INDEPENDENT AUDITOR'S REPORT

The Honorable President and
Members of the Town Council
Town of Jamestown
Jamestown, Rhode Island

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business type activities, each major fund, and the aggregate remaining fund information of the Town of Jamestown, Rhode Island (Town) as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of the Town of Jamestown, Rhode Island as of June 30, 2014, and the respective changes in financial position, and where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 4-13 and 68-76 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Jamestown, Rhode Island's basic financial statements. The introductory section, combining nonmajor fund financial statements, the combining fiduciary fund financial statements, other supplementary information and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements.

The combining nonmajor fund financial statements, the combining fiduciary fund financial statements, other supplementary information and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining nonmajor fund financial statements, the combining fiduciary fund financial statements, other supplementary information and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 13, 2015 on our consideration of the Town of Jamestown, Rhode Island's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of Jamestown, Rhode Island's internal control over financial reporting and compliance.

MANAGEMENTS' DISCUSSION AND ANALYSIS

TOWN OF JAMESTOWN, RHODE ISLAND
Management's Discussion and Analysis
For the Year Ended June 30, 2014
(Un-audited)

Our discussion and analysis of the Town of Jamestown, Rhode Island's financial performance provides an overview of the Town's financial activities for the fiscal year ended June 30, 2014.

Financial Highlights

- ❖ The Town's primary government net position decreased in the amount of \$198,809 as a result of this current year's operations. On a government-wide basis the assets of the Town of Jamestown exceeded its liabilities at the close of the most recent fiscal year by \$26,095,797. Net position of business activities decreased by \$9,111 or (0.13%) while the current net position of Governmental Activities decreased by \$189,698 or (.99%.)
- ❖ The Town's Government-wide (governmental and business activities) operating expenses were \$25,880,296 while revenues collected were \$25,681,487 for the 12 month fiscal year.
- ❖ As of the close of the fiscal year, the Town's governmental funds reported combined ending fund balances of \$9,272,901. Over 45% of this amount, \$4,234,863 is unassigned and available for use within the Town's designation and fiscal policies.
- ❖ At the end of the current fiscal year, the general funds unassigned fund balance was \$3,767,245, which equals 18.5% of the total general fund expenditures before other financing sources and uses for the fiscal year. On a GAAP basis the current fiscal year's revenues exceeded expenditures and other financing sources by \$217,802. On a budgetary basis revenues exceeded expenditures and transfers by \$580,499.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Town's basic financial statements. These basic financial statements consist of three components:

- Government – wide financial statements
- Fund financial statements
- Notes to financial statements

In addition to the basic financial statements, this report also contains other supplementary information.

TOWN OF JAMESTOWN, RHODE ISLAND
Management's Discussion and Analysis
For the Year Ended June 30, 2014
(Un-audited)

The Town's basic financial statements and other supplementary financial information provide information about all of the Town's activities. They provide both a short-term and a long-term view of the Town's financial health as well as information about activities for which the Town acts solely as a trustee for the benefit of those outside of the Town's government.

Government-wide financial statements - are designed to provide readers with a broad overview of the Town's finances in a manner, which is similar to a private-sector business. They are presented on the accrual base of accounting where revenues and expenditures are recognized on the date they occurred rather than on the date they were collected or paid.

The *Statement of Net Position* presents information on all of the Town's assets, deferred outflows of resources, liabilities and deferred inflows of resources with the difference between them reported as net position. Over time, increases or decreases in the Town's net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

The *Statement of Activities* presents information which shows how the Town's net position changed during the fiscal year. All changes in net position are reported when the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in the future fiscal periods. Examples are uncollected taxes and earned but unused compensated absences.

Both of the government-wide financial statements distinguish functions of the Town, which are supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The Town's governmental activities include general government and administration, public safety, development services, cultural and recreational services. The Town's business activities include the Jamestown Harbor Management Fund, Water Fund, On-site Wastewater Fund and the Sewer Fund.

The government wide financial statements are reported on pages 14 through 15.

Fund financial statements – A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town can be divided into two categories-governmental funds and proprietary funds.

Governmental Funds – Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on current sources and uses of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

TOWN OF JAMESTOWN, RHODE ISLAND
Management's Discussion and Analysis
For the Year Ended June 30, 2014
(Un-audited)

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental fund statements of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Town maintains governmental funds. Information is presented separately in the Governmental Fund Balance Sheet and in the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances for the General Fund and Capital Improvement Fund which are considered to be major funds. Data from the other funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

Proprietary Funds - The Town's proprietary funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The Town has four enterprise funds, the Jamestown Harbor Management Fund, the Water Fund, the On-site Wastewater Fund and the Sewer Fund.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Jamestown Harbor Management Fund, Water Fund, On-site Wastewater Fund and Sewer Fund.

The basic proprietary fund financial statements are presented on pages 19 through 21.

Fiduciary Funds - Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statement because resources of those funds are *not* available to support the Town's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found on pages 22 and 23.

Notes to Financial Statements - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements are presented on pages 24 through 67.

Other Information - In addition to the basic financial statements and accompanying notes, this report also presents certain supplementary information pertinent to the Town's operations. Required Supplementary Information is presented on pages 68 through 78.

The combining statements referred to earlier in connection with non-major governmental funds, and proprietary funds are presented on pages 79 through 111.

Government-wide Financial Analysis

Analysis of the Town of Jamestown's Net Position

As noted earlier, net position may serve over time as a useful indicator of a government's financial position and an important determinant of its ability to finance services in the future. The Town of Jamestown, governmental activities assets exceeded liabilities by \$18,991,527 as of June 30, 2014. This reflects an overall net decrease of \$189,698 from the previous year before any recognition of adjustments for prior years. See page 4 financial highlights for a further explanation.

TOWN OF JAMESTOWN, RHODE ISLAND
Management's Discussion and Analysis
For the Year Ended June 30, 2014
(Un-audited)

The portion of the Town's governmental activities net position of \$11,955,829 consists of its net investments in capital assets such as land, buildings and improvements, motor vehicles, furniture and equipment and infrastructure, less any debt used to acquire these assets, which is still outstanding. The Town uses these capital assets to provide services to its citizens. Consequently, these assets are not available for future spending. Although the Town's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves are unlikely to be used to liquidate these liabilities.

As of June 30, 2014 the Town of Jamestown reports positive balances in both categories of net position for the government as a whole.

Analysis of the Town of Jamestown's Operations

The following analysis provides a summary of the Town's operations for the year ended June 30, 2014. The Town first implemented GASB Statement 34, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments for the fiscal year February 29, 2004. Therefore, comparative data is available and is presented in the following schedules. Current year Governmental activities decreased the Town's net position by \$189,698 or (.99%), while business-type activities decreased the Town's net position by \$9,111 accounting for (0.13%) for a total increase in the primary governments net position of \$198,809 or (.75%)

The following table presents a comparative schedule of the activity that accounted for the increases in the Town's net position.

Financial Analysis of the Town of Jamestown's Funds

Governmental Funds - The focus of the Town of Jamestown's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the Town's financing requirements. In particular, the unassigned fund balance may serve as a useful measure of the Town's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the Town's governmental funds reported combined ending fund balances of \$9,272,901. Over 45% of the total amount, or \$4,234,863 constituted unassigned fund balances. The remainder of the fund balance is categorized at various commitment levels as follows.

Real Estate and Tangible Taxes - were over budget by \$224,567 due to high collection rate and payment of previous year's taxes.

Intergovernmental & Departmental - were over budget \$283,820 due to higher than anticipated activities in various departments and FEMA reimbursement.

Interests on Investments - were under budget \$11,589 due to continued low interest rates on investments.

Other- was over budget \$26, 257 due to anticipated revenues coming in during the year.

Expenses:

Financial Administration and Tax Assessor - was over budget \$12,351 as a result of various unanticipated expenses.

Public Safety - was under budget \$27,548 due to various cost savings.

Public Health- was under budget by \$34,636 due to various cost savings.

Library- was over budget \$15,093 as a result of various unanticipated costs.

Parks and Recreation - was under budget \$57,362, due to various costs savings.

Other – was over budget due to additional expenditure of \$43,264 to complete the East Ferry Seawall project.

Many of the salary line items are over budget due to labor contracts not being ratified at time of budget submission. There is a salary adjustment line item to offset the overage in the Other category in the legislative, judicial and general administrative group. The Town Administration salary line item is over budget by \$55,954, due to the retirement and severance for the Town Administrator.

