REQUIRED BUILDING INSPECTIONS

For each permit received, the following INSPECTIONS are to be performed by the Building Official:

- **Erosion Control** PRIOR to excavation
- **Bottom Inspection** BEFORE installation of stone
- **Footings and Pier holes** BEFORE concrete is placed
- **Wall Forms** BEFORE concrete is placed
- **Damp Proofing** BEFORE backfill
- **Trench** (electrical/plumbing) inspection & under floor inspection BEFORE covering
- **Slab** (vapor retarder) BEFORE concrete is placed
- **Structural / Framing** AFTER electrical, plumbing & mechanical inspections
- **Insulation** BEFORE wall covering
- **Drywall / Fire Separation Assembly** to be inspected at each layer, as required
- **Chimney Construction** (when at smoke chamber)
- **Final** electrical, plumbing, mechanical & fire inspections
- **Final** building inspection
- **Certificate of Occupancy** or **Letter of Completion** at completion of project, including - but not limited to - all inspections mentioned above. Additionally, Final Grading and Soil and Erosion Plan compliance must be met, if applicable; a RIDEM Certificate of Conformance for septic systems, and completion of all CRMC requirements, if applicable.

Please request ALL inspections through the OpenGov Permitting and Licensing portal. Please allow 48-hours' notice for scheduling. Building inspections are typically done Monday through Friday.
