestown Zoning Board of Review
FROM: Lisa Bryer, AICP, Town Planner
RE: Motion for Zoning Section 82-314: High Groundwater Table and Impervious Overlay District, Sub-District A – Andrew Bilodeau: AP 5, Lot 164; Beach Avenue, Jamestown, RI
DATE: June 10, 2020

At the June 3, 2020 a Planning Commission meeting was held remotely by Zoom. At the meeting, the Planning Commission voted unanimously to recommend to the Jamestown Zoning Board, approval of the application of Andrew Bilodeau: AP 5, Lot 164; Beach Avenue, Jamestown, RI; being reviewed under Zoning Ordinance Section 314 - High Groundwater Table and Impervious Overlay District Sub-district A review in accordance with the plan entitled Development Plan Beach Ave Plat 5 Lot 164 Jamestown, RI, by RP Engineering, Inc., 121 Suffolk Drive, North Kingstown, RI 02852, 885-7255. The recommendation for approval is based on the following findings of facts as amended:

Findings of Fact Section 314

1. This site was previously reviewed and approved under the HGWT process in 2012;
2. Property is 21,600 sf in area;
3. The existing site is undeveloped;
4. The lot has OWTS approval RIDEM permit # 9015-0016;
5. Topography on the lot is flat;
6. There is a freshwater wetland wooded swamp (6038 sf) and its associated 50' perimeter wetland along the east side of the property;
7. Existing impervious cover is **0 sf or 0 %**;
8. Five (5) soil evaluations were conducted on the property. The results indicate an 18-inch seasonal high water table and 31" inches to category 9 soils. The site falls under **Sub-district "A"** requirements of the High Groundwater Table and Impervious Overlay District. The maximum impervious cover allowed is 10% (1556 sf);
9. The applicant is proposing to construct a 3-bedroom dwelling, a pervious driveway, OWTS and well;
10. The total proposed impervious cover proposed is **1530 sf**;
11. A new 3-bedroom advanced treatment OWTS (RIDEM permit #9015- 0016) is proposed;
12. For stormwater mitigation, a rain garden is proposed. The rooftop is directed toward a rain garden (with a bottom area of 576 sf);

13. The applicant's representative Richard Pastore, PE represented the applicant as an expert witness before the Planning Commission on 6-3-20;
14. The proposed impervious cover is **9.8%**, **1530 sf**. The maximum allowable impervious coverage for this site is 1556 sf;
15. The proposed BMP's provide treatment for the 1" water quality volume and provide storage for runoff from a 10-year frequency storm event for the proposed impervious surface on the site;
16. Jamestown Engineer Jean Lambert provided correspondence to Chris Costa, Building Official and Lisa Bryer, Town Planner dated February 24, 2020 regarding the Bilodeau application (attached) which notes that, the proposal, in her professional judgement, the requirements for development within 82-314 of the Zoning Ordinance have been met.

Recommended Conditions of Approval

1. A Special Use Permit for Section 314 is required from the Zoning Board of Review;
2. The proposed infiltration area and rain garden area must be physically delineated on the site prior to the commencement of construction to prevent compaction of the soil by heavy equipment;
3. An as-built plan should be provided at the completion of construction to the Building Official depicting the size and location of the house, size and location of the rain gardens, and verifying the elevations and grading shown on the proposed site plan;
4. The OWTS must be inspected and maintained as required by the Town Onsite Wastewater Management Program. A maintenance contract must be recorded in the land evidence records and a copy of the recorded document shall be submitted to the Planning Department; and,
5. The Operation and Maintenance (O & M) Plan (reproduced in 8.5" x 11" for the stormwater mitigation (rain gardens) shall be recorded in the Office of the Town Clerk with the Zoning Approval and evidence of such shall be provided to the Zoning Enforcement Officer as well as the Planning Department.
6. An erosion and sediment control permit will be required from the building official prior to commencement of construction. Erosion and sediment controls shall be installed at the down gradient limit of disturbance as shown on the site plans. Erosion controls shall be maintained until final stabilization is achieved on the site.