Reconciliation of the Statement of Revenues,
Expenditures, and Changes in Fund Balances of Governmental Funds
to the Statement of Activities
For the Fiscal Year Ended June 30, 2014

Net change in fund balances-total governmental funds	\$	836,933
<p>Amounts reported for governmental activities in the statement of activities are different from the amounts reported as fund expenditures because:</p> <p>Governmental funds reported capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital additions exceed depreciation expense in the current period.</p>		
Capital Outlay		879,662
Depreciation Expense		(1,152,925)
		(273,263)
Reductions in deferred revenue that provide current financial resources to governmental funds are not reported as revenues in the statement of activities.		64,355
Some expenditures reported in the governmental funds that require the use of current financial resources are not reported as expenditures in the statement of activities. This is the net effect of those activities.		7,122
<p>The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts and similar items when debt is first issued, whereas bond premiums are deferred and amortized in the statement of activities. These amounts is the net effect of these differences in the treatment of long-term debt and related items.</p>		
Issuance of refunding bonds		(2,483,175)
Payment to bond escrow agent		1,502,850
Bond principal payments		698,658
Accrued bond interest		(92,350)

Notes to Financial Statements

TOWN OF JAMESTOWN, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS
June 30, 2014

NOTE 1 -SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Town of Jamestown, Rhode Island, have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the government's accounting policies are described below.

THE FINANCIAL REPORTING ENTITY

The Town of Jamestown is a municipal corporation governed by a Town Council/Town Administrator form of government with an elected five-member Town Council.

The Town of Jamestown was founded in 1639, incorporated as a Town in 1678; it was first chartered on November 5, 1974 and amended in the years 1992, 2002 and 2009. The Town is governed largely under the State Legislative Group. In some matters, including the issuance of short and long-term debt, the general laws of the State of Rhode Island govern the Town. The Town provides the following services as authorized by the State Legislative Laws: public safety (police, fire, traffic safety, inspections, zoning and building), public works (highways and streets, harbors, engineering and building maintenance), recreation, education, social services, and general administrative services.

In evaluating how to define the government for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in GASB Statement No. 14. Under GASB Statement No. 14, the financial reporting entity includes both the primary government, which is the Town of Jamestown and all of its component units. Component units are legally separate entities that meet anyone of the following three tests:

Test 1 - The primary government appoints the voting majority of the board of the potential component unit and

* is able to impose its will on the potential component unit and/or

* is in a relationship of financial benefit or burden with the potential component unit,

Test 2 - The potential component unit is fiscally dependent upon the primary government; or

Test 3 - The financial statements would be misleading if data from the potential component writ were not included.

The following entities were considered for classification as component units for the fiscal year ended 2014:

- * Jamestown School Department
- * Jamestown Fire Department
- * Jamestown Housing Authority

TOWN OF JAMESTOWN, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS
June 30, 2014

NOTE 1 -SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Although the School Department meets certain criteria of the tests listed above, the School Department is not deemed to have separate legal status apart from the Town. As a result, the financial data of the School Department has been included as part of the Town's General Fund within the Town's financial statements.

The Town of Jamestown's financial statements do not include the Jamestown Fire Department or the Jamestown Housing Authority.

A description of these entities and the reasons for their exclusion from the reporting entity are summarized below:

The Jamestown Fire Department is located in a Town-owned building. The Department was organized to provide fire protection for the citizens of Jamestown. Although this relationship suggests that the Department might be part of the reporting entity, the following factors suggest that the Department should not be included in the reporting entity:

- The Department is responsible for its fiscal affairs including the funding of deficits and the disposition of surpluses.
- The Department's management is responsible for the day-to-day operations of the department.
- The management of the Department is accountable to a governing board, which is not accountable to Town administration.

The Housing Authority services only citizens of the Town of Jamestown with low income housing throughout Jamestown. Although this relationship might suggest that the Housing Authority should be part of the reporting entity, the following factors suggest that the authority should not be included in the reporting entity:

- The Housing Authority is exclusively responsible for its fiscal affairs including the funding of deficits and the disposition of surpluses.
- The Housing Authority's management is responsible for employment of personnel and for the day-to-day operations of the Authority.
- The management of the Housing Authority is accountable to the Housing Authority's governing board, which is not accountable to the Town administration or Town Council.

BASIS OF PRESENTATION

Recently Issued Accounting Standards

The Town implemented the following accounting pronouncements for the year ended June 30, 2014:

- GASB Statement No. 65 - Items Previously Reported as Assets and Liabilities effective for the Town's fiscal year ending June 30, 2014
- GASB Statement No. 66 – Technical Corrections – 2012 an amendment of GASB Statements No. 10 and No. 62 effective for the Town's fiscal year ending June 30, 2014.
- GASB Statement No. 67 – Financial Reporting for Pension Plans – an amendment of GASB Statement No. 25 effective for the Town's fiscal year ending June 30, 2014.
- GASB Statement No. 70 Accounting and Reporting for Non-exchange Financial Guarantees effective for the Town's fiscal year ending June 30, 2014.

The Town will adopt the following new accounting pronouncements in future years:

- GASB Statement No. 68 - Accounting and Financial Reporting for Pension – an amendment of GASB Statement No. 27 effective for the Town's fiscal year ending June 30, 2015.
- GASB Statement No. 69 Government Combinations and Disposals of Government Operations effective for the Town's fiscal year ending June 30, 2015.
- GASB Statement No. 71 Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68 effective for the Town's fiscal year ending June 30, 2015.

The impact of these pronouncements on the Town's financial statements has not been determined.

Government-Wide Financial Statements

The statement of net position and the statement of activities display information about the reporting government as a whole. They include all funds of the reporting entity except for *fiduciary funds* (the activity of these funds are reported in the statements of fiduciary net position and changes in fiduciary net position). The government-wide financial statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

Fund Financial Statements

Fund financial statements of the reporting entity are organized into funds, each of which, is considered to be separate accounting entities. Each fund is accounted for by providing a separate set of self-balancing accounts, which constitute its assets, liabilities, fund equity, revenues and expenditures/expenses. Funds are organized into three major categories: governmental, proprietary and fiduciary. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the Town or meets the following criteria:

- (a) Total assets, liabilities, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total (assets, liabilities, and so forth) for all funds of that category or type (that is, total governmental or total enterprise funds), and
- (b) Total assets, liabilities, revenues or expenditures/expenses of the individual governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

In addition to funds that meet the major fund criteria, any other governmental or enterprise fund that the government's officials believe is particularly important to financial statement users (for example, because of public interest or consistency) may be reported as a major fund.

GOVERNMENTAL FUND TYPES:

These are the funds through which most governmental functions are typically financed. The funds included in this category are as follows:

General Fund - is used to account for resources devoted to financing the general services that the Town performs for its citizens. General tax revenues and other sources of revenues used to finance the fundamental operations of the Town are included in this fund. The fund is charged with all costs of operating the government for which a separate fund has not been established.

Special Revenue Funds - are used to account for restricted or committed revenues that comprise a substantial portion of the *inflows* of a fund.

Capital Projects Funds - are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Proprietary or Trust funds).

TOWN OF JAMESTOWN, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS
June 30, 2014

NOTE 1 -SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

PROPRIETARY FUND TYPES:

These funds account for operations that are organized to be self-supporting through user charges. The funds included in this category are as follows:

Enterprise Funds - are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy management control, accountability, or other purposes.

FIDUCIARY FUND TYPES:

These funds account for assets held by the Town as a trustee or agent for individuals, private organizations, and other units of governments. *Fiduciary Fund types are not part of the reporting entity in the Government-wide financial statements.* These funds are as follows:

Pension Trust Fund - is established to provide pension benefits to Police employees. The principal revenue source for this fund is employer and employee contributions and investment income.

Private Purpose Trust Funds and Agency Funds - are used to account for funds that are to be used for educational and welfare expenditures and for funds held in escrow for other parties.

BASIS OF ACCOUNTING

Measurement Focus – Government Wide Financial Statements

In the government wide financial statements the Statement of Net Position and Statement of Activities (governmental and business-type activities) are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expense, gains, losses, assets, deferred outflows of resources, liabilities and deferred inflows of resources resulting from exchange and exchange-like transactions should be recognized when the exchange takes place. . Revenues, expense, gains, losses, assets, deferred outflows of resources, liabilities and deferred inflows of resources resulting from nonexchange transactions should be recognized in accordance with the requirements of Section N50.

