Subject: Garage at 6 Fairview St,

To whom it may concern:

Appreciate my new neighbors for wanting to have their new home compliment the existing garage in looks and size. I understand they intend to side the garage to match the exterior of the house like the previous owner did. Also they want to increase the height of the garage and I think that will make both more visually pleasing from the front and back. This will also allow for more useable floor space and head room for ease of movement and safety on the 2nd floor. Thank you for asking.

Yours truly,
Bruce W Callahan, Trustee