Attachments: 1) Memo from Jean Lambert, PE updated June 10, 2020 (accurate sf of rain garden)

2) A copy of the Application and Plan referenced above dated revised January 24, 2020

RE: Zoning Section 82-314: High Groundwater Table and Impervious Overlay District, **Sub-District A**
Andrew Bilodeau: AP 5, Lot 164; Beach Avenue, Jamestown, RI

I have reviewed the site plan entitled, “Development Plan, Beach Ave, Plat 5 Lot 164, Jamestown RI” revision dated 2/14/2020 and prepared by RP Engineering, Inc. for the above referenced property. **In my professional judgement, the requirements for development within 82-314 Sub-District A have been met.** This site was previously reviewed and approved under the HGWT process in 2012.

Existing Site/Soil Information:

Property is 21,600 sf in area. The existing site is undeveloped. Topography on the lot is flat. There is a freshwater wetlands wooded swamp (6038 sf) and its associated 50’ perimeter wetland along the east side of the property. Existing impervious cover is approximately 0 sf.

Five (5) soil evaluations were conducted on the property. The results indicate an 18-inch seasonal high water table and 31” inches to category 9 soils. The site falls under **Sub-district “A”** requirements of the High Groundwater Table and Impervious Overlay District. The maximum impervious cover allowed is 10% (1556 sf).

Proposed Site:

The applicant is proposing to construct a 3-bedroom dwelling, a pervious driveway, OWTS and well. The total proposed impervious cover is 1530 sf. A new 3-bedroom advanced treatment OWTS (RIDEM permit #9015-0016) is proposed. For stormwater mitigation, a rain garden is proposed. The rooftop is directed toward a rain garden (with a bottom area of 576 sf).

Zoning Section 82-314 Review

Impervious Coverage & Stormwater Management:

The proposed impervious cover is 9.8%, 1530 sf. The maximum allowable impervious coverage for this site is 1556 sf. The proposed BMP’s provide treatment for the 1” water quality volume and provide storage for runoff from a 10-year frequency storm event for the proposed impervious surface on the site.

Recommendations/Conclusions:

- Rain garden maintenance requirements shall be recorded into the land evidence record.
- The proposed rain garden area shall be physically delineated on the site prior to the commencement of construction to prevent compaction of the soil.
- Erosion and sediment controls shall be installed at the downgradient limits of site disturbance as shown on the site plan prior to the commencement of construction.

RAIN GARDEN O& M PLAN
BEACH AVE
PLAT 5 LOT 164
JAMESTOWN, RI

1. Rain gardens shall be inspected following at least the first two precipitation events of at least 1.0" to ensure that the system is functioning properly. Thereafter, it shall be monitored and maintained to insure proper functioning, plant growth and survival. Plants shall be replaced on an as-needed basis during the growing season.

2. Silt/sediment shall be removed from the rain garden when the accumulation exceeds one inch or when water ponds on the surface for more than 48 hours. The top few inches of material shall be removed and replaced with fresh soil mixture and mulch.

3. Pruning or replacement of woody vegetation shall occur when dead or dying vegetation is observed.

4. Soil erosion gullies shall be repaired when they occur.

5. Fertilizer or pesticides shall not be applied to plants within rain gardens.

Perennial plants and ground covers shall be replaced as necessary to maintain an adequate vegetated ground cover. Annual plants may also be used to maintain ground cover.

PERMIT APPROVAL SECTION

TO BE COMPLETED BY A DEM OFFICIAL; DO NOT WRITE BELOW THIS LINE

Based upon the representations of the owner, and the owner's agents, including the representative of the owner's licensed ISDS designer, this application for an individual sewage disposal system is hereby approved based upon the truth and accuracy of all information submitted. The Department of Environmental Management assumes no responsibility or liability for the future safe operation or maintenance of the aforesaid system, or the fitness or suitability of this system to this site, nor does it assume any responsibility for the accuracy and truth of the owner's or the owner's agents' representations. This approval is subject to future suspension and revocation in the event that subsequent examination reveals any data indicated on any application, form, submitted plan or sketch to be incorrect, or in compliance with the requirements or any condition of this site are such that the approved design is not in accordance with the requirements or in the event that the system discharges sewage on or to the ground surface, or on or to any watercourse or falls to operate satisfactorily in any other manner.