Those revenues susceptible to accrual are property taxes, franchise taxes, special assessments, licenses, interest revenue and charges for services. Sales taxes collected and held by the state at year-end on behalf of the government also are recognized as revenue. Fines, permits, and parking meter revenues are not susceptible to accrual because generally they are not measurable until received in cash.

TOWN OF JAMESTOWN, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS
June 30, 2014

NOTE 1 -SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

BASIS OF ACCOUNTING (continued)

Measurement Focus – Fund Financial Statements

The accounting and financial reporting treatment applied to the *fund financial statements* is determined by its measurement focus. All Governmental Fund Types and Expendable Trust Funds are accounted for using a “current financial resources” measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

All Proprietary Fund Types, Private Purpose Trust Funds and Pension Trust Funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the balance sheet. Fund equity (i.e., net assets) is segregated into contributed capital and retained earnings components. Proprietary Fund Type operating statements present increases (i.e., revenues) and decreases (i.e. expenses) in net assets.

All governmental fund types and agency funds are accounted for using the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual, i.e. both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Licenses and permits, charges for services, fines, forfeits, and miscellaneous revenue are recorded as revenues when received in cash. Those revenues susceptible to accrual are property taxes and investment earnings. Fines and permits are not susceptible to accrual because generally they are not measurable until received in cash. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except expenditures for debt service and other long-term obligations, which are recognized when paid.

Non-current portions of long-term receivables of Governmental Fund Types are reported on their balance sheets, in spite of their spending measurement focus. Special reporting treatments are used to indicate; however, that they should not be considered "available expendable resources" since they do not represent net current assets. Recognition of Governmental Fund Type revenues represented by non-current receivables is deferred until they become current receivables.

Because of their spending measurement focus, expenditure recognition for Governmental Fund Types excludes amounts represented by non-current liabilities. Since they do not affect net current assets, such long-term amounts are not recognized as Governmental Fund Type expenditures or fund liabilities. They are instead reported as Long-term Liabilities – Governmental Activities.

In applying the "susceptible to accrual" concept to intergovernmental revenues the legal and contractual requirements of the numerous individual programs are used as guidance. There are, however, essentially two types of such revenues. For one type, monies must be expended on the specific purpose or project before any amounts will be paid to the Town; therefore, revenues are recognized based upon the expenditures recorded.

TOWN OF JAMESTOWN, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS
June 30, 2014

NOTE 1 -SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

BASIS OF ACCOUNTING (continued)

For the other type, revenues are virtually unrestricted as to purpose of expenditure and nearly irrevocable or revocable only for failure to comply with the prescribed requirements, such as a Community Development Block Grant. These resources are reflected as revenues at the time of receipt or earlier if they meet the "available" criteria.

All Proprietary Funds and Pension Trust Funds are accounted for using the accrual basis of accounting. Their revenues are recognized when they are earned, and their expenses are recognized when they are incurred.

Budgetary Data and Budgetary Compliance - In accordance with the Town's Charter, the Town has formally established budgetary accounting control for its General Fund, and School Capital Improvement Fund, which is a Capital Projects Fund. All of the above are subject to annual operating budgets recommended by the Town Council and adopted at the annual financial town meeting.

The annual operating budgets' appropriation amounts are supported by revenue estimates and take into account the elimination of accumulated deficits and the re-appropriation of accumulated surpluses to the extent necessary. The General Fund and School Capital Improvement Fund budgets are in conformity with the legally enacted budgetary basis, which is not in conformity with generally accepted accounting principles. The budget to actual presentations in the financial statements for these funds is reflected on both the GAAP and budgetary basis. The difference between the budgetary basis and the generally accepted accounting principles basis is explained further in the Notes to Required Supplementary Information on page 76.

Appropriations, which are not expended or encumbered, lapse at year-end. The Town had no additional appropriations during the year.

Cash and Cash Equivalents - For purposes of the Statement of Cash Flows, the Proprietary Fund Types consider all highly liquid investments with a maturity of three months or less when purchased to be a cash equivalent.

Investments - Are Government Securities, Commercial Paper and various types of corporate stocks and bonds held in the Governmental or Fiduciary Fund Types, which are recorded at fair value. Fair value is determined by independent reporting agencies for all investments.

Receivables - Accounts receivable are recorded in the General, Special Revenue and Enterprise Funds. Estimated unbilled and un-advanced billed revenue from the Water and Sewer funds are recognized (or unearned) at the end of the year. The town uses the direct write off method to account for bad debt.

Property taxes, which were levied on the first Monday of June of the current year and other delinquent balances, are recorded as receivables offset by unearned revenue accounts on the balance sheets.

NOTE 1 -SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

BASIS OF ACCOUNTING (continued)

Inventories -Inventories are maintained on a perpetual system and are stated at cost (first in, first out method of inventory valuation) in the Enterprise Funds. Inventories are recorded as expenditures when consumed. All other funds consider the purchase of supplies and materials to be an expense when incurred.

Other Assets - Other assets held are recorded and accounted for at cost.

Pensions - The provision for pension cost is recorded on an accrual basis, and the Town's policy is to fund pension costs as they accrue.

Capital Assets - In Governmental Fund type, operations are accounted for using the "current financial resources" measurement focus. Capital assets, which include property, plant and equipment, and infrastructure (e.g. road, curbs and gutters, streets and sidewalks, and drainage systems), are reported in the applicable governmental or business-type activity columns in the government-wide financial statements. The Town defines capital assets as assets with an individual cost of more than \$5,000 and an estimated useful life in excess of five years. Such assets are recorded at historical cost or estimated historical cost (for certain assets acquired prior to 1960). Pursuant to the implementation of GASB Statement No. 34, the historical costs of infrastructure assets (retroactive to January 1, 1979) are included as part of the governmental capital assets reported in the government-wide statements. Donated assets are recorded at estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

The Town capitalizes certain interest costs in accordance with GASB Code Section 1400 as part of constructed assets. Interest is capitalized throughout the construction period in the Capital projects fund prior to the assets being transferred to the governmental fund and placed in service.

Property, plant and equipment for Proprietary Fund Types are valued at historical cost. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred.

Property, plant and equipment of the primary government is depreciated using the straight line method over the following estimated useful lives:

Underground Piping	65 Years
Buildings & Infrastructure	25-65 Years
Other Improvements	15-30 Years
Land Improvements	10-65 Years
Machinery and Equipment	5-30 Years
Vehicles	5 Years

Equity Classifications

Government-Wide Statements - Equity is classified as net position and displayed in three components:

- **Net investment in capital assets** - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- **Restricted** - Consists of net position with constraints placed on their use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments, or 2) law through constitutional provisions or enabling legislation.
- **Unrestricted** - All other net position that do not meet the definition of "restricted" or "net investment in capital assets".

Governmental Fund Financial Statements - The Town has adopted the requirements of the Government Accounting Standards Board GASB Statement No. 54 - *Fund Balance Reporting and Governmental Fund Type Definitions*. Acceptance of this statement has changed the Town's presentation of the elements of fund balances, a key indicator of inter-period equity. Listed below are the new fund balance categories and their definitions.

- **Non-spendable** – are balances that are permanently precluded from conversion to cash such as permanent funds and inventories.
- **Restricted** – requires that inflows and outflows of resources and balances be constrained to a specific purpose of enabling legislation, external parties or constitutional provisions.
- **Committed** – are balances with constraints imposed by the government using the highest level of decision-making authority. These constraints can only be removed or changed by the same decision making authority taking the same type of action.
- **Assigned** – are balances intended for a specific purpose by the government's management and are also appropriations of existing fund balances.
- **Unassigned** – are balances available for any purpose. They are not precluded by a management decision, law constitutional provision in the general fund.

The Town has set classification policies and procedures for the above noted level of fund balance reporting.

- a) For committed fund balances: the Town Council is the highest level of decision making authority.
- b) For assigned fund balance: Town management has decision making authority, with approval from the Town council.
- c) The Town considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available and considers committed amounts to have been spent when and expenditure is incurred for purposes for which amounts in any other unrestricted fund balance could be used.

