FEMA Flood Map

**EXPLANATION OF ZONE DESIGNATIONS**

ZONE	EXPLANATION
A	Areas of 100-year flood; base flood elevations and flood hazard factors not determined.
AO	Areas of 100-year shallow flooding where depths are between one (1) and three (3) feet; average depths of inundation are shown, but no flood hazard factors are determined.
AH	Areas of 100-year shallow flooding where depths are between one (1) and three (3) feet; base flood elevations are shown, but no flood hazard factors are determined.
A1-A30	Areas of 100-year flood; base flood elevations and flood hazard factors determined.
A99	Areas of 100-year flood to be protected by flood protection system under construction; base flood elevations and flood hazard factors not determined.
B	Areas between limits of the 100-year flood and 500-year flood; or certain areas subject to 100-year flooding with average depths less than one (1) foot or where the contributing drainage area is less than one square mile; or areas protected by levees from the base flood. (Medium shading)
C	Areas of minimal flooding. (No shading)
D	Areas of undetermined, but possible, flood hazards.
V	Areas of 100-year coastal flood with velocity (wave action); base flood elevations and flood hazard factors not determined.
V1-V30	Areas of 100-year coastal flood with velocity (wave action); base flood elevations and flood hazard factors determined.

**NOTES TO USER**

This map is for use in administering the National Flood Insurance Program; it does not necessarily identify all areas subject to flooding, particularly from local drainage sources of small size, or all planimetric features outside Special Flood Hazard Areas. The community map repository should be consulted for possible updated flood hazard information prior to use of this map for property purchase or construction purposes.

Coastal base flood elevations apply only landward of 0.0 NGVD, and include the effects of wave action; these elevations may also differ significantly from those developed by the National Weather Service for hurricane evacuation planning. Areas of special flood hazard (100-year flood) include Zones A, A1-A30, AH, AO, A99, V, and V1-V30.

Certain areas not in the Special Flood Hazard Areas may be protected by flood control structures.

For adjoining map panels see separately printed Map Index.

INITIAL IDENTIFICATION:  
APRIL 20, 1972

FLOOD HAZARD BOUNDARY MAP REVISION:  
NONE

FLOOD INSURANCE RATE MAP EFFECTIVE:  
APRIL 20, 1972

FLOOD INSURANCE RATE MAP REVISIONS:  
July 1, 1974 - to change zone designations.  
February 27, 1976 - to reflect curvilinear flood boundary and to add special flood hazard areas.  
February 18, 1986 - to include the effects of wave action, to change zone designations, to change special flood hazard areas, and to change base flood elevations.  
June 16, 1992 - to add undeveloped coastal barriers and otherwise protected areas.

To determine if flood insurance is available in this community, contact your insurance agent, or call the National Flood Insurance Program at (800) 638-6620.