IMPORTANT: Please note the circled additional terms of approval

- Designer of record must witness and inspect all stages of construction and must submit a certificate of construction in accordance with SD27.00.
- Designer of record must contact DEM 24 hours before start of construction.
- Bottom of leaching area excavation must be inspected by the DEM prior to placement of any gravel or stone.
- System installation must be inspected by DEM prior to covering any component of the system with backfill.
- Approved per variance decision dated 1/19/04, all requirements, conditions and stipulations of which shall be strictly adhered to.
- I/A Technology: additional specific installation, operation, or maintenance requirements may apply (see DEM I/A Technology certification for this system type)
- Proper erosion and sedimentation controls must be installed prior to the start of construction.
- Other

Section C---C

RAIN GARDEN O&M PLAN

1. Rain gardens shall be inspected following at least the first two precipitation events of at least 1.0" to ensure that the system is functioning properly. Thereafter, it shall be monitored and maintained to insure proper functioning, plant growth and survival. Plants shall be replaced on an as-needed basis during the growing season.
2. Silt/sediment shall be removed from the rain garden when the accumulation exceeds one inch or when water ponds on the surface for more than 48 hours. The top few inches of material shall be removed and replaced with fresh soil mixture and mulch.
3. Pruning or replacement of woody vegetation shall occur when dead or dying vegetation is observed.
4. Soil erosion gullies shall be repaired when they occur.
5. Fertilizer or pesticides shall not be applied to plants within rain gardens. Perennial plants and ground covers shall be replaced as necessary to maintain an adequate vegetated ground cover. Annual plants may also be used to maintain ground cover.

Town of Jamestown

93 Narragansett Avenue
401-423-7200

Jamestown, Rhode Island
02835-1199

July 25, 2012

Mr. Bartholomew Catanzaro
3 Woodcrest Drive
Johnston, RI 02919

Dear Mr. Catanzaro,

The following is the decision on your Petition heard by the Town of Jamestown Zoning Board of Review on July 24, 2012.

After testimony was completed at the public hearing for which due notice was given and a record kept, the Town of Jamestown Zoning Board of Review, after taking into consideration all of the testimony and exhibits at the public hearing, makes the following determination:

A motion was made by Richard Allphin and seconded by David Nardolillo to grant the request of Bartholomew Catanzaro et ux Marjorie, whose property is located at Beach Ave., and further identified as Assessor's Plat 5, Lot 164 for a special use permit under Article 3, Section 82-314, Subdistrict "A" High Groundwater Table and Impervious Layer Overlay District, and a variance under Article 3, Section 3-2 (District Dimensional Regulations) to construct a 1,961 sq. ft. 3-bedroom dwelling and garage, which will be 30' from the front lot line, 40' required. Also a variance under Article 3, Section 82-308, Setback from Freshwater Wetland to install an Onsite Wastewater Treatment System 115' from the wetland instead of the required 150'.

Regarding this request, this Board has determined that this application does satisfy the requirements of ARTICLE 6, SECTION 600.

Regarding the request for a Variance, this Board has determined that this application does satisfy the requirements of ARTICLE 6, SECTION 606, PARAGRAPHS 1 through 4, and SECTION 607, PARAGRAPH 2.

Regarding the request for a Special Use Permit, this Board has determined that this application does satisfy the requirements of ARTICLE 6, SECTION 602.

This Variance is granted with the following restrictions:

1. This project must be constructed in strict accordance with the site and building plans duly approved by this Board.
2. Incorporate by reference the Planning Commission approval (Exhibit #3) of May 23, 2012.
3. A signed letter from Ms. Schultz (engineer) be filed as part of the conditions of the acceptance of this variance and shall be recorded with the deed.

This motion is based on the following findings of fact:

1. Said property is located in a R40 zone and contains 22,000 sq. ft.
2. Two neighbors stated concerns about the variances that have been granted in this "fragile" area.

The motion carried by a vote of 4 - 1.

David Nardolillo, Dean Wagner, Richard Cribb, and Richard Allphin voted in favor of the motion.

Thomas Ginnerty voted against the motion.

Judith Bell was not seated and Richard Boren and Joseph Logan were absent.

This special use permit and variance shall expire one year from the date of granting unless the applicant exercises the permission granted.