NOTE 1 -SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund Balance Policies - Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last

Revenues, Expenditures and Expenses - Revenues for Governmental Fund Types are recorded when they are determined to be both measurable and available. Generally, tax revenues, fees and non-tax revenues are recognized when received. Grants from other governments are recognized when qualifying expenditures are incurred. Expenditures for Governmental Fund Types are recorded when the related liability is incurred. The Town will make use of any available restricted resources first versus unrestricted when determining expendable funds, when both are available. Revenues and expenses of Proprietary Fund Types are recognized using the full accrual basis of accounting. Revenue is recognized as earned and expenses as incurred. Operating revenues are defined as those revenues generated from fees and assessments all others are deemed non-operating.

Program Revenues - Amounts reported as program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions (including special assessments) that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

Property Taxes - The Town is permitted by State law to levy property taxes. Current tax collections for the Town were approximately 99.14 % of the total 2013-2014 levy. The Town Council establishes the tax rate for the Town and it is then voted on at the annual Financial Town Meeting.

The Town's 2014 property taxes were levied on the first Monday of June 2013 on assessed valuations as of December 31, 2012. Upon levy, taxes are billed quarterly and are due in September, December, March and June. Failure to make payments by due dates will result interest being charged on the unpaid balance. Failure to pay taxes owed will result in the sale of the property for taxes, interest and legal fees.

Vacation, Sick Leave, and Other Compensated Absences - Under the terms of various contracts and agreements, Town and School employees are granted vacation and sick leave in varying amounts based on length of service. Accumulated vacation and vested sick leave is to be paid with available expendable financial resources from the Governmental Fund Types and are recorded as a liability in the appropriate fund. For Proprietary Fund Types accrued vacation and sick leave is recorded as a liability within those funds.

Inter-fund Transactions - Quasi-external transactions are accounted for as fund revenues, expenditures or expenses (as appropriate). Transactions which constitute reimbursements to a fund for expenditures or expenses initially made from it, which are properly applicable to another fund are recorded as expenditures or expenses (as appropriate) in the reimbursing fund and as reductions of the expenditure or expense in the fund that is reimbursed.

TOWN OF JAMESTOWN, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS
June 30, 2014

NOTE 1 -SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

All interfund transactions except advances, quasi-external transactions and reimbursements are accounted for as transfers. Nonrecurring or non-routine transfers of equity between funds are considered equity transfers. All other interfund transactions are treated as operating transfers. The Towns policy is to eliminate inter-fund liabilities when assets become available or through approved equity transfers. In the Government-Wide financial statements these inter-fund balances are eliminated so not to “gross up” the assets and liabilities of the primary government.

Deferred Outflows of Resources – Represent a consumption of net position or fund balance by a government that is applicable to a future reporting period. As of the fiscal year ended June 30, 2014 the Town did not recognize any deferred outflows of resources.

Deferred Inflows of Resources – In addition to liabilities, the statement of net position and/or balance sheet can report deferred inflows of resources. Deferred inflows of resources represent the acquisition of net position that applies to a future period and which will not be recognized as an inflow of resources (revenue) until a later date. At June 30, 2014 the Town had one item qualifying as a deferred inflow of resources in the governmental funds balance sheet. Unavailable tax revenue represents property taxes receivables which are assessed on December 31, 2012 and prior and is not collected within 60 days of June 30, 2014. Net unavailable tax revenue included in the fund financial statements was \$123,309 at June 30, 2014. This amount is deferred and will be recognized as an inflow of resources in the years) in which the amounts become available.

Unearned Revenues - Represent funds received in advance of being owed or receivables, which will be collected and included in revenues of future fiscal years.

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates and the differences could be material.

NOTE 2- STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Legal Debt Limit - The Town's legal debt margin as set forth by State Statute is limited to three percent of total assessed value, which approximates \$64,960,225. As of June 30, 2014, the Town's debt was under the debt limit by \$55,910,708. The long-term debt reported in the Water and Sewer Funds are exempt from the three percent limitation.

Deposits With Financial Institutions - Under Rhode Island general laws, depository institutions holding deposits of the State, its agencies or governmental subdivisions of the State, shall at a minimum, insure or pledge eligible collateral equal to one hundred percent (100%) of the deposits which are time deposits with maturity's greater than sixty (60) days. Any of these institutions, which do not meet minimum capital standards prescribed by federal regulators shall insure or pledge eligible collateral equal to one hundred percent (100%) of the deposit, regardless of maturity. There were no violations of the requirements noted in the year. At June 30, 2014 the Town's uncollateralized deposits with an institution are \$2,980,529.

TOWN OF JAMESTOWN, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS
June 30, 2014

NOTE 3 – CASH AND INVESTMENTS

Deposits: The Town maintains deposits in various financial institutions that are carried at cost except for those amounts which are carried as petty cash. The carrying amount of deposits is separately displayed on the balance sheet as "Cash and Cash Equivalents".

Investments: Investment of all idle funds shall be made through national banks or trust companies, providing that the financial conditions and integrity of said institution or institutions are verifiable and can be monitored. The investment of funds shall be in direct obligations of the United States Government and "money market instruments" rated "A" or better. Investments in any one institution shall not exceed five (5) percent of that institutions capital and surplus as set forth in the institutions most recent audited financial statements. All investments will be made as would be done by prudent men of discretion and intelligence in such matters who are seeking a reasonable income and preservation of their capital.

Interest Rate Risk: The Town limits its exposure to fair value losses arising from changes in interest rates by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity, and investing operating funds primarily in shorter-term securities, money market funds, or similar investment pools.

Concentrations: The Town policy is to maintain a diversified portfolio to minimize the risk of loss resulting from over concentration of assets in a specific maturity.

Custodial Credit Risk

Deposits: This is the risk that, in the event of failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. As of June 30, 2014, \$2,980,529 of the Town's bank balance of \$10,681,665 was uninsured and uncollateralized.

Investments: This is the risk that in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party.

NOTE 3 – CASH AND INVESTMENTS (continued)

Custodial Credit Risk

Interest Rate Risk: This is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. Information about the exposure of the town's debt type investments to this risk using the segment time distribution model is as follows:

Type of Investment	Investment Maturities (in Years)				
	Fair Value	Less Than 1 Year	1-5 Years	6-10 Years	Over 10 Years
Government Securities	\$ 1,356,108	-	\$ 241,935	\$ 479,200	\$ 634,973
Corporate Bonds	2,090,883	50,863	1,167,669	872,351	-

Credit Risk: Generally, credit risk is the risk that an issuer of a debt type investment will not fulfill its obligation to the holder of the investment. This is measured by assignment of a rating by a nationally recognized rating organization. U.S government securities or obligations explicitly guaranteed by the U.S. government are not considered to have credit risk exposure. This table represents the investment type ratings for the Police Pension Fund as assigned by Moody's Investor's Service for the Town's debt type investments as of June 30, 2014.

NOTE 4 – PROPERTY TAXES

The Town is responsible for assessing, collecting, and distributing property taxes in accordance with enabling State legislation. Under the “current financial resources” measurement focus (fund accounting) property tax revenue is recognized in accordance with Section P70, “Property Taxes” of the *Codification of Government Accounting and Reporting Standards*, which states that such revenue is recorded when it becomes measurable and available. Available means due, or past due and receivable within the current period and collected no longer than 60 days after the close of the current period. In the government-wide financial statements revenue is recognized when earned (billed). The Town uses the direct write off method for un-collectable property taxes and follows state law when to write off the balance.

NOTE 5 – INTERFUND RECEIVABLES

The Town, in the ordinary course of business will transfer monies to various funds in order to meet current expenditures. The amounts are recorded as inter-fund balances. These amounts are expected to be repaid only when the receiving fund has sufficient available funds. These balances are eliminated on the government wide financial statements.

Interfund receivable and payable balances at June 30, 2014 are as follows:

NOTE 7: DIFFERENCES BETWEEN GOVERNMENTAL FUND BALANCE SHEET AND THE STATEMENT OF NET POSITION.

"Total fund balances" of the town's governmental funds \$9,272,901 differs from "net position" of governmental activities \$18,991,527 reported in the statement of net position. This difference primarily results from the long-term economic focus of the statement of net position versus the current financial resources focus of the governmental fund balance sheets. The effect of the differences is illustrated below.