**ELEVATION REFERENCE MARKS**

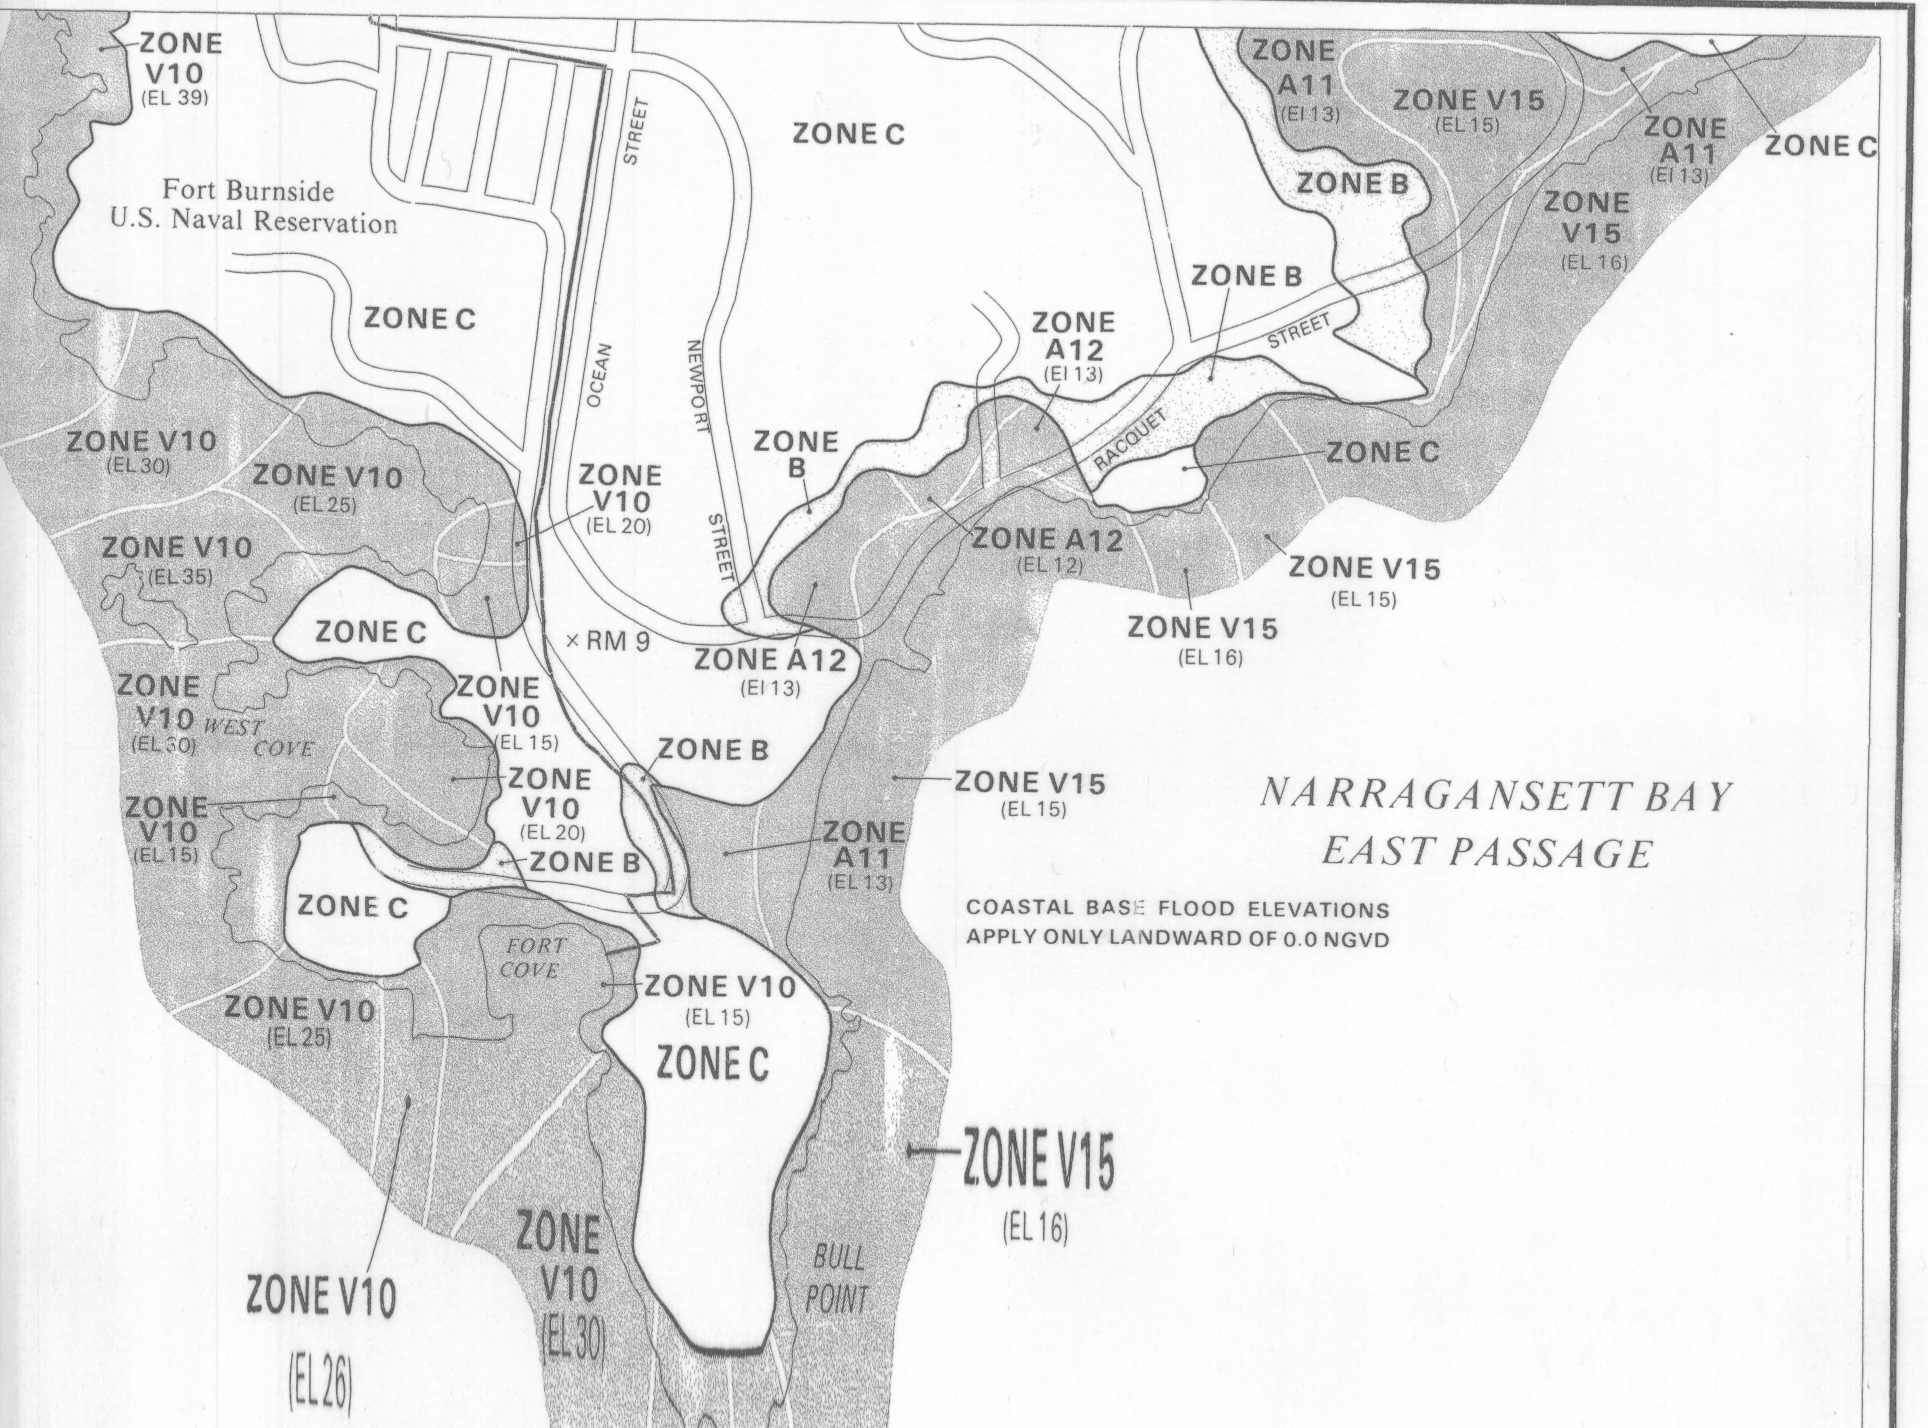

REFERENCE MARK	ELEVATION IN FT. (NGVD) <sup>1</sup>	DESCRIPTION OF LOCATION
RM 1	7.32	Chiseled square on north end of concrete seawall, 50 feet west of Fort Getty Road at entrance to Fort Getty Recreation Area.
RM 2	119.55	Standard USC&GS disk stamped HILL NO. 2 1940, set on top of 1 by 0.5-foot exposed boulder, 68 feet northwest of D.A.R. Memorial, on highest hill in area.
RM 3	36.378	Standard USC&GS disk, stamped BEAVER TAIL, 1940, set on top of concrete post flush with ground at south end of Beavertail Road, 4.5 feet northeast of third power pole north of Beavertail Lighthouse.
RM 4	69.229	Standard USC&GS disk, stamped LL 3 1943, set on top of center of west concrete headwall for an 18-inch pipe culvert under Beavertail Road, 42 feet south of pole No. 100, approximately 0.7 mile north of Beavertail Lighthouse.
RM 5	71.342	Standard USC&GS disk, stamped K3 1943, set on top of center of west concrete headwall for an 18-inch pipe culvert under Beavertail Road, approximately 200 feet north of intersection of Bayberry Road.
RM 6	22.82	Railroad spike set in pole No. 76 on west side of Beavertail Road, approximately 150 feet southwest of intersection of Hull Cove Farm Road.
RM 7	11.71	Chiseled square on southeast corner of culvert headwall at southwest corner of intersection of Beavertail Road and Fort Getty Road.
RM 8	61.57	Chiseled square in exposed 2 by 2-foot piece of ledge at northeast corner of intersection of Beach Street and Highland Drive and 25 feet east of centerline of Beach Street.
RM 9	25.761	Standard USC&GS disk, stamped J 34 1989, set on top of large mass of exposed bedrock, 48 feet east of highest point of exposed bedrock, 50 feet north of centerline of Ocean Street.