Very truly yours,

Thomas Ginnerty, Chairman
Jamestown Zoning Board of Review
TG/pw

Re: Bartholomew Catanzaro - Zoning Ordinance Section 314
High Groundwater Table and Impervious Overlay District
Sub-District A

Location: Plat 5 Lot 164, Beach Avenue

Date: May 22, 2012

Island Engineering has submitted a revised site plan that addresses the side setback concerns raised at the May 16th Planning Commission meeting. The proposed building footprint has been moved to the South to meet the required 30' side setback. This eliminated one of the dimensional variances the applicant is seeking. The applicant will still be seeking the following relief from the Zoning Board:

1. 35' of relief from Section 82-308(150' Freshwater Wetlands Setback)
2. Special Use Permit under Section 82-314 (Subdistrict "A" of HGWTO)
3. Dimensional Variance:

A front setback of 40' is required. The applicant is proposing a 30' setback due to the fact that RIDEM requires a 10' separation between the dwelling and perimeter wetland as part of their regulation, which prevents the applicant from moving the dwelling back 10' to meet the Town Zoning Requirements. A dimensional variance will be required.

Re: Bartholomew Catanzaro - Zoning Ordinance Section 314
High Groundwater Table and Impervious Overlay District
Sub-District A

Location: Plat 5 Lot 164, Beach Avenue

Date: May 11, 2012

We are in receipt of plans and drainage analysis prepared by Island Engineering as well as the OWTS Permit completed by Coventry Survey Inc. The applicant is proposing to construct a three-bedroom dwelling on the above referenced 22,000 SF vacant lot. The soil evaluation reports provided indicate that the depth to seasonal high groundwater is 24" and the depth to Category 9 soils is 31" placing this application in sub-district A.

The Applicant's OWTS permit from RIDEM shows the leachfield placed approximately 115 feet from the freshwater wetland edge, which requires a variance of 35' from Zoning Section 308. Section 82-308 of The Town of Jamestown's Code of Ordinance requires a 150 foot setback from the OWTS to freshwater wetlands. The Conservation Commission completed an advisory review of this application which is attached to this memo.

Fill and Grading

The applicant is not proposing the use of fill or significant grading changes on the lot.

Impervious Coverage

The Ordinance requires that the applicant exclude the area of wetlands on the lot when determining the amount of impervious coverage. After excluding the 6,038 SF of wetlands on the lot, the proposed impervious coverage of 13% still meets the requirements of the ordinance.

Onsite Wastewater System

The proposed Advantex onsite wastewater treatment system and bottomless sand filter leachfield provides advanced treatment, and meets the requirements of this ordinance.

Stormwater Controls

In order to mitigate the increase in runoff from the proposed improvements and disturbance to the wetlands, the applicant has proposed the use of an 8 inch deep, 316 SF Bioretention swale and pervious driveway. The proposed stormwater controls meet the requirement of the ordinance, and were required as part of the RIDEM Freshwater Wetlands Approval. However, it is important to note that the Town prefers the applicant to provide a minimum of 1 foot separation between the bottom of the stormwater control and the seasonal high groundwater table but in this case the applicant is only able to provide a 10" separation to the seasonal high groundwater table. In addition, we recommend that the construction, maintenance, and planting requirement of the bioretention area be recorded into land evidence with the Town Clerk.

Overview of Lot

Summary:

The applicant will be seeking the following from the Zoning Board:

1. 35' of relief from Section 82-308(150' Freshwater Wetlands Setback)
2. Special Use Permit under Section 82-314 (Subdistrict "A" of HGWTO)
3. Dimensional Variances
 - a. A front setback of 40' is required. The applicant is proposing a 30' setback due to the fact that RIDEM requires a 10' separation between the dwelling and perimeter wetland as part of their regulation, which prevents the applicant from moving the dwelling back 10' to meet the Town Zoning Requirements. A dimensional variance will be required.
 - b. A corner side setback of 30' is required. The applicant is proposing to construct a garage within this setback and a dimensional variance will be required.

We have provided a review of the site plan and drainage analysis for the above referenced lot. We believe that the application is complete and meets the requirements of the Zoning Section 314, The High Groundwater and Impervious Coverage Ordinance. We recommend that this application be placed on the agenda for the May 16th Planning Commission Meeting.