TOWN OF JAMESTOWN
NOTES TO FINANCIAL STATEMENTS
June 30, 2014

NOTE 8: DIFFERENCES BETWEEN GOVERNMENTAL FUND OPERATING STATEMENTS AND THE STATEMENT OF ACTIVITIES. *(continued)*

(1) Because some property taxes will not be collected for several months after the town's fiscal year ends, they are not considered as "available" revenues in the governmental funds. Also, non-monetary transaction such as Town acquisition of tax sale properties are not recorded on the fund statements but are recorded in the statement of activities.

Property taxes	\$ 64,355
	<u>\$ 64,355</u>

Interest expense in the statement of activities differs from the amount reported in the governmental funds because interest payments are recognized as an expenditure when paid in the governmental funds while in the statement of activities they are recognized when accrued.

Accrued interest	\$ 7,122
	<u>\$ 7,122</u>

(2) When capital assets that are to be used in governmental activities are purchased or constructed, the resources expended for those assets are reported as expenditures in governmental funds. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. As a result, fund balance decreases by the amount of financial resources expended, whereas net assets decrease by the amount of depreciation expense charged for the year.

Capital outlay	\$ 879,662
Depreciation expense	<u>(1,152,925)</u>
Difference	<u>\$ (273,263)</u>

(3) Repayment of bond principal is reported as an expenditure in the governmental funds and, thus, has the effect of reducing fund balance because current financial resources have been used. NOTE 9 – LONG-TERM LIABILITIES

A. General obligation Bonds and Notes Payable

The government issues general obligation bonds and notes payable to provide funds for the acquisition and construction of major capital facilities. General obligation bonds have been issued for both governmental and business-type activities. General obligation bonds are direct obligations and pledge the full faith and credit of the government. These bonds generally are issued as serial bonds with equal amounts of principal maturing each year with maturities that range from 15 to 20 years.

The Sewer Department bonds and notes payable presented in the financial statements as direct liabilities of the Sewer Department fund are general obligations of the Town backed ultimately by its taxing power. Because the proceeds of the bonds are used entirely for the benefits of the Sewer Department and the liabilities and the related debt service of these bonds are accounting for in this funds.

The Water Fund bonds and notes payable presented in the financial statements as direct liabilities of the Water Fund are general obligations of the Town backed by the Water Funds ability to assess user fees. Because the proceeds of the bonds and notes are used entirely for the benefits of the Water Fund, the liability and the related debt service of these bonds are accounted for in the Water Fund.

B. New Debt, Current Refunding and Defeased Debt

The Town issued \$1,000,000 in general obligation new debt and \$1,570,000 in general obligation refunding debt with an average interest rate of 2.31%. The new debt proceeds were used to fulfill the Town's obligations to provide remediation for the Town's closed landfill and the refunding of \$1,490,500 outstanding general obligation bonds Series 2004. For the refunded bonds the net proceeds of \$1,582,850 (including a \$9,843 in underwriting fees) were deposited in an irrevocable trust with an escrow agent to provide funds for the future debt service payment on the refunded bonds. The Series 2004 general obligation bonds are considered defeased and the liability for those bonds has been removed from the statement of net position. The Town refunded the Series 2004 of general obligation bonds to reduce its total debt service payments over 8 years and to obtain an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$75,569.

The trust account assets and the liability for the defeased bonds are not included in the Town's financial statements. At June 30, 2014, the escrow balance is \$1,520,950.

NOTE 10 – EMPLOYEE RETIREMENT SYSTEMS

A. MUNICIPAL EMPLOYEES' RETIREMENT SYSTEM OF THE STATE OF RHODE ISLAND

The Town of Jamestown, Rhode Island participates in the Municipal Employees' Retirement System of the State of Rhode Island ("System"), an agent multiple employer defined benefit plan. The System includes a normal plan for general employees and both a normal and optional plan for police personnel. All full-time Town and non-certified School Department general employees participate in the System. The plan provides retirement, death and disability benefits and an optional cost of living adjustment (COLA) as outlined in Chapter 45-21 and Chapter 45-21.2 for Police and Fire of the Rhode Island General Laws (RIGL). The benefits may be amended by the Rhode Island General Assembly. The System issues a publicly available financial report that includes financial statements and required supplementary information for the Town. The financial report may be obtained by writing to Employees Retirement System of Rhode Island, 50 Service Avenue, Warwick, Rhode Island 02886, by calling (401) 462-7600 or by accessing their website at www.ersri.org.

Eligibility: General employees, police officers and firefighters employed by electing municipalities participate in MERS. Teachers and administrators are covered by the separate Employees' Retirement System of Rhode Island, but other school employees may be covered by MERS. Eligible employees become members at their date of employment. Anyone employed by a municipality at the time the municipality joins MERS may elect not to be covered. Elected officials may opt to be covered by MERS. Employees covered under another plan maintained by the municipality may not become members of MERS. Police officers and/or firefighters may be classified as such by the municipality, in which case the special contribution and benefit provisions described below will apply to them, or they may be classified as general employees with no special benefits. Members designated as police officers and/or firefighters are treated as belonging to a separate unit from the general employees, with separate contribution rates applicable.

Employee Contributions: General employees contribute 7.00% of their salary per year, and police officers and firefighters contribute 7.00%. In addition, if the municipality has elected one of the optional cost-of-living provisions, an additional member contribution of 1.00% of salary is required. If a municipality elects the optional 20-year retirement provision for its police officers and/or its firefighters, an additional contribution of 1.00% of salary will be required from these members. The municipality, at its election, may choose to "pick up" the members' contributions for its employees under the provisions of Internal Revenue Code (IRC) Section 414(h).

Salary: Salary includes the member's base earnings plus any payments under a regular longevity or incentive plan. Salary excludes overtime, unused sick and vacation leave, severance pay, and other extraordinary compensation. Certain amounts that are excluded from taxable wages, such as amounts sheltered under a Section 125 plan or amounts picked up by the employer under IRC Section 414(h), are not excluded from salary.

Employer Contributions: Each participating unit's contribution rate is determined actuarially. Contributions determined in a given actuarial valuation go into effect two years after the actuarial valuation.

Service: Employees receive credit for service while a member. In addition, a member may purchase credit for certain periods by making an additional contribution to purchase the additional service. Special rules and limits govern the purchase of additional service and the contribution required.

NOTE 10 – EMPLOYEE RETIREMENT SYSTEMS

A. MUNICIPAL EMPLOYEES' RETIREMENT SYSTEM OF THE STATE OF RHODE ISLAND *(continued)*

Final Average Compensation (FAC): Prior to July 1, 2012 and for general employee members eligible to retire as of June 30, 2012, the average was based on the highest three consecutive annual salaries. Effective July 1, 2012, the average of the member's highest five consecutive annual salaries. Once a member retires or is terminated, the applicable FAC will be the greater of the member's highest three year FAC as of July 1, 2013 or the five year FAC as of the retirement/termination date. Monthly benefits are based on one-twelfth of this amount.

Retirement Benefits

General employees: Eligibility

- Members with less than five years of contributory service as of June 30, 2012 and members hired on or after that date are eligible for retirement on or after their Social Security normal retirement age not to exceed 67.
- Members who had at least five years of contributory service as of June 30, 2012 will be eligible for retirement at an individually determined age. This age is the result of interpolating between the member's prior Retirement Date, described in Section (e) below, and the retirement age applicable to members hired after June 30, 2012 in (a) above. The interpolation is based on service as of June 30, 2012 divided by projected service at the member's prior Retirement Date. The minimum retirement age is 59.
- Members with 10 or more years of contributory service on June 30, 2012 may choose to retire at their prior Retirement Date if they continue to work and contribute until that date. If that option is elected, the retirement benefit will be calculated using the benefits you have accrued as of June 30, 2012, i.e., the member will accumulate no additional defined benefits after this date, but the benefit will be paid without any actuarial reduction.
- A member who is within five years of reaching their retirement eligibility date, described in this section, and has 20 or more years of service, may elect to retire at any time with an actuarially reduced benefit.

General employees: Monthly Benefit:

- For service prior to July 1, 2012, 2.00% of the member's monthly FAC for each year of service, up to 37.5 years (75% of FAC maximum). For service after July 1, 2012, 1.00% of the member's monthly FAC for each year of service.

Police and Fire employees: Eligibility

- Members are eligible to retire when they are at least 55 years old and have a minimum of 25 years of contributing service. Members with at least 10 years of service, had achieved age 45, and had a retirement age prior to age 52 as of June 30, 2012 may retire at age 52.