JAMESTOWN CONSERVATION COMMISSION

To: Planning Commission Members

From: Carol Lynn Trocki, Conservation Commission Chair

Carol Lynn Trocki

Date: April 16, 2012

Re: Conservation Commission Advisory Review of Sec. 82-308 Variance Request from Bartholomew & Marjorie Catanzaro, Plat 5 / Lots 164

At our meeting on April 10th, members of the Conservation Commission reviewed Mr. & Mrs. Catanzaro's development plans in response to their request for a variance from the 150 foot freshwater wetland setback required by Section 82-308 of the Town of Jamestown's Code of Ordinance. Given the Conservation Commission's charge, which includes the protection of the Town's water resources, we offer the following comments on the Catanzaro's variance request for your consideration:

1. The current development plan (prepared by Island Engineering, LLC. and dated 11/29/2011) shows an advanced technology onsite wastewater treatment system (OWTS) placed approximately 115 feet from the wetland edge, requiring a variance of 35 feet. It was the opinion of the Conservation Commission that a variance of this magnitude had limited potential to degrade the quality of groundwater and freshwater wetlands in the immediate vicinity, especially given the presence of a fully vegetated wooded buffer of greater than 50 feet between the wetland edge and the limit of disturbance and the proposed bioretention area.
2. Commissioners felt that the Catanzaro's have made a reasonable effort to limit the size of the building footprint and site the dwelling and wastewater treatment system so as to minimize wetland impacts. These efforts are enhanced by the preservation of a 50-foot wide fully vegetated wooded buffer.
3. Commissioners were convinced that the proposed development would not reduce the net capacity of the site to retain floodwaters given the proposed bioretention area and pervious driveway.
4. Appropriate erosion control measures, a pervious driveway, and a bioretention area have been proposed for the site. Commissioners felt that these efforts, along with the preservation of a 50-foot wide fully vegetated wooded buffer, reasonably limit the chances that sedimentation could negatively impact adjacent freshwater wetlands.

5. Commissioners felt that the proposed advanced technology OWTS, bioretention area and preservation of the wooded buffer adequately mitigate the chances that the capacity of the adjacent wetland to absorb pollutants would be reduced by this development.

6. After considering the extent of both existing residential development and freshwater wetlands within a 500' radius of the site, Commissioners concluded that design of this proposal (including the development sighting, use of erosion controls and pervious materials, and the proposed bioretention area) represents little or no addition to the cumulative impacts on nearby freshwater wetlands.

In light of these considerations, members of the Conservation Commission voted unanimously to recommend the approval of this variance request.

Insignificant Alteration – Permit

Re: Application No. 11-0199 in reference to the property and proposed project located:

Approximately 30 feet east of Beach Avenue and approximately 30 feet south of its intersection with Riptide Street, Utility Pole No. 20, Assessor's Plat 5, Lot 164, Jamestown, RI

Dear Mr. Catanzaro:

Kindly be advised that the Department of Environmental Management's ("DEM") Freshwater Wetlands Program ("Program") has completed its review of your **Request for Preliminary Determination** application. This review included a site inspection of the above referenced property ("subject property") and an evaluation of the proposed three (3) bedroom single family dwelling with associated driveway, well, septic system, landscaping, and stormwater management plan as illustrated and detailed on site plans submitted with your application. These site plans were received on December 20, 2011.

Our observations of the subject property, review of the site plans and evaluation of the proposed project reveals that alterations of freshwater wetlands are proposed. However, pursuant to Rule 9.00 of the Rules and Regulations Governing the Administration and Enforcement of the Fresh Water Wetlands Act (Rules), this project may be permitted as an **insignificant alteration** to freshwater wetlands under the following terms and conditions:

Terms and Conditions for Application No. 11-0199:

1. This letter is the DEM's permit for this project under the R.I. Fresh Water Wetlands Act, Rhode Island General Laws (RIGL) Section 2-1-18 et seq.
2. This permit is specifically limited to the project, site alterations and limits of disturbance as detailed on the site plans submitted with your application and received by the DEM on December 20, 2011. A copy of the site plans stamped approved by the DEM is enclosed. Changes or revisions to the project, which would alter freshwater wetlands are not authorized without a permit from the DEM.
3. Where the terms and conditions of the permit conflict with the approved site plans, these terms and conditions shall be deemed to supersede the site plans.
4. You must notify this Program in writing immediately prior to the commencement of site alterations and upon completion of the project.