Retirement Benefits

Police and Fire employees: Monthly Benefit

- 2.00% of the member’s monthly FAC for each year of service, up to 37.5 years (75% of FAC maximum). If the optional 20-year retirement provisions were adopted by the municipality prior to July 1, 2012 and the member has attained 20 years of service, the benefit is 2.50% of the member’s monthly FAC for each year of service prior to July 1, 2012.

Cost of Living Adjustments – Pursuant to the Rhode Island Retirement Security Act, the Cost of Living Adjustment (COLA) has been suspended for any unit whose funding level is less than 80%. The COLA provision can be reviewed in a five-year interval. When the funding level of a plan exceeds 80%, eligible retirees may receive a COLA annually effective on their date of retirement plus one month. The COLA will be calculated as the five (5) year smoothed investment rate of return less 5.50%, with a 0.00% floor and a 4.00% cap. COLA will be delayed until the later of age 55 or three years after retirement. The COLA will be applied to the first \$25,000 of benefits indexed annually.

Disability retirement provisions - The plan also provides nonservice-connected disability benefits after 5 years of service; service-connected disability pensions with no minimum service requirement.

Annual Pension Cost: The Town’s annual pension cost of \$288,580 for MERS was equal to the Town’s required and actual contribution.

B. EMPLOYEES' RETIREMENT SYSTEM OF THE STATE OF RHODE ISLAND

All full-time teachers, principals, school nurses and certain other school officials (including the superintendent) in the Town's school system must participate in ERS, a cost-sharing multiple employer defined benefit plan administered by the Employees' Retirement System of Rhode Island (the System). The plan provides retirement, death and disability benefits (as well as annual cost of living allowances if certain conditions have been met) as outlined in Chapters 36-10 and 16-16 of the Rhode Island General Laws (RIGL). The benefits may be amended by the Rhode Island General Assembly. The financial report may be obtained by writing to Employees Retirement System of Rhode Island, 50 Service Avenue, Warwick, Rhode Island 02886, by calling (401) 462-7600 or by accessing their website at www.ersri.org.

Plan Year: A twelve-month period ending June 30th.

Administration: ERSRI is administered by the State of Rhode Island Retirement Board. However, the State Treasurer is responsible for the investment of the trust assets, including the establishment of the asset allocation policy.

Type of Plan: ERSRI is a qualified governmental defined benefit retirement plan. Separate contribution rates are determined for state employees and for teachers. For Governmental Accounting Standards Board purposes, it is a cost-sharing multiple employer plan.

B. EMPLOYEES' RETIREMENT SYSTEM OF THE STATE OF RHODE ISLAND (continued)

Eligibility: Most Rhode Island state employees and certified public school teachers participate in ERSRI. Certain employees of the Airport Corporation, the Economic Development Corporation, and the Narragansett Bay Commission participate in the plan as though they were state employees. State police officers, state judges, and teachers and administrators in the public colleges and universities are covered by their own separate systems, and are therefore excluded. Certain elected state officials are excluded unless they make an election to join ERSRI. Superintendents, principals, business agents and other administrators participate as teachers. Non-certified public school employees, such as teacher's aides, janitors, secretaries, and bus drivers, cannot participate in ERSRI, although they may be covered by the Municipal Employees Retirement System (MERS) or a separate plan maintained by the town or city. Eligible employees become members as of their date of employment.

Funding Policy: The funding policy is outlined in RIGL sections 16-16-22 and 36-10-2 (which can be amended by the Rhode Island General Assembly). Active plan members must contribute 3.75% of his/her compensation. The Town and the State are collectively required to contribute at an actuarially determined rate expressed as a percentage of total compensation paid to the active membership. The employer contribution is split and paid 40% by the State and 60% by the school district with the exception of teachers who work in federally funded programs where 100% is paid by the school district and reimbursed by the federal government. For fiscal 2014, the total employer rate 19.29% (7.88% State share and 11.41% local share). The State share of the employer contribution rate includes the total cost of prior contribution deferrals which was .28% for fiscal 2014.

C. POLICE DEPARTMENT PENSION PLAN

For the fiscal year ended June 30, 2014 the Town has adopted the requirements of the Government Accounting Standards Board GASB Statement No. 67 – *Financial Reporting for Pension Plans – an amendment of GASB Statement No. 25*. The objective of this Statement is to improve financial reporting by state and local governmental pension plans. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for pensions with regard to providing decision-useful information, supporting assessments of accountability and inter-period equity, and creating additional transparency. This Statement replaces the requirements of Statements No. 25, *Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans*, and No. 50, *Pension Disclosures*, as they relate to pension plans that are administered through trusts or equivalent arrangements (hereafter jointly referred to as trusts) that meet certain criteria. The requirements of Statements 25 and 50 remain applicable to pension plans that are not administered through trusts covered by the scope of this Statement and to defined contribution plans that provide postemployment benefits other than pensions.

C. POLICE DEPARTMENT PENSION PLAN

Plan Description

The Town of Jamestown administers a separately maintained Police Pension Plan. The pension plan is considered to be a single-employer defined benefit pension plan. The plan's funding is based on actuarial valuations that result in annual employer/employee contributions that include an amount for the past, present, and future benefit. The last actuarial valuation, reported herein, was as of July 1, 2014. The plan's assets are reported in the Town's annual financial report as a Pension Trust Fund.

The plan provides retirement benefits as well as death and disability benefits. All members of the police department who contribute to the plan are eligible to participate after six months of service. Participants in the plan who were hired prior to March 1, 1986 are eligible to retire at the earliest of their 55th birthday or completion of a specified number of years of service, depending upon date of hire. A participant hired on or after March 1, 1986 shall be eligible to retire at a date equal to the earliest of their 55th birthday or the completion of 25 years of service.

As of July 1, 2014, employee membership data related to this plan was as follows:

Active Members	12
Vested Term	2
Retired Members	<u>12</u>
TOTAL	<u>26</u>

Plan Description

The plan provides for both occupational and non-occupational disability. Non-occupational disability is provided for a participant who has completed at least 7 years of service and becomes totally and permanently disabled, and shall be entitled to receive a benefit equal to 50 percent of average compensation. A participant who becomes totally and permanently disabled as a result of the course of his employment shall be entitled to receive a benefit equal to 66 2/3 percent of average compensation. Average compensation is the highest three consecutive years of compensation in the last 10 years prior to termination.

If a participant shall die while employed, he shall receive a single sum benefit equal to the greater of the value of accumulated contribution, plus credited interest or \$400 multiplied by years of service up to 25 years subject to a minimum benefit of \$2,000. Employee's spouses are eligible for pre-retirement death benefits of 40 percent of average compensation until death or remarriage.

Valuation of Investments

Investments are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates.

NOTE 10 – EMPLOYEE RETIREMENT SYSTEMS

C. POLICE DEPARTMENT PENSION PLAN *(continued)*

Funding Policy

Police Department Pension Plan members are required to contribute 9% of their annual salary. The Town is required to contribute at an actuarially determined rate. The Town Council has the authority to determine the Town's obligation to contribute to the plan. The funding policy is based on the availability of Town assets. Required contribution rates by plan members are negotiated through labor contracts.

Annual Pension Costs

Significant actuarial assumptions included (a) a net investment return of 7 percent annually, (b) projected salary increase of 4 percent annually, (c) mortality RP 2000 M/F Combined Health Mortality Table and (d) a retirement age of 55 and the completion of 25 years of service or the participant's current age, if later.

Investments

It is the policy of the Jamestown Police Pension Board to pursue an investment strategy that reduces risk through prudent diversification of the portfolio across a broad selection of distinct asset classes. The following was the Board's adopted asset allocation policy as of June 30, 2014.

Asset Class	Target Allocation
Domestic equity	35.00%
International equity	N/A
Fixed income	65.00%
Other	N/A
Total allocation	100.00%

Rate of return: For the year ended June 30, 2014, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 10.90 percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

The components of the net position liability of the Town of Jamestown at June 30, 2014, were as follows:

	June 30, 2014
Total pension liability	\$ 8,723,051
Plan fiduciary net position	9,826,616
Town's net pension liability	\$ (1,103,565)
Plan fiduciary net position as a percentage of the total pension liability	112.65%

TOWN OF JAMESTOWN, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS
June 30, 2014

NOTE 10 – EMPLOYEE RETIREMENT SYSTEMS

C. POLICE DEPARTMENT PENSION PLAN *(continued)*

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Asset Class	Long-Term Expected Real Rate of Return
Domestic equity	10.60%
International equity	N/A
Fixed income	6.50%
Other	N/A

Discount rate: The discount rate used to measure the total pension liability was 7.00 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that Town contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the net pension liability to changes in the discount rate: The following presents the net pension liability of the Town, calculated using the discount rate of 7.00 percent, as well as what the Town's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00 percent) or 1-percentage point higher (8.00 percent) than the current rate: 7.00%

D. DEFINED CONTRIBUTION PLAN

Plan Description

The Town of Jamestown participates in the State of Rhode Island Defined Contribution Retirement Plan (the "Plan"). The plan is a defined contribution (money purchase) plan that operates under Section 401(a) of the Internal Revenue Code (IRC). The Plan is established pursuant to Chapter 10.3 of Title 36 of the Rhode Island General Laws. ("RIGL 36-10.3"). The Plan is effective as of July 1, 2012, and contributions to the Plan will begin on the first full payroll cycle in July, 2012. The purpose of the Plan is to provide retirement benefits for participating employees. The Plan issues a publicly available financial report that includes financial statements and required supplementary information. For further information the financial report may be obtained by writing to Employees Retirement System of Rhode Island, 50 Service Avenue, Warwick, Rhode Island 02886, by calling (401) 462-7600 or by accessing their website at www.ersri.org.

Employee contributions are immediately vested while employer contributions are vested after three years on contributory service. Contributions required under the plan by both the employees and employer are established by General Laws, which are subject to amendment by the General assembly.

Amounts in the defined contribution plan are available to participants in accordance with Internal Revenue Service guidelines for such plans.

Benefits are provided through:

Teachers Insurance and Annuity Association (TIAA). TIAA provides traditional annuities (and a variable annuity through its real estate account). You can receive more information about TIAA by writing to: TIAA, 730 Third Avenue, New York, NY 10017. You also can receive information by calling 1 (800) 842-2733.

College Retirement Equities Fund (CREF). CREF is TIAA's companion organization, providing variable annuities. You can receive more information about CREF by writing to: CREF, 730 Third Avenue, New York, N.Y. 10017. You also can receive information by calling 1 (800) 842-2733.

The Retirement Board is the Plan Administrator and Trustee responsible for Plan operation. The State Investment Commission is responsible for selecting the investment alternatives available under the Plan (the "Funding Vehicles"). Employee contributions and Employer's contributions are invested in the Funding Vehicles selected by the employee's. The Plan Year begins on July 1 and ends on June 30. All plan assets are stated at fair value. The Employer's current selection of Funding Vehicles isn't intended to limit future additions or deletions of Funding Vehicles. The selection of available Funding Vehicles is made by the Rhode Island State Investment Commission. Refer to the Plan's microsite www.tiaa-cref.org/ri for a current listing of Funding Vehicles and the investments thereunder.

D. DEFINED CONTRIBUTION PLAN

Municipalities with teachers that do not contribute to Social Security:

a. Plan Funding Policy

The funding policy is outlined in RIGL chapter 36-10.3 (which can be amended by the Rhode Island General Assembly). Active plan members must contribute 5% of his/her compensation and the Town is required to contribute 3%. The plan members and Town contributed \$194,583 and \$39,096 respectively, during the fiscal year ended June 30, 2014

Municipalities with general employees (not police and fire units) in MERS that contribute to Social Security:

b. Plan Funding Policy

The funding policy is outlined in RIGL chapter 36-10.3 (which can be amended by the Rhode Island General Assembly). Active non-police and fire members must contribute 5% of his/her compensation and the Town is required to contribute 1%. The plan members and Town contributed \$183,055 and \$36,748 respectively, during the fiscal year ended June 30, 2014.

Municipalities that participate in the Teachers Survivor Benefit Program (teachers not covered by Social Security)

c. Plan Funding Policy

Teachers Survivor Benefits – the plan provides a survivor benefit to public school teachers in lieu of Social Security as outlined in sections 16-16-25 through 16-16-38 of the Rhode Island General Laws (RIGL). Spouse, parents, family or children's benefits are payable upon death of a member. In lieu of a survivor benefit, members may opt to receive a lump sum return of their contributions plus interest upon retirement. The benefits may be amended by the Rhode Island General Assembly.

The cost of the benefits provided by the plan are two percent (2%) of the members annual salary up to but not exceeding an annual salary of \$9,600; one-half of the cost is contributed by the member by deductions from his or her salary, and the other half is contributed and paid by the school district. These contributions are in addition to the contributions required for regular pension benefits.

The Jamestown School Department contributed \$13,506, \$13,730 and \$13,730 during the fiscal years 2014, 2013 and 2012 respectively, equal to 100% of the required contributions for those respective years.

NOTE 11- FUND EQUITY

The fund equity balances have been classified to reflect the limitations and restrictions placed on the respective funds as follows:

The following fund balance categories are recorded on the Balance Sheet of Government Funds in the financial statements at June 30, 2014:

- **Non-spendable** – are balances that are permanently precluded from conversion to cash such as permanent funds and inventories.
- **Restricted** – requires that inflows and outflows of resources and balances be constrained to a specific purpose of enabling legislation, external parties or constitutional provisions.
- **Committed** – are balances with constraints imposed by the government using the highest level of decision-making authority. These constraints can only be removed or changed by the same decision making authority taking the same type of action.
- **Assigned** – are balances intended for a specific purpose by the government’s management and are also appropriations of existing fund balances.
- **Unassigned** – are balances available for any purpose. They are not precluded by a management decision, law constitutional provision in the general fund.

NOTE 12 –OTHER POST RETIREMENT BENEFITS

Plan Description

In addition to the pension benefits described above, the Town provides a single employer defined benefit postretirement health insurance program in accordance with Town union contracts. These benefits are for continued full family or individual health care for the employee groups as described below.

Plan Types

Police Officers

Medical: Blue Cross/Healthmate Coast to Coast

Dental: 100% cost paid by employee

School Employees

Medical: Blue Cross Blue Shield Classic Plan/Healthmate Coast to Coast

Dental: Delta Dental

Eligibility

Police Officers:

Police officers of the Jamestown Police Department are eligible for retirement under the Defined Benefit health plan after working 10 years of vesting service and after attaining age 55. Normal retirement date is defined as age 55 with 20 years of service.

TOWN OF JAMESTOWN, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS

NOTE 12 –OTHER POST RETIREMENT BENEFITS (Continued)

Eligibility

School Employees:

Retiring union employees from the Jamestown, RI School Department after attaining age 50 and 15 years of service. Administrative employees are eligible at age 50 with 10 years of service and non-exempt employees are not eligible. Teaching assistants and support staff are not eligible for postretirement benefits.

Benefit Formula

Police Officers:

Individual or family medical coverage is available to retirees under Blue Cross Healthmate Coast to Coast plan. The Town of Jamestown, Rhode Island (the "Town") covers 100% of the coverage for retired members hired prior to March 1, 1996 (except as described below); the Town also covers 80% of the coverage for retired members hired after March 1, 1996. Retired members are covered for their lifetime or until the time they become eligible for equal or better coverage through a future employer or spouse's employer. Retired members are not paid a subsidy or lump sum payment when opting out of coverage. Effective with future retirees that were hired prior to March 1, 1996, the Town would cover 93% of the coverage in 2011, and 85% of coverage for years beginning in 2012.

Benefit Formula

School Employees: Eligible employees hired prior to 8/31/1985 receive either individual or family medical coverage under Blue Cross Blue Shield Classic Plan or Healthmate Coast to Coast until the retiree becomes Medicare eligible. When the retiree becomes eligible for Medicare, he/she, and an eligible spouse, will be covered under the Plan 65. Retirees also receive individual or family Delta Dental coverage. Eligible employees hired prior to 8/31/1985 contribute 5% of their premium. Effective July 1, 2012, all current and future retirees are required to be enrolled in Medicare Part A and Part B to continue post-65 medical coverage under this Plan. Eligible employees hired between 8/31/1985 and 7/1/1997 will receive 2 years of individual medical coverage under Blue Cross Blue Shield Classic Plan or Healthmate Coast to Coast until age 65.

Retirees also receive individual Delta Dental coverage. Eligible employees hired in this period also contribute 5% of their premium. In addition, it is our understanding that eligible employees hired between 7/1/1997 and 8/31/2000 will be treated similarly. Eligible employees hired after 8/31/2000 may continue medical and dental coverage with the entire premium paid by the retiree. Surviving spouses are not eligible to continue receiving benefits.