Application No. 11-0199

2

5. A copy of the stamped approved site plans and a copy of this permit must be kept at the site at all times during site preparation, construction, and final stabilization. Copies of this permit and the stamped approved plans must be made available for review by any DEM or City/Town representative upon request.
6. Within ten (10) days of the receipt of this permit, you must record this permit in the land evidence records of the Town of Jamestown and supply this Program with written documentation obtained from the Town showing this permit was recorded.
7. The effective date of this permit is the date this letter was issued. This permit expires on July 1, 2017 unless renewed pursuant to the Rules.
8. Any material utilized in this project must be clean and free of matter that could pollute any freshwater wetland.
9. Prior to commencement of site alterations, you shall erect or post a sign resistant to the weather and at least twelve (12) inches wide and eighteen (18) inches long, which boldly identifies the initials "DEM" and the application number of this permit. This sign must be maintained at the site in a conspicuous location until such time that the project is complete.
10. Temporary erosion and sediment controls detailed or described on the approved site plans shall be properly installed at the site prior to or commensurate with site alterations. Such controls shall be properly maintained, replaced, supplemented, or modified as necessary throughout the life of this project to minimize soil erosion and to prevent sediment from being deposited in any wetlands not subject to disturbance under this permit.
11. Also prior to commencement of any site alterations, permanent buffer zone markers must be installed along the limit of disturbance at the locations indicated in red ink on the approved site plans, in order to provide permanent reference points on site that are clear to present and future property owners. Acceptable permanent type markers include 4" x 4" pressure treated timber posts, galvanized fence posts with cap, or granite or concrete bounds. Markers must extend a minimum 24" above grade. A permanent-type tag or sign labeled "RIDEM Buffer Zone" must be placed on each marker. A permanent-type fence at least 24" tall placed along the limits of disturbance and similarly labeled may be substituted where desired. **No alterations of any kind are permitted beyond these markers without first obtaining the necessary permit from this Program.**
12. Immediately upon installation of the buffer zone markers, this Program must be contacted to arrange an on-site inspection. Once proper installation has been confirmed by this Program, work may be initiated on the project as herein approved.
13. Upon permanent stabilization of all disturbed soils, temporary erosion and/or sediment controls consisting of silt fence must be removed.
14. You are responsible for the proper installation, operation, maintenance and stability of any mitigative features, facilities, and systems of treatment and control which are installed or used in compliance with this permit to prevent harm to adjacent wetlands until such time that you document that this responsibility has been assumed by another person or organization.

Application No. 11-0199

3

15. You are obligated to install, utilize and follow all best management practices detailed or described on the approved site plans in the construction of the project to minimize or prevent adverse impacts to any adjacent freshwater wetlands and the functions and values provided by such wetlands.
16. All plantings of shrubs or other forms of vegetation as shown or detailed on the approved plans for the bio-retention must be installed as soon as possible after completion of final grading; weather and season permitting. Any plantings, which fail to survive one full growing season shall be replaced. Replacement plantings shall be similarly guaranteed for one full growing season.

Kindly be advised that a permit is needed from the O.W.T.S. Program prior to commencing any work on this project.

Pursuant to the provisions in Rule 7.09 and Rule 11.04, as applicable, any properly recorded and valid permit is automatically transferred to the new owner upon sale of the property

Kindly be advised that this permit is not equivalent to a determination of the type or extent of freshwater wetlands on the subject property. Should you wish to obtain such verification, you may submit an application in accordance with Rule 8.03.

You are required to comply with the terms and conditions of this permit and to carry out this project in compliance with the Rules at all times. Failure to do so may result in an enforcement action by this Department.

In permitting the proposed alterations, the DEM assumes no responsibility for damages resulting from faulty design or construction.

This permit does not remove your obligation to obtain any local, state, or federal approvals or permits required by ordinance or law and does not relieve you from any duties owed to adjacent landowners with specific reference to any changes in drainage.

Please contact Shawna B. Smith (telephone: 401-222-6820, ext. 7427) should you have any questions regarding this letter.

Sincerely,

Nancy L. Freeman