NOTE 12 – OTHER POST RETIREMENT BENEFITS (continued)

Funding Policy

Contribution requirements are negotiated between the Town and the respective unions. The Town is required to contribute the cost of medical/drug and dental benefits, less the amount of any applicable co-payment in effect at the time of retirement. For the year-ended June 30, 2014, the plan operated on a pay as you go basis and no provision has been made to fund future benefits to be provided to plan members.

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include types of benefits provided at the time of each valuation and the historical pattern of sharing benefit cost between the employer and the plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. Below are the actuarial assumptions used to project future cost of the plan.

NOTE 13 - SUMMARY DISCLOSURE OF SIGNIFICANT CONTINGENCIES

A. Litigation

During the ordinary course of its operations, the Town is a party to various claims, other legal actions and complaints. These various legal actions include disputes in property valuations and torts for which the Town has been named as a defendant. In the opinion of the Town's management and legal counsel, they do not anticipate any of them to have a material financial impact or at this time their legal counsel has been unable to assess liability, if any, on the part of the Town.

TOWN OF JAMESTOWN, RHODE ISLAND
NOTES TO FINANCIAL STATEMENTS

NOTE 13 - SUMMARY DISCLOSURE OF SIGNIFICANT CONTINGENCIES *(continued)*

B. Federally Assisted Programs - Compliance Audits

The Town participates in a number of federally assisted programs. The audits of these programs through the year ended June 30, 2014 were audited in connection with the accompanying financial statements under the Single Audit Concept and the auditor's reports thereon are presented in the Single Audit Report. Management believes that the amounts, if any, of expenditures, which may be disallowed, will not be material to the financial position of the Town.

NOTE 14 - RISK MANAGEMENT

The Town of Jamestown is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors or omissions; injuries to employees; and natural disasters. As a result, the Town participates in a non-profit, public entity risk pool (Rhode Island Inter-local Risk Management Trust, Inc.) that provides coverage for property/liability claims and workers' compensation claims. Upon joining the Trust, the Town signed a participation agreement that outlines the rights and responsibilities of both the Trust and the Town. The agreement states that for premiums paid by the Town, the Trust will assume financial responsibility for the Town's losses up to the maximum amount of insurance purchased, minus the Town's deductible amounts. The policy is not retrospectively rated, but rather, premiums are based on the ultimate cost of the groups experience to date. The pool is allowed to make additional assessments for claims that are reasonably possible and estimable.

The Trust provides this insurance coverage through a pooled, self-insurance mechanism, which includes reinsurance purchased by the Trust to protect against large, catastrophic claims above the losses the Trust, retains internally for payment from the pooled contributions of its Members. Under the participation agreement, the Town is insured for a maximum of \$2,000,000 per occurrence. Settled claims resulting from these risks have not exceeded the Trust coverage in any of the past three fiscal years. It is not anticipated that the risks will exceed the trust coverage in the current year. There are no claims incurred for which the insurance pool has denied coverage. Therefore there are no incurred but not recorded liabilities at June 30, 2014.

NOTE 15 - DEFICIT FUND BALANCE OF INDIVIDUAL FUNDS

NOTE 16 – SUBSEQUENT EVENTS

Management has evaluated subsequent events through January 13, 2015 the date the financial statements were available to be issued.

NOTE 17 – PRIOR PERIOD ADJUSTMENT

Government-Wide Financial Statements and Proprietary Funds

In fiscal year 2014 the Town adopted the requirements of the Government Accounting Standards Board, *GASB 65 - Items Previously Reported as Assets and Liabilities*. The Statement establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. The Town has reclassified \$43,288 of prior years' debt issuance cost to expense from prepaid assets which were being amortized over various periods of time in the Government-Wide Financial Statements and \$78,500 of prior years' debt issuance cost in the Town's Water and Sewer funds which are reported in the Proprietary Funds.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
JUNE 30, 2014

The accompanying Statement of Revenues, Expenditures (GAAP or Budgetary Basis Non-GAAP) presents comparisons of the legally adopted budget with actual data on a budgetary basis. Because accounting principals applied for purposes of developing data on a budgetary basis differ significantly from those used to present financial statements in conformity with GAAP, a reconciliation of resultant basis, entity and timing differences in the excess (deficiency) of revenues and other financial resources over expenditure / expenses and other uses of financial resources for the year ended June 30, 2014 is presented below:

	General <u>Fund</u> GAAP Basis	School Capital <u>Improvement</u> GAAP Basis
Excess (deficiency) of revenues and other sources over (under) expenditures/expenses and other uses (Non-GAAP basis)	\$ 580,499	\$ (95,086)

Notes to Schedule:

Actuarially Determined Contribution:
 Actuarial Cost Method:
 Normal Cost

Calculated as the normal cost plus a 15 year amortization of the unfunded actuarial accrued liability.
 Entry Age Normal Actuarial Cost Method

The normal cost is the sum of the normal costs for all active participants who have not reached the assumed retirement date. For each such participant, the individual normal cost is the participant's normal cost accrual rate multiplied by the participant's current compensation. The normal cost accrual rate equals (a) the actuarial present value of future benefits as of the participant's entry age divided by (b) the actuarial present value of future compensation as of the participant's entry age. For other participants, the normal cost equals zero.

Salary Increase:

Asset valuation method:
 7.00%

Investment Rate of Return:

The later-of (a) the earlier of age 55 and the completion of 25 years of service, or (b) the participant's current age.

Retirement Age:

Mortality: Mortality improvements for the annuitant table are projected 7 years beyond the valuation date. Mortality improvements for the non-annuitant table are project years beyond the valuation date.

NOTES TO SUPPLEMENTARY INFORMATION
JUNE 30, 2014

The accompanying Statement of Revenues, Expenditures (GAAP or Budgetary Basis Non-GAAP) presents comparisons of the legally adopted budget with actual data on a budgetary basis. Because accounting principals applied for purposes of developing data on a budgetary basis differ significantly from those used to present financial statements in conformity with GAAP, a reconciliation of resultant basis, entity and timing differences in the excess (deficiency) of revenues and other financial resources over expenditure / expenses and other uses of financial resources for the year ended June 30, 2014 is presented below:

	General <u>Fund</u> GAAP Basis	School <u>Department</u> GAAP Basis	<u>Combined</u> GAAP Basis
Excess (deficiency) of revenues and other sources over (under) expenditures/expenses and other uses (Non-GAAP basis)	\$ 354,607	\$ 225,892	\$ 580,499
<i>Adjustments:</i>

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

INDEPENDENT AUDITOR'S REPORT

The Honorable President
and Members of the Town Council
Town of Jamestown, Rhode Island

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business type activities, each major fund, and the aggregate remaining fund information of the Town of Jamestown, Rhode Island as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the Town of Jamestown's basic financial statements, and have issued our report thereon dated January 13, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Town of Jamestown's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Town of Jamestown's internal control. Accordingly, we do not express an opinion on the effectiveness of Town of Jamestown's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

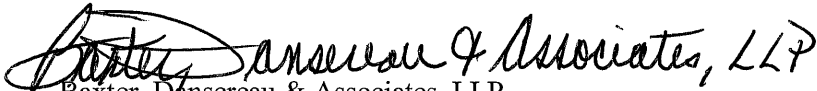

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Town of Jamestown's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an

objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE FOR MAJOR FEDERAL PROGRAM; REPORT ON INTERNAL CONTROL OVER COMPLIANCE; AND REPORT ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY OMB CIRCULAR A-133

INDEPENDENT AUDITOR'S REPORT

The Honorable President
and Members of the Town Council
Town of Jamestown, Rhode Island

Report on Compliance for the Major Federal Program

We have audited the Town of Jamestown's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the Town of Jamestown, Rhode Island's major federal programs for the year ended June 30, 2014. The Town of Jamestown's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal program.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Town of Jamestown's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Town of Jamestown's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal programs. However, our audit does not provide a legal determination of Town of Jamestown's compliance.

Opinion on Each Major Federal Program

In our opinion, Town of Jamestown, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal programs for the year ended June 30, 2014.

Report on Internal Control Over Compliance

Management of Town of Jamestown is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Town of Jamestown's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Town of Jamestown's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.
